Find Me Alastar

T.L. Swan

Find Me Alastar T.L. Swan

He outbid me, that was our initial interaction.

He was cocky, my first impression.

Then he stole my heart, I don't even think he noticed.

Alastar O'Shea was full of sexual energy, the things he would say, the addictive things he would do.

He knew how to make me come undone.

He knew how to love me.

He was the best experience of my sheltered life.

But do you ever really know who someone is?

What if the story I know isn't the story at all?

I thought I knew him

I was wrong.

From Reader Review Find Me Alastar for online ebook

Book Lovers Down Under says

Wow. Never read a book quite like this before.
From the very first page to the very last page I was hooked.
Hope you all enjoy Find Me Alastar as much as I have. Thanks.

Robyn Corcoran says

Warning- this is a true love story!
Wow! Yes this is a change in direction for TL Swan but it proves her versatility. Having just finished reading this story I feel I need to take a few breaths! This book really has an impact on the reader.
It is a strong, well thought out plot that lures the reader in, making them want to know the secrets behind the story.
I loved the strength and yet vulnerability of the characters and honestly wonder how anyone could not fall a bit in love with Alastar! The intense chemistry between characters is almost flammable, the passion is hot and the added touch of humour makes for an extremely enjoyable combination.
Yes I was a little perplexed at times however I believe this to be the devious plan by this author, very clever.

Dilek VT says

Reincarnation.
Star crossed lovers...
No HEA :(((((((((((

Cheryl O'Harney (The Book Whisperer) says

WOW what can I say I feel like I've just came off a roller-coaster an emotional one at that, this book really does have it all lust, love, anger, happiness, sadness and angst. You know how people say "I didn't see that coming" well I really didn't see that coming TL Swan this book was outstanding. Twinkle twinkle little star is one of my daughter's favourite nursery rhymes and as you're probably aware in it we wonder what the star is and then we find out it's a diamond well I now wish that a certain twinkling star was a sparkling green jewel embedded into a ring, I'd follow it as if it were the star of Bethlehem if it would lead me to Alastar. 5 amazing stars out of 5.

Carla Bulian says

Estou ainda tentando concentrar minhas ideias sobre esse livro! Vale a leitura? Claro que sim, essa autora sabe nos envolver com sua escrita!

Lillian ? Cloud 9 Books ? says

***** 5 Stars *****

I'm speechless... This book hit me so hard.

Everything about this story is perfect. The characters, the dialogue, the steamy moments.

I couldn't put this down. Honestly, it's one unforgettable story about true love.

I'll admit it... I was in tears at the end of the book.

I absolutely loved the mystery between the characters. There is also a pinch of an unexplainable element, but the story is not an over the top fantasy. I don't want to ruin this book for anyone, so I'm just going to stop right here. This is a must read for romance lovers!

Rose says

This was a definite 5 star read for me. But I hated the ending :(

Please do not read this review if you haven't read the book!!!

Even though their relationship is essentially timeless, I was invested in the characters in this life and I felt like we got half the story. Did they not end up together in that life? Did they move on marry other people? Or did they live their life and forget about each other so easily? I was SO invested in their passion and love that I can't see them moving on. I hated itttt ughhhh

I hated Em's 'hero' exit. We also never know if it actually worked! If it was successful In another life and they can finally be together, or if in the epilogue characters the same thing happens over and over again.

I really wanna give a 2 star or 1 star from how annoyed I am at the ending. I didn't find it beautiful or endearing. So basically we never know if they end up together or now they go through life breaking up in the end over and over. So we essentially finish the book the way it began except now we know their story. I think it's a unique way to end a book, but I just hated it. I like knowing my MCs have an HEA and here we just never know.

I am giving it 3 stars though because it was only the ending which completely ruined it for me and it's not fair to base my rating on the end when I enjoyed most of it.

I would love a conclusion and I'm angry at the ending considering I truly thought this would be a 5 star read for me..

Elizna Breytenbach says

Sometimes I wish I was more articulate, it has never been a talent of mine to get my thoughts across in a way that will express what I feel. Often I end up with foot in mouth disease.

That being said, I would like to tell you about my feelings for "Find me Alastar" – however badly it may come across... This has been one of those books that had me from beginning to end. It is one of the few books that will stay with me forever and ever. It's one of those books that you can recommend with certainty to anyone else because it relates to real love you can feel. I laughed, I cried and I really lived in the pages of this book. It is an amazing story and a true love between not only characters but real people. I was truly touched reading this book. Because of them, I will carry this story with me always.... And if you want to know who the "them" is – READ THE BOOK

Michelle says

I really had no idea what this book was going to be about. Somewhere in my head, I was convinced this story was going to be about a nanny who seduced the hot older widowed father; I think TL Swan planted that idea into my head and then forgot to tell me that wasn't the story she was writing. Or maybe I just really was wanting a younger girl/Silver fox story, but that is NOT what Find Me Alastar is about.

After Em finds herself wanting more from her life, something she can't quite explain – but just feels, she leaves her life and her boyfriend behind in Australia to begin fresh in London.

Now I can't really go into the story of Em and Alistar because their journey really needs to be experienced fully, without any spoilers – the impact of it all will be so much more if you have no idea what to expect.

That being said, I loved this book. I loved the story, I loved that although I pieced it together slowly and knew where she was taking us, it just made it so much more emotional when we got there.

I didn't expect this story. I didn't expect to find myself blurry-eyed as I read the final chapters. I loved that this book was a series of emotional blocks being stacked upon each other, all toppling over and hitting you right in the heart when you least expected it. I bawled, full on fit of ugly cries.

