The Black Rose

Diana Sweeney

The Black Rose Diana Sweeney

Princess Wilhelmina Diamante, by birthright, should be the next queen of Aridale, but instead her younger sister, Edolie, has been chosen as queen for reasons unknown to anyone but the king and queen. When Edolie's engagement to Prince Jerome of a neighboring kingdom is announced, Wilhelmina soon finds herself in a mist of secrets and lies. Things only get more complicated when Wilhelmina finds out that she is part of a curse and the only way to end it may cost her life.

Jessica Peterson says

I really enjoyed the storyline, there were parts of it that I thought were just adorable. However, I think if this book were to go through a couple more rounds of edits, it would be even better. Sometimes the tenses were inconsistent and there were a few minor errors with mixed up details. Also, with the way the story was written, I got the impression it was from a time long long ago, however there were certain words/phrases that brought me out of the book for a moment and made me wonder "they wouldn't say that back then, would they". Bridezillas is the first thing that comes to mind. Other than that I loved the conclusion as I'm a sucker for happy endings. Endings in general really make the book for me and I was quite happy with this one. It was a quick read with lots of endearing twists. I felt interested in the main character and wanted to keep reading to know what would happen which is always a good sign. I would recommend it.
