Rogue Agents Ethan Jones

After a nuclear incident in Pakistan, two agents of the Canadian Intelligence Service disappear during a covert operation in South Korea. They end up in a prison camp in North Korea, where they are being tortured to reveal top secret intelligence.

Justin Hall and Carrie O'Connor, CIS best field operatives, who have just returned from a terrorist-hunting mission in Syria, are ordered to infiltrate the most hostile nation in the world. Their objective is like nothing they have faced before: assassinate the two captured agents, one of whom is a good friend of Justin.

Justin and Carrie consider their allegiances and the consequences of their operation, as they join forces with a North Korean defector and two MI6 agents familiar with the treacherous terrain of the Communist country. Then they come upon new intelligence that complicates their almost impossible mission. It is now a race against time to reach the captured agents before it is too late.

Ethan Jones confirms that he is one of the exciting thriller writers at work today with this adrenaline-filled spy thriller, the fifth novel in the popular Justin Hall series.

Neera Sawhney says

A tightly woven plot, with Justin and Carrie at the helm. A smashing thriller with a war scenario. One of the best i've read lately.

Keith Wright says

“The truck bounced over a bump in the road, and they were airborne for a few moments. Gravity did its job, and the truck dropped back onto the road. Its front wheels slid a couple of feet and Carrie fought to regain control.”

Once again Ethan leads us on an action packed adventure with his hero Justin Hall. As we follow the adventure we are bumped and dropped reminiscent of the poor truck and on more than one occasion it feels that we are sliding in to various situations that there is no chance of escape from.

Although this is the 5th book in the series there is no need to have read the previous books to follow this one. It works excellently as a stand-alone piece as well as part of an on-going series (think of the way the James Bond books work).

The greatest compliment I can pay this book is to liken it to the “Bourne” series. Obviously it is different but I feel if you like that style of story you will love this book, if you want a really good read go get this book today.

I need to mention I was given this book for free but that has no way influenced my views, I just love this author and his work.

(PS I have given free books zero and one stars in the past and reserve the right to do so again!)Ethan Jones

Special Agents (Justin Hall #5) is another fast-paced thriller perhaps the author's best work to date with this character. With each book he writes, Ethan Jones continues to polish his craft. Another very good read I look forward Jones' next book.

Mandy Walkden-Brown says

Great characters, an action-filled adrenaline ride.

Another ripper of a read from Ethan Jones. Also one you probably shouldn't begin if you're planning to actually get any sleep. Could not put it down.

The story opens in Syria and Justin and Carrie find themselves in the midst of a moving firefight. The tension factor ratcheted up even further as Justin and Carrie cross the border from China into North

Korea in search of the CIS's missing agents.

Very enjoyable, but quite exhausting read!

Rouge Agents is another fantastic read by Ethan Jones that is an action packed, suspenseful adventure that kept me on the edge of my seat with the twists throughout the whole book.

Loved the storyline, the impossible mission Justin Hall, Carrie O'Conner along with MI6 operatives Rex and Eve are given to get into North Korea, into their prison, accomplish their mission and exit via China that's without This mission being changed at the last minute and maintaining anonymity. Couldn't put it down.

A must read and looking forward to the next Justin Hall book

Rogue Agents. Ethan Jones

Two Canadian clandestine agents are captured by the North Koreans. Betrayed by a honey trap. Justin Carrie and two British agents are sent to Korea initially to eliminate them as traitors. False information is discovered, perpetrated by Justin's own home office in Canada. It is now a rescue mission. This is a tremendous action filled story. A fantastic read!!!

Justin Hall Series #5

By Ethan Jones

Justin Hall is back and this just may be his most difficult mission yet...

Two CIS agents have either been captured or turned rogue and North Korea is reaping the benefits of this intel and all of CISs assets in Asia are at risk.

Carrie and Justin are unknowns in the region and are tasked with stopping the flow of intel and it won't be pretty. But Justin will carry out his orders even if he doesn't agree with them.

With time running out Carrie and Justin have to devise a plan to not only get into North Korea, but to find assets to assist them in might very well be a suicide mission. But what no one realizes is that another party is involved

This is Justin Hall and nothing is ever easy and the impossible becomes possible. But can Justin bring everyone home or will this be the mission that ends it all? Be prepared for yet another suspense-filled mission as Justin tries to get to the truth.

I was provided a copy of this book in exchange for my honest review.
