Elle Jordan

Infatuated Elle Jordan

When I took a job as a bartender at Hanson's to help pay for my classes, the last thing I expected to find was Kale Wilder. He's sexy, smart, and he makes me smile and laugh faster than anyone ever has. More importantly, he makes me believe in Mr. Right.

But Kale came to the wrong place at the wrong time, because someone else has his eyes on me. Someone who watches my every move.

Kale's the only one I want, but the more I feel for him, the more I fear for my safety. Because the other guy is getting closer and doesn't want to share. He's made it clear if he can't have me, no one can.

Rebecca {Not reviewing at the moment} says

[Plot

When Ally took a job at a bar to help pay for her classes, she didn't expect to meet Kale Wilder. Kale makes her feel things that she thought long forgotten, and it's not long before she starts to fall for him.

But Kale came along at the wrong time. Somebody else has had his eye on Ally for a long time, and watch

??♣?????✿✿!?? says

An okay read with angst, drama and you-wanna-slap one of the characters. Story just flows but it felt a little draggy for me.

I like Ally and Kale. At times you get a little angst at Ally. Kale is pretty awesome though.

Caissy Boudreau says

I loved everything about this book. It keeps you on your toes the whole time. I completely fell in love with Kale..I so want to steal him away. I hope there will be another book about Kale and Ally. I highly recommend this book to everyone..It is an awesome read

Nocturnal Bookworm says

I absolutely loved this book! Great story line, characters you totally become invested in & its incredibly well written. It is and easy read.....as in great story flow and a believable plot line.....I didn't want to put it down! Elle tells a story that is both heart wrenching and heart warming at the same time.....definitely make sure you have a box of tissues handy! This is a great stand alone novel and it is wrapped up well at the end. There's no "what the hell? Where's the ending?" feeling when you finish reading that you get with a lot of writers who don't know how to actually "end" a story. I can't wait to read more from this author and see what she comes up with next!

Hollie says

Lame/immature characters - boring plot

Wow. This has to be the most lame fucking book I've ever read. I hate rating a book 1 star, but in this case I

felt it to be unavoidable. I suffered through the first 30% and debating on quitting on it, but for some unknown reason I just kept going. My mistake. The characters in this read are by far the most "card board" type characters I've ever experienced. It was brutal. Throw in a lame ass plot. Immature characters that never at any time feel realistic. Some insta-love. And this hot mess is what you get. Just wow. It was bad. Can't believe this cost \$3.99.

Sammy says

I found this book on amazon, while I was scanning for Crazy Beautiful Love. And I just had this feeling I have to get my hands on it. And I am so glad , I got it. It was really good

The conversations are so witty and funny in the beginning , I was smiling even when my jaw was hurting. It grew serious as the pace picked up , but so does my likeness for Kale ...

Kale is such a darling , he is sweet, he is so witty , he is funny , caring , protective , without being the alpha male , he is just so damn good ...

Ally is really smart and strong girl , she trusts her instincts , when everyone thinks its nothing serious , she does take calculative steps .

The stalking thing really creeps me out, and makes the hair at my neck stand up straight ,I am glad how the author writes about it , making it real ,and not turning it into a full on action drama thing, coz in reality its the small things that takes place around you , that usually goes unnoticed.

All in all , it was good one , with right proportions of fun, romance and thriller ... I loved it , especially Kale <3 ...

Jennifer B says

Ally is a young non-dating college student focused on her schooling. She works her tail off in a bar to be able to afford to live alone. She loves her job at the bar but is uneasy about this guy Earl who is often there; he just won't stop staring at her. Every person from her boss to her friends thinks she is over reacting. One night leaving work she sees Earl's truck sitting in the parking lot of the bar and he's in it staring at her. In the process of freaking out and high tailing it back into the bar she bumps into Kale, who becomes her Knight in shining armor or make that leather jacket. Earl's stalking starts escalating, it seems that Earl wants Ally all to himself.

I fell in love with all the characters especially Ally...she was young but she had her priorities straight and she did everything right that you want to see in a situation like this. Kale was everybody's dream of a

rescuer...I went from really liking him to disliking him and then at the end he was just ok for me. Earl and everything he represents in this story just really gave me a sick feeling. I loved Ally and Kale's friends they were great supporting characters. The author did an outstanding job with the story line. I REALLY LOVED this book!

I would recommend this new adult book to someone looking for a suspenseful romantic book to fall in love with.

3.5 Stars

Lady says

Scary But Wonderful :)

This series must be read in order. This is the first book. I can't wait for the next one... More please!

I REALLY loved this book!!! The characters are very well written and engaging. There's a ton of suspense with a bit of romance and action thrown in. The editing was impeccable and it was really easy to read. This book illustrates every woman's nightmare vividly alongside every woman's dream. The contrast between the two is very intriguing... too bad not every girl with a stalker also finds a knight in shining armor. I have to admit that I was pleasantly surprised with how well this book kept my interest without all the cross genre bits :) It has been ages since i read straight thriller/suspense and if it was all like this I would read way more :) I can't wait to read more from this great author!!!

