Continuing the saga that the American Library Association has called "one of the most important works in American fantasy," ELFQUEST: WOLFRIDER VOL. 2 tells the tale of the legendary Wolfrider clan of elves and their adventures on a prehistoric world. Living in a magical universe of trolls, fairylike creatures, and primitive humans, the Wolfriders are a fierce tribe of elves who are desperately searching for the truth behind their origins. In this black and white book of fantasy and adventure, the Wolfrider tribe gains new insights into their mysterious past as a sphere falls from the sky and offers both enlightenment and tragedy.

Logan says

Interesting to read some back story into one of my favorite comic book series. Some of the artwork and stories were lacking a little bit, which I would like to believe was because Wendy and Richard Pini took more of a backseat in their development. Certainly the art by Wendy in this book was by far the best.
