**The Recruiter** Dani Amore , Dan Ames

**"Move over, James Patterson. Dani Amore has arrived."** -Amazon.com

**"A superb new thriller, a tour de force..."** -bookiio.com

What would happen if a military recruiter refused to take no for an answer?

In this gripping thriller, Samuel Ackerman has one dream: to become a Navy SEAL. But after dropping out of the legendary unit's training program known as Hell Week, he is forced to become a recruiter in his small hometown. In order to earn a return trip to SEAL training, he must have a successful turn as a recruiter. As he soon proves, he will stop at nothing to get what he wants.

**"Readers of Steig Larsson and John Grishman will love Dani Amore. Whether you fancy new murdery mystery novels, or bestselling crime books, this writer's prose is sharp and lethal. You've been warned."** -killerebooks.com

## From Reader Review The Recruiter for online ebook

### Pat says

#### Unforgettable

A thriller that does not stop thrilling! Edge of your seat suspense, a real page turner. The Recruiter is on a mission to become a navy seal, failing once he has turned deadly. Enter a drunken mum and a basketball star daughter Beth whose career has been shattered by injury. Beth applies to join the navy which now puts her in touch with the recruiter, a killer!! Highly recommend.

---

### Judi says

This was a fast and easy read and kept you interested. The problem for me, was there were really no surprises as to how this one would end.

Samuel Ackerman, abused all his life, and now he only wants one thing..To become a Navy Seal. This is his only dream in life. But one thing stands in the way. He almost makes it has a seal, but fails on the last test, he is forced to "ring the bell" and admit he won't be a Seal..But Samuel is not done, and can reapply. He does join the Navy with the hope that in 18 months, he can complete the Navy Seal training and become what he has always wanted..But, things stand in Samuel's way, and he is not one to let them kill his dream, so he becomes a killer.

The story is also about Beth, a basketball player, who is in her senior year and being recruited by all the Colleges..She has a lot to overcome, her father died at an early age, her Mom is now a drunk, and the only way she is going to college is get the recruiters to notice her..

So how do Samuel and Beth come together? Well that's the story and it is an interesting one. I think you will enjoy the book, there was a lot of action, but no surprise or twists for me.

---

### Don says

#### Super read

Action is non stop. Plot is superb and has many twists to it. The characters, are the best part of this novel. From a murdered Seal to a drunken mother, they all are an integral part to the storyline. The romance involved was fast and torrid. Believe me, this book is a lack of sleep adventure.

---

### Brian says

#### Lacking plenty of credibility

The plot for this story was okay, though it took about half way through the book to realize how the plot line was going to work (before the 'recruiter' even enters the story).

The writing also seemed a bit overdone. As in if it was Beth's last chance to reach a goal, the prose would go on for two paragraphs about 'it was her last chance. She had to do it. Everything counted on this moment.

She could not fail. That was not an option...etc for another two paragraphs.

But when the ASVAB came up and the author didn't get the acronym right (while writing a military based book, no less) it lost a LOT of points (it's the Armed Services Vocational Aptitude Battery, not the Armed Services Verification Ability Biography).

### **Rosemary says**

The Recruiter - a review by Rosemary Kenny

The story of one man's hurricane of destruction through many victim's emotions and lives, while chasing his impossible dream - of becoming a Navy SEAL and/or a 'normal' family life of his own - will rip apart your preconceptions of what constitutes true love and how pure love can transform even the most degraded and helpless person into the best they can possibly be, to the benefit of all whom they interact with and cherish.

A searingly honest spotlight on relationships - between the bereaved mother [turned alcoholic], Anna, crippled basketball star daughter Beth, Beth's boyfriend/betrayer Peter and the handsome, enigmatic and deadly Samuel, as they interact with one another and outsiders who are drawn into Samuel's evil web - will enthrall and amaze you like nothing you've ever read before.

This book has it all - dysfunctional relationships, love triangles, murder, teenage angst, alcohol dependency, the after-effects of bereavement, sporting prowess and loss of it, overcoming the odds, rites-of-passage, psychological manipulation, personality disorders, a serial-killer...you name it, master-creative author Dan Ames has it all here...in spades!

---

### **Lori Budd says**

Well thought out story line. I enjoyed the book and the concept was original. My one problem was that I think, or I hope, our government and police force would be able to figure out the "common link" much faster than they did in this book. I don't want to post spoilers, but I think the trail of murders had only one common denominator. But I do recommend highly, and would read pick up another book by Dani Amore if I ran across it.

---

## **Huub Nollet says**

Op zich eens heel anders: vanuit het gezichtspunt van de moordenaar (psychopaat) en vanuit het belangrijkste andere personage. Spanning wordt langzaam (misschien te langzaam) opgebouwd en vooral het laatst wil je weten hoe het afloopt. Dit soort boeken loopt natuurlijk altijd goed af voor de "goede" en slecht af voor de "slechte", maar desalniettemin leuk tijdverdrijf.

## **Sophie Watson says**

### **Was expecting better!!**

I work out most books before the end. That's ok. But this one did not gel. At all . The editing was ok for the first half but then it totally fell apart. the build up declined into a very messy ending. If you jump about character's it has to be cohesive. The talent is there. Just needs a lot of polishing. Sorry you have great ideas just did not ring my bell.

---

## **Dorothy Stone says**

### **Intense**

You can't put this book down until you finish. Well written with believable characters and an unusual plot. Would recommend this for anyone who loves great thriller.

---

## **Ray says**

A little above average 3.25. However, Ms Amore needs more research into the military. Enlisted personnel do not salute other enlisted nor address them as sir or mam.

---

## **Clark says**

### **Another Good One**

I read, and enjoyed, all 6 books in the John Rockne series and thought I would try another Dan Ames book. While not earth-shaking, I found this to be a good entertaining crime novel and will read more.

---

## **Thomas Pride says**

## **A Good Story**

Full of action, twists and turns. Surprise heroes throughout. A young girl, her alcoholic mom and a strong story set in Michigan. Enjoy the action.

---

## **John Shearer says**

### **The Recruiter**

This story was a good read, the only problem was a lot of really raw violence that could have been a little less.

---

## **Morag Fraser says**

### **Seriously Screwed Up**

Really good book but my god, that man was totally crazy. Killing his way to be a Seal, and he probably thought it would work too. Had enough killing the adults he thought stood in his way, the young kid, was gruesome.
