Oh please protect me from feminists dear lord. For goodness sakes! Wtf is wrong with women??? "I have a stalker that already tried to hurt me but I don't need your help, big strong capable guy! I can take care of myself even though I have no way to protect myself" I'm all for "girl power" but sometimes you need to accept help!

Let's not forget the fact that these people have NO idea how to communicate simple feelings. Ugh

Didn't love it as much as I thought I would from the description. Pending review for The Romance Reviews.

IDK...kept on putting the book down. I put it down several months ago and have a hard time picking it up since. Just couldn't get into the characters... Found it slow moving:-(

Monica's Review

Get yourself prepared for some hot, steamy passionate love making that will have you squirming in your seat. Get ready go drink up an iced drink because you will need it. There is some violence in the storyline that makes you just wish you were there to tear apart the men that think women are punching bags or there for them to tear inside out. Good thing that there are a couple of protectors that are willing to help a couple of women stay safe, but truly can they handle it?

Tina is one of the characters that is having difficulty with a stalker that has assaulted her and he vowed to come back to finish what he started. Tina is a brave woman but no matter how brave she wants to be there is always the fear lingering near by. One thing that I love about her character is that she is so sexually hungry in experimenting with outdoor sexual pleasure, she is able to forget about what happened to her and just relax and see where it takes her. Tina is so attracted to her neighbor that she tends to seek the long lonely

nights out on her balcony seeing this gorgeous, sexy, hunk of a man that will bring any one to their climax with only his look and maybe some encouraging dirty words. The one thing that I really did not care for was her self doubt, she likes a little adventure in her love making, even if she went through a traumatic experience, she should not be ashamed. Once she learns how a trust a person maybe she can finally let loose and be happy with her demanding ways in the bedroom.

Logan is one of the protectors in the story and can I say he can protect me all he wants. He has been looking at Tina since he moved in next door and he seems to be attracted to her as she is to him. There is only one problem with that, he seems to think he is not good enough for her; I do not think that should be his decision that should be hers. I totally fell in love with his character because he tries to be this big bad ass keeping an eye out for Tina. Logan seemed to have his own past that he needs to deal with but why not try to explore something new and make something out of it. When he finally finds out that she has a stalker, he no longer can keep himself away from her. He will find a way to protect her no matter what, if that is the last thing he does. I love how he thinks that Tina is this fragile woman that can not handle his domineering way in bed but if he only knew that she can handle her own.

This story drew me in so well, that I could not believe when I got to the end that it was over. I was so into the storyline that I lost track of time and was in my own world of feeling hopeless in what Tina was going through. I knew that Logan would not let her down but there are times that someone cannot be there at all times no matter how much they want to be. No matter what happened they were able to overcome their fears and had their happily ever after that they deserved. I thoroughly enjoyed this book and recommend this book to anybody that loves to read a good mystery/suspense with good erotic scenes between two characters that deserve each other.

4 1/2 Tea Cups!

It was good, but the second book in the series ruined it for me, they were the same story with different people.
