Some Like It Hot

Zoey Dean

Some Like It Hot Zoey Dean

It's prom season, and no town does prom like Tinsel Town. Ben is back for the summer -- just in time to be Anna's prom date. But his family has a house guest who's so hot, she's bound to burn up their perfect plans. Adam finds out a scandalous secret that threatens to tear Cammie's world to pieces. Sam agrees to take Parker to the prom and they end up doing a lot more than dancing. What happens when Sam's romance-obsessed boyfriend Eduardo flies in from Paris to surprise Sam? This prom is sure to be glamorous, and occasionally downright shocking! It's just the kind of night the A-List crew will never forget.

Jay says

It's not surprising to find a series of books that the reader outgrows before the end, but in this case it feels like the author has outgrown the series. It's like she wishes she was writing something more sophisticated. Very big words are used, terminology that's highly unnecessary too, as well as the characters seemingly developing new personality traits out of nowhere five books into the series.

The idea that this series has three or four more books is very odd to me. As the writing is till perfectly good, but it's moving beyond a high school drama series aimed at a middle grade/YA level.

Manoja K. says

Either the books are getting worse or I'm starting to realize how bad they really are.

I mean, I liked the first five of these books, but then some of the characters started to get to me and the whole Hollywood beauty image and how much this series revolves around this has started to get to me. It's just frustrating to read.

The only reason I'm rating this three stars is because of some of the storylines. You take away some of the frustrations and the storylines get interesting, and it leaves off with a semi-cliffhanger that makes you want to know what happens next.

I just hate that Cammie gets somewhat likeable. I mean, I feel for her sometimes, but her bitchiness just masks whatever sympathy you throw her way.

Amanda says

So this is the 6th book of the A List books. It starts where the last one ends. It's prom season. Ben is back for the summer, just time to be Anna's prom date. But things don't go the way they are planned. Adam finds out a secret that ruins Cammie's life. Sam agrees to take Parker to the prom and she does the unthinkable with him. This gets even worse when Eduardo flies in from Paris to surprise Sam. This prom is sure to be nothing but normal! Probably a night that any of the characters will forget.

I would definitely recommend this book to anyone who has read the other books on the A List story. I would also recommend this book to teens who like to read crazy stories about things that happen to teenagers.

Brittany says

How I Came To Read This Book: Danielle lent it to me!

The Plot: Anna Percy convinces her LA 'friends' to go to prom - but Sam has another idea in mind. Namely, she's setting out to shoot a prom documentary exposé on the B-List girls that plan prom, befriending them yet simultaneously referring to them as the 'prom weenies' behind their back. Meanwhile Cammie is struggling with a dark secret from her family past that threatens her relationship with Adam, and Dee is finally on the path to normalcy at a fancy clinic.

The Good & The Bad: This book was a step up from 'Back in Black', as prom is a topic pretty much no one can screw up for enjoyment. That being said, the book oddly spoils a lot of its plot 'twists' in its back cover blurb - twists that don't occur until the last 40-50 pages of the book, which really renders the first 3/4 pretty useless. That being said, this book gave Dean a good opportunity to show off her skills at writing about the life of luxury these kids enjoy, which is probably the most enjoyable part of the books, as unimaginable as it may be. I think the cliffhangers at the end were interesting - and more motivation than usual to continue on with the series, but I also am still not LOVING this series.

Anything Memorable?: No...

50-Book Challenge: Book #44 in 2008

Dee says

Gotta admit I liked this book because Ben & Anna are tight here. It made me love their pairing even more. <3 I liked Sam more here, and my dislike for Cammie because slightly lower and made me realize she and Adam deserve each other. Plus, Dee & Jack are super adorable ♥

Lauren says

I think this book was probably better than the past 5 books in the series. I like Jack's character and I liked the drama with Cammie. I still think it's kind of a drawn out series but it's entertaining and they're all quick reads.

Chasity says

In this sixth installment of the A-list the story of the young and rich, Zoey Dean's focus is mainly on prom. Overall this book is a great read; it has a great plot and wonderful storyline. Each character has his/her own little story happening inside this one. It does start out a little bit slow in the beginning but then it picks up.

In the beginning none of the wonderful A-list really even consider going to prom. They are all so above it. Sam however starts to consider it when Anna stated that she wants to go. Then when Sam finds out about a documentary contest, which would be perfect to showcase her talents. She sets her sights on making prom happen and getting her A-list friends to go.

Anna seems to have it made in this one or so it seems. Ben is home for the summer and they finally settled on an honest relationship. Even better than that Ben is taking her to prom but could this very attractive and very curvy family friend that is living in Ben's house cause new problems? Who knew perfect Anna had so

many insecurities.

There is a new side of Cammie shown in this book as the mystery of her mother's death unravels slowly. The question is will she take it out on Adam because he's the one who found the truth?

Dee gets a night pass from Ojai Psychiatric Institute for the prom she's still an inpatient there being treated for bi-polar. We see a brand new Dee in this book. Could it really be that Dee is actually normal now?

Dee goes to prom with Ben's friend from Princeton, Jack and they find they have some scary reality in common. There only issue is how they are going to ditch her chaperone from the institute, Marshall.

After the Bel-Air Grand Hotel burns down thanks to one of our not so good girls. She didn't do it on purpose and she actually feels guilty for once, which is quit shocking. There is mad panic about getting another venue for prom. Sam steps in and takes over getting her father's movie set for Ben-Hur. She pretty much saves the day for the prom weenies as she calls them. Only problem is now Eduardo can't take her to the prom. So she goes with Parker as a friend...or at least that's what they said.

