A small book for people who are experiencing suicidal emotions, or for those offering them counsel. Suicide is not new, but its acceptability and even popularity are quite new. Statistics indicate that more than 101 people take their own lives every day. However, those who work in the field of crisis intervention also testify that a significant number of suicides are preventable provided help is available. This mini-book will help you to recognize the warning signs of suicidal thinking and increase the possibility of giving hope to a suicidal friend before it's too late.
