Can't Stop the Love of A Boss Toy

There is an unspoken code that men and women are supposed to follow:

Men: Bros before Hoes

Women: Sisters before Misters

Is there ever a reason why anyone should go against the grain in the name of love?

Lawrynn is the epitome of a good girl; brains, beauty, and a banging body. The total package. The only problem is that her heart led her to the wrong man. Never one to force what isn't meant to be, Lawrynn has no problem walking away from a relationship that just wasn't in the cards.

Pain is the man on the street with women at his disposal. Even though Pain can have his pick of the litter when it comes to women, he still decides to bite the forbidden fruit by crossing the line with Lawrynn's cousin Nikki.

Maurice "Murder" Jackson is a boss in his own right and carried himself as such. Never speaking unless a point had to be made, everything he said and did had a rhyme and reason behind it. Murder had warned Pain about his philandering ways in the streets and the risk of losing his girl to a real man, but what happens when that real man is none other than Murder himself?

What happens when lines of The G Code are crossed? One thing is for sure, the same thing that makes you laugh will definitely make you cry. The ladies will find out that no matter how hard you try, you Can't Stop The Love Of A Boss.

So good!

Murder is crazy gentle at the same time and I love it! Thank God Pain let the situation go with Murder and Law Baby bc Murder wasn't gone to let her go. I hope Nell and Allen get back together! Get rid of Nikki trifling self she's taking her issue out on the wrong ppl and now she's going to come face to face with Murder.

Denasha Smith says

Murder is B.A.E.

You can rely feel the love that Murder has for his Law baby. I feel bad for Nikki but she was going about things the wrong way. Pain better has gotten his mind right.

Can't Stop The Love

As usual, this author didn't disappoint. Nikki really got on my nerves. She is so sad, and I hope that Karma pays her a visit. I kinda feel sorry for her because of all that she went through, but then again I don't, because she is just doing too much. So much drama. She really needs to get some help. Hmm, we shall see in part 2.

Toy Reppin For VA

Great storylines. I just knew Murder and Pain were done. Murder is bae but he crazy as a bedbug. Nikki needs some help if she don't get killed first. This was a bomb read, but everything I have read by Toy was great. It's about to be on in part 2.

Straight no chaser

Murder is that man. Once Pain let Lawrynn go, he steps in and doesn't let go. He let Pain know upfront that

he's going after her, best friend or not. Law Baby finally getting the happiness she deserves but Nikki just won't let her be great. Nikki's latest stomp will end up costing her more than it does Law. Pain sees his mistakes after the fact, but I'm so glad that he finally owns up to them. I would have hate for Murder to show his true self to his brother. Poor Nell. Just when things start to look up for her in the love department, bam...she gets hit in the face literally with some mess. This story is good with interesting characters and plot. Murder doesn't bit his tongue for no one and like most of the characters, they give it to you straight like it is with no chaser. On to part two.

I did enjoy the book and look forward to book #2, this really was about following your heart even at the cost of your friends... However real friends will always find away back to being friends. That damn cousin... Needs to get what's coming and is blaming everyone but who did it.

Good

This was one hurly burly kinda of story right out the gate. The writer doesn't waste time about dropping you right in the thick of things which I think was a little too quick. We are not given a fair chance to form opinions about the characters. I also think there was a missed opportunity with the club scene. Also when has ridiculous rudeness become the normal and consider a bosses move. (not) The characters however are going to grow on you especially Murder. The jury is still out on if this is going to be WOW or well.

Great Read

Held my attention from beginning to end and I couldn't put it down...a page-turner. Enjoyed the storyline and these characters, it was well written. So loved Murder's characters, for once a very faithful man in urban fiction. He didn't play about his Law Baby and would murder anyone who harmed her. So loved Nell and Law closest and how they were with each other. Hope Nell and Allen work it out. So glad Pain finally got it together. Now, Nikki is a piece of work and crazy as they come. Love everything about Law and Murder relationship and can't wait to see how it continues to blossom. Ready to see what happens next in PT2. Highly recommend. Job well done Toy.

Great Book!!!

Toy did it again! But she gave me all in my feelings. I feel a little bad for Nikki for what she went thru but she's going thru with it ALL WRONG. Waiting for part 2. Love the relationship btw murder and Law ❤?

Catrina Pierce says

It was dumb

This book was dumb you never go behind your homebody/ homegirl ever and then be cool about it giving advice and stuff. I am not going to read 2 or 3 because everytime it said that all them were in the same room it pissed me off.