This book had all the drama and glamour and designer dresses that all the other had. However there wasn't as much cattiness in this one which isn't necessarily a bad thing but some readers may miss this. Like I said before it started a bit slow but then it picked right up and I was sucked right into the story. The biggest thing that kept me intrigued was the mystery of Cammie's mother's death. Another great scene that will capture everyone is prom prep, when all the girls work together to help one less fortunate girl.

This book is definitely geared toward the high school and early college ages. They will be most definitely intrigued by how these girls live, everyone who loves the Gossip Girl series and The It Girl series will love this book and I must recommend the rest of the book in the A-List series, they are delicious!

A definite must read in the series!

Lei says

I really didn't like this book. The only reason i read past the first chapter was because i didn't have anything else to read. The whole book, i suspect was about what rich girls were doing. I know how people say don't judge a book by it's cover, but i do that before reading most books. Guess what? I was right. When i first saw this book, i didn't like the cover, but i didn't have much time to pick another book. I really don't recommend this book to anyone who like adventures or anything that is interesting.

Another reason that i didn't like this book was because for some reason, i couldn't relate to the characters nor put myself in their shoes. In other words i couldn't read the story from their point of view.

Amy says

Some like it hot is a book about a group of highschool students in an A-List group. It's time for prom and the B-List students need one of the A-List girls to help them prepare for it. Will Sam help them when her boyfriend Eduardo might not even be able to make it? And what about Anna and Ben? Is a good friend of Ben threatening to tear Anna's perfect relationship with Ben apart? What's in store for Cammie and her BF

Adam? Will Adam find a horrible secret about Cammie's mother's disappearance and when will he plan to tell her? This prom will be heartbreaking, exciting, fun, sensational, and disappointing for many, but in the end there will be a few hard choices, break-ups and friendships ruined and put back together

Jessica Ng says

So this book was another one recommended by my friend Alexandra. Overall, I thought this book was an okay read. From the cover and title, I thought it would be about some rich girls living snobby lives, stuff we see on the television like 90210, Gossip Girls, NYC Prep type. Don't get me wrong, I LOVE watching those shows, trashy dramas and trashy reality shows like The Hills, but I don't really enjoy reading books like that. I think I'm more of the visual person. Throughout this book, the main plot dealt around prom. Cammie wanted to know who killed her mother and Adam knew almost everything. Adam had a letter that said that Cammie's dad was sleeping with Sam's mom. It turns out that Cammie's mom fell off a boat the night that her dad cheated on her mom.

Can I say DRAMA or what? Eh. I don't think I would recommend this book. It was kind of long and I didn't really like the plot.

Lauren R. says

Not bad. I love the prom theme for books! Definitely takes me back. I didn't remember a lot of this series and its events but this book feels the least familiar to me for some reason. I'm not a fan of a few couplings so I hope things change to what I want them to be lol.

Hilary LiDestri says

Unfortunately I read this book and frankly, if it were for adults, about adults, it might be decent. Zoey Dean seems to be one of the masters of smut for young girls. Here is my review in case you are a parent wondering.

Central Issues

Prom, documentary film making, sex, kindness toward strangers, high school kids living and acting like adults, underage drinking, fashion, wealth, indulged children, absent parents, blended families, divorce

Issues Touched Upon

Gay intolerance, adult-sanctioned underage drinking, high school girls with implants, gambling, alcohol and drug abuse, pierced nipples, tattoos, porn, bi-polar disorder, psychiatric ward, naked, A-list people, B-list people, cattiness, coke-ho, lines, "she'd had sex before; usually while drunk/high," cutting chool, "screwed their brains out," acquired immune deficiency syndrome (AIDS), multiple sclerosis, charity, mental retardation, sexual relations, Getty Museum, doobie, gold digger, fake ID, erection, hooking up, making love, female student pursuing male teacher, accidentally burning down a hotel with a misplaced joint, documentary film making, smoking, adultery, murder, divorce

EXPLICIT LANGUAGE AND SEXUALITY

Yasmina says

This book starts off with Anna wanting to go to prom even though Sam just wants to make a prom documentary based on the 'B-list' girls on planning prom instead. Meanwhile befriending the girls she calls them "prom-weenies". Cammie and Adam struggle when they find out a secret involving her and Sam. And Sam's boyfriend, Eduardo unexpectedly shows up at prom and catches Sam doing something that could end their relationship forever.

I can connect this book to Gossip Girl because finding out what happened with Sam at prom was just as big of a shock for Eduardo just like for Blair when she found out what Nate did.

I give this book 4 stars because at times it got a little boring. **** (4)

Isla Chiu says

These books have as much depth as a very small cup of water.

KaylaSue19 says

I'll give the book a "4" because I enjoyed the storyline, but the editors get a big fat "0". I have noticed one or two irritating editing errors throughout the series, but this book had multiple mistakes. Spelling errors and missing and/or misplaced words really shouldn't make it into the final edit of a book. The consistent name dropping is getting a little old as well. However, I am still looking forward to continuing the series. I enjoyed the turn the ending took, and am happy to see some drama beyond the relationships of the teens, and learn more about Cammie's insecurities. Oh, and one last thing? Do high school students in Beverly Hills really get implants? I mean what parent would allow a 14-16 girl get implants?