***This series is suitable for adult readers who enjoy suspenseful romantic thrillers where the identify of the bad guy is murky at best and the newly adult heroine learns to trust herself through the horror and uncertainty :)

Polly says

That was one of the dumbest books I've ever read.

Laura says

WOW, this book is awesome! Once I started reading it I couldn't put it down until I was finished. I love Ally who is a student and also works at a bar at night so she would be able to pay for school. Ally has a stalker who is following her everywhere but no one will help her because she doesn't have proof. She meets Kale at the bar, and he ends up being her protector, lover, and supporter. I was cheering for Ally and Kale through

the whole book. I feel that the author Elle Jordan, has done a wonderful job with this book and how she pulls in such an emotional situation with Ally having a stalker and what Ally has to go through. I is really emotional and makes us realize that it could happen to anyone at anytime. I love their friends and really hopes that Elle writes another book with the same characters. I would love to read more about Ally, Kale, and their friends.

A Review copy was provided to me in exchange for a fair and honest review. The free book held no determination on my personal review.

-Deena- says

I really hate giving books low reviews. I feel like it's just wrong because these authors put their blood, sweat and tears into these novels and I'm degrading them by saying they weren't any good. However, I do feel like they need to know the truth.

This book was all over the place. I really don't like whiney heroines. And I despise whiney heroes. And this book had both. Ally and Kale both got on my nerves on equal measures.

Ally is being stalked by a bar patron, Earl, who it seems everyone and their mother in the town know, and she's freaked out. She tries talking to people about it, but they think she's over-analyzing things. Ok, first off, if I was feeling that strongly about this man stalking me, I would have found another job. Second, I would have went straight to the police and gave them a heads up. Couple weeks pass by and she gets into a relationship (if that's what you wanna call it) with Kale and she thinks that he can stop all of this and protect her because he has a cop friend. Well, it doesn't work and some bad shit happens. That about sums up the book.

Kale, the hero, made me feel like all he wanted from Ally was sex. She was scared, he initiated sex. She was sad, initiated sex. She was mad, well, you get the picture. The author made the whole book around those two having sex or them fighting with one another, not really giving Earl a bigger story-line. I still don't really know why he was into her.

I could go on and on about the things I didn't like about this book. It was almost a DNF for me. It would have been if it wasn't for the fact I wanted to know what all happened with Earl. I skimmed A LOT! :(

Hope Welsh says

Loved it

Christine Wallflower & Dark Romance Junkie says

1. What would you do if someone was watching you?
2. You know who it is, but you can't prove it.

3. And even when you can, no one believes you.
4. Do you suck it up and hope he disappears?
5. Or do you fight back?

Ally, live in a small town where everyone no everyone else's business. She works in a bar and lives right across the street from it. She know's all the regulars and vice versa.

But when one of the regulars, starts paying a little too much attention to her. She starts getting scared. When she tell hers boss about her fears, he brushes it off and tells her, she's overreacting.

The only person who believes her is Kale.

Kale walks in to Ally's life with his bad boy swagger and his sweet charm. When Ally tells him of her stalker he doesn't hesitate, he believes her. And he will do whatever it takes to protect her.

The stalking escalates to a point where Ally is too scared to leave her own home. It seems the whole town is against her. Her stalker is a respected member of the community, while she has only been around for a few months.

What I liked

Ally is a normal girl, she goes to college works in the evenings. Seeing as she works at a bar she's used to come on's from the customers. But when one of those customers starts acting differently, she knows the difference.

Her stalker isn't ugly or grotesque looking, he's a normal looking guy with abnormal thoughts. And because of this the rest of the community takes his side.

I would have liked a POV from the stalker, I love getting inside the villains head.

What didn't work for me

Ally may have been a bit too hard on Kale at times, this annoyed me. She was sometime hypocritical expecting him to jump every time she called but she didn't reciprocate. What I mean to say is she could be angry at him, but not the other way around. Their relationship felt a bit rushed, but it didn't bother me too much.

And lastly the ending felt a bit abrupt.

Otherwise this was an engaging read with my favourite ingredients. A little bit of mystery, a creepy villain and good dose of romance with some angst thrown in!

Holy hell this book was amazballs!!! Elle Jordan brought every girls dream of Mr. Right and every girl's nightmare of being stalked together and created one hell of a story. I was totally sucked in from chapter one and couldn't stop thinking about it till I finished. All of the main characters are super relatable and multidimensional. Earl the antagonist is pure creepiness. Any girl who's ever been the victim of a stalker will totally be able to relate to the cops be ineffective and the people around you being passive. I just wanted to hug both Ally and Kale. I was super impressed by this and can't wait to see what Elle comes up with next.
