Do you love the feel of a good lotion but find yourself unhappy with the cost, or wary of the chemical ingredients? Do you ever wonder if you could make it for yourself at home? Are you afraid to try because the lotion might not turn out well, or might even be unsafe?

Anne L. Watson's "Smart Soapmaking" was the first book based on modern techniques that eliminate the drudgery and guesswork from home soapmaking. Now, by popular demand, she continues her handcraft cosmetics revolution with the first practical, comprehensive book on making lotion from scratch.

Whether you want to make lotion for personal use or to sell, Anne allays any fears with methods that are proven safe and approved by experts, yet simple and easy enough to perform in your kitchen. You'll soon be making lotion that's better than any you've been buying, and at a fraction of the cost.

Anne L. Watson is the first author to have introduced modern techniques of home soapmaking and lotionmaking to book readers. She has made soap under the company name Soap Tree, and before her retirement from professional life, she was a historic preservation architecture consultant. Anne and her husband, Aaron Shepard, live in Bellingham, Washington.

**Shirley A Thomason says**

**Smart lotionmaking**

I was disappointed in this book for me because I already had made herbal lotions. There was too much information for me but someone who had never made any it might be okay.

---

**Yvonne Thompson says**

Very educational. I enjoyed learning about this subject.

**Janelle b says**

I have recently started making my own lotion & I found this book helpful & informative. The explanation of some of the terms & its purpose as well as the how to step by step instructions were great. The guide on how to create your own recipes & the properties of fats table was a great added bonus.

---

**Kate McMurry says**

The instructions are a bit too intimidating for a hobbyist.

This is a good book to own if you plan to make and sell lotion professionally. If you are simply making lotion for your own home use, which is my intention, this book might be too complicated for you. It certainly is for me.

If you want a simpler book on lotion making, I recommend another book that I also purchased: Organic Homemade Lotion Recipes by Jasmine Wood.

**Shantai S. says**

**The book is the holy grail for my lotion making.**

I have used recipes from blogs to make lotion. Even though they would come out creamy, they didn't moisturize my skin. Since reading and following the recipes from this book, I finally made lotion that works for me and the family. Thank you Anne Watson!

**Lisa Madden says**

**Awesome**

This book was simple, helpful, and didn't make me feel as if I were in a chemistry class. I understood perfectly every point she made

---

**Samantha says**

A good start for my potential new hobby of lotion making. I'm looking forward to trying it out.
