I love this so much. Rakan is such an amazing person.

The dream sequence really got to me. And I think the talk Rakan and Chigusa have afterwards was really good.

(What I don't like so much is that sometimes Chigusa is thought of as "bedauernswert". I don't know, I find that really mean... It could just be me and how I understand this word in general, but in my mind when someone says this it's always with a hint of that person looking down at the other one...)

TOMO 10!! oooh creo que apenas comencé estos mangas haces 3 días y ya voy tan lejos...

Bueno, me gusto bastante este tomo, agarro un tema que me estuve preguntando desde el volumen 4. Si Rakan se arrepiente de ir al imperio Amato.

Y me gusto mucho un nuevo personaje, es linda y en cierto sentido tiene razón (aunque no la apoyo). Y no me canso de los momentos cómicos de Chigusa.

It's good, but too bad that there's no new volume coming out.

I'm really torn between reading these as fast as I can and saving them so I have more of this to read. This is such a lovely series - yes, I wouldn't mind if Rakan and Chigusa became, um, even closer, but I also don't mind that they're only as close as they are. Plus, I would really miss Narushige and Touji's chaperoning.