I did struggle with Em. I found her a bit childish at times, okay mostly. But that is usually just par for the course when it comes to this genre, so I took that in stride – her immaturity at times made me roll my eyes, but the larger story taking place overshadowed all of it. And weeks after finishing this book, I can tell you the ending – the full story overpowers anything little that tried my nerves.

This is one of those books that I just didn't want to end. I read the final pages and I just wanted to flip

through another hundred pages. If you want a unique story that is an epic story of love; pick this up.

Ang says

WOW! This book is very different! Once again, the author had me engaged from the very first sentence!! I enjoy a good romantic book but sometimes they feel repetitive- the same story different names- but this book is DIFFERENT! I'm trying to figure out how the author came up with this concept! It is thought provoking!! It is difficult to say more without giving spoilers- but you do NEED TO READ THIS BOOK! It has everything. Drama, mystery, romance, history and twists and turns!! This is a great book for book clubs as there are so many layers to discuss! It will leave you pondering and you will read it again to solve the mysteries! A timeless book that leaves you wanting more!

Amanda says

Wow this is truly a unique journey that TL Swan has taken me on, packed with mystery, angst, love and tears. A definitive roller coaster of mixed emotions that will have you guessing and on the edge of your seat until the very end. Even at the end of this book it will have your imagination running wild.

Alastair and Em's story is hard to put into words in a review without spoiling the journey that I highly recommend you take. This is not like anything I have ever read before.

I didn't think I could love a character as much as Joshua Stanton but Alastair O'Shea you have won my heart I adore you both.

Rachel says

Oh my word, what a book! I didn't think T L would be able to top my love for Joshua Stanton but she absolutely did!! I don't want to say anything about the storyline as you need to go in blind and just go with it, but I will say that this book is swoony and romantic yet is brimming with mystery, suspense and smoking hot scenes. I laughed, chuckled, fanned myself, gasped, cringed, swooned and cried, and I couldn't put it down. As always, after reading a book by T L Swan, I was left with a book hangover that had me not wanting to read anything else for quite some time, not many authors manage that feat!! I wholeheartedly recommend this book, snap it up quick before someone spoils it for you, you won't regret it!

Denise Owens says

I just finished reading this amazing book, and I am crying like a baby. Such a complex and wonderfully haunting story! The book starts with Emerson, the lead female character, (whose point of view is used to

speak to us throughout most of the book), as she leaves her native Australia, with her best friend, Brielle, to go to London. Emerson goes into an antique store, and falls in love with an emerald and rose gold ring. She is told by the old woman who runs the shop, that the ring has markings on it that show that it was made a long time ago, and was probably owned by royalty. Emerson wants the ring but she shouldn't buy it because it's too expensive. Suddenly, a very attractive Irish man comes into the shop and wants to purchase the same ring. He really wants the ring he says for his mother, and is willing to pay more than twice the asking price, but this makes Emerson really angry because she has the ring on her finger, and she really wants it, so she decides to go ahead and buy it. The handsome man, who she was attracted to, gives her his card with his name, Star, on it and asks her to contact him if she wants to sell him the ring. The next day, Emerson, runs into Star at her work, and there seems to be instant chemistry. Emerson continues to run into Star, where he tells her his name is really Alastar. Alastar cannot seem to stay away from Emerson, even though he seems to be giving her mixed signals and calling her Emmaline, but she cannot stop thinking of him. Alastar finally asks Emerson out, and there is a very strong emotional and physical attraction. Alastar wants to have a relationship with Emerson, but tells her that it has to be short lived because he is leaving in two weeks to go to America for an indefinite period of time with his brother, George. They decide to spend every minute of time together that they can before he leaves. Emerson discovers that Alastar is an award winning photographer and painter. At the end of the two weeks, they separate, both of them broken hearted. Emerson is extremely depressed and only leaves home to go to work. She starts to have strange dreams about a princess, Elizabeth, and her guard, Henry, and also starts sketching pictures of things, places, and people that she can't seem to get out of her head. She had purchased letters that are connected to the ring, after she gets a call about their existence from the old woman at the shop, who feels that she should have them. Emerson starts to read them, and they turn out to be letters from a man named Alchron to a princess, Emmaline. Finally Emerson goes out again with her friends, and runs into George. Emerson finds out that Alastar has been back from America for at least a month but never contacted her, and she becomes furious. She goes to Alastar's home, and I don't want to give anything else away because that is when the story really starts to get good. I would recommend this book to everyone who loves to read a good book, and I could totally see this being made into a movie. I just loved this book, and could not put it down until I was finished reading it. It is unlike any romance novel that I have ever read before!

Melissa says

Wow oh wow, TL Swan certainly outdone herself this time with her new release Find Me Alastar. I was fortunate enough to receive an ARC of this unbelievable book. Such a beautiful book, a perfect blend of romance, hot scenes and drama. There were many twists and turns and hidden lines, it made me feel every emotion I could feel. A truly unique book, the story line was so unique it had me hooked from start to end. I couldn't put it down. A must read.

Susan Schuttee says

I was so fortunate to receive an early ARC of Find Me Alastar. What a story! Emerson's journey is quite an emotional one. Find Me Alastar fascinated me from the prologue to the epilogue, I didn't want it to end! As Emerson slowly discovered pieces of the truth, I became more intrigued and more involved, I absolutely needed to find out Alastar's role in this story! Was he just a hot, sexy, Irish god? Or, was there more to him? Alastar, good, bad, or evil? Emerson couldn't stay away, neither could I! Find Me Alastar is a unique story, that will stay with in your heart and mind forever!
