Sudden Desires

Shanora Williams

Sudden Desires Shanora Williams

Screw the ring.
The good life.
My *selfish* wife.
I have felt abandoned by her for years. Forgotten.
Belittled.
Neglected.
Unloved....

But all of that has changed.

I've met an incredible woman. I didn't mean for anything to happen with her. We were only supposed to be doing business together. But that sassy mouth, fine ass, and those perky tits got to me. It was a spur of the moment thing - both of us blinded by lust.

Is it bad to crave a woman so badly that you'll do practically anything to hold onto her? Like make sweet promises that you know damn well can't be kept?

Don't be fooled. This newfound "happiness" may only be a fucking façade, and what's worse is that I can't let it go.

Not now.

Probably not ever.

Why? Because there is only so much rejection a man can take before he finally just... gives into temptation.

*** Recommended for ages 18+ due to strong sexual content. If you are looking for a quick book with great sex, steamy passion, an alpha male with a smart-ass mouth, and twists and turns in every chapter, then this is the book for you.***

Lina's Reviews ♡?????????♦??Book Blog?? ♡?????????♦ says

Omg! And I had thought Tainted Black had wrecked me!! I loved this book. I loved the characters, the unique plot and the sizzling romance.

Griffin Boyd is married but he is unhappy. His wife, Colette, ignores him. He tries to make her happy but he always fails.

One day is enough to change his life.

Angelina Clark enters his life. Beautiful, witty and kind. He finds himself the center of her attention. They connect. Attraction is inevitable. Can they start something that is destined to end badly?

Secrets, hidden agendas and lies will come forth as the story unfolds.

The plot was exhilarating! The story had a lot of twists and turns and the writing was passionate and engaging. I could not put it down. I felt every emotion. Griffin was an amazing hero and Angelina was a great heroine, both of them trying to balance right and wrong.

The book was exciting and I loved the author's layered characters.

Excellent. Cannot wait for the next book.

+++++5 Stars++++

ARC kindly provided in exchange for an honest review.

Sudden Desires (Sweet Promises #1)

Shanora Willams

5 stars

Uh .. OMGAWD .. okay I cant say much but you need to read this book. What a mind freak. I love Shaora's books and was giddy to see the ARC for this one on my Kindle.

So here is your tiny review because its too good to leave any spoilers or give you any hints as what goes on in this one. And yes there is a cliffhanger and yes its worth it and I cannot wait for book 2, Sudden Flames!

There is Colette the wife, Angelina the woman and Gabriel the best friend. Most important there is Griffin; one scrumptious piece of man that needs a good woman like me. YUP! LOL! Look at the dang cover for pete's sake ... even though its fiction I wanted to yell you stupid stupid %\$@*%\$. (See no name .. haha! -- no spoilers)

Griffin meets a lead player in a business deal on his day off after being called in when the owners of Stratford and Clark show up early to settled business. Boyd Enterprises is Griffin's company. Griffin is good at what he does. Colette's father even recognizes this hounding Griffin to move to New York and partner up with him. Wanting anything BUT to do so, Griffin heavily avoids the man also knowing that his daughter is not making strides to bring in kind of love much less romance back into their marriage. Boom .. Angelina Clark .. yes of Stratford and Clark And then the wheels start turning, the roller coaster is set into motion and your mind begins to blow deceit is a bitch my friends.

Click this up friends ... holy cow. That's it. Nothing more from me. Thank you again Shanora for the ARC. Review to post to Ramblings From Beneath The Sheets!

RentasticReads says

Manipulation. Deception. Lies.

God. This book. This author. It will leave you wanting for so much more. It will break you. It will haunt you. But I love how beautifully the story is written. I crave how it brings you to your knees, makes your heart ache and just ruin you after you finish the read. And I must've mentioned it before, but the best books for me are the ones that actually make you think. Those that make your mind whirl and work to find the answers, mostly to the question why. Those books just have so much more depth and make them stick with you. It has a way of touching your heart, your very soul. You know deep inside things like this could indeed happen in real life, but what do you know? It's not unless you know someone who went through that experience or read about it, have it laid all out in front of you until you could grasp the idea and try to understand what's actually going on. This is how deeply I felt reading this book. I just love how this author could draw so much emotion in me even at the very first chapter. Now, I'm not one who loves a story about cheating or adultery, but this one is just so great to pass up on. It opened my eyes to something that could very much happen to anybody. It hurts to read, honestly, but so worth it.

I despise Colette Jenkins, whom apparently is Griffin's wife. I hate her guts so much that I have never wanted to kill off a character until this woman... She's just such a selfish, ungrateful, manipulative, inconsiderate, lying bitch. The list just goes on on how evil this woman is. She's just so freaking unreal and full of herself. I'll just have to leave it at that. Recounting and remembering her ways just make me want to wring her neck all over again.

Griffin Boyd. Man, did I fall in love with this guy. He's so successful and powerful when it comes to his business, yet so naïve and vulnerable in other aspects of his life. He has a huge heart with so much love to give. Even I would want to fix everything for him just to make him happy. He just made some really stupid and bad decisions that are now catching up on him. I don't blame him for any of those decisions. After all, he's just human and he makes mistakes. But damn, those made a big impact on his life. Needless to say, with Griffin being such a great man, everything he went through in this book just crushes my heart so much more. It makes me want to hug and squeeze the crap out of him and just shield him from everything and everyone else. Nobody deserves to be played and manipulated the way this man has been.

And then there's Angelina Clark, Griffin's sweet angel. Okay, I know it's totally wrong, but I love this lady. What she and Griffin has is basically forbidden since Griffin is a married man, but just so perfectly right. At this moment though, I'd hate to be in her position. Morally speaking, who the hell would want to be a man's mistress? Nobody deserves to be anybody's second choice or priority. But in Angelina's case, somehow it's different. Probably it's because Griffin has already fallen out of love and is finally fed up of putting up with his selfish wife. That doesn't make what they have right, but I just couldn't explain it. You just have to read the book to see for yourself and understand what I'm saying here.

I love this book. I love this author. My mind is still reeling from it all. My heart is still madly pounding in my chest. My soul is still partially broken and crushed from what I've read. But every single moment of it was truly worth it. I couldn't wait to read the next book in the series, Sudden Flames! (I know right now it's

just wishful thinking, but... Here's to hoping everything finally works out for Griff and his Angel.)

Melissa Mendoza says

"That doesn't matter right now because right now all I can think about is this. Sex with Boyd. And I can't lie. He has some pretty amazing d@ck."

5 sexy, sexy stars!!! I became a fan of Shanora when I read Tainted Black and I thought she couldn't outdo herself after that one, but I was wrong!!! She has outdone herself with this book!! Super sexy book!!! HUGE FAN!

Screw the ring.
The good life.
My selfish wife.
I have felt abandoned by her for years. Forgotten.
Belittled.
Neglected.
Unloved....

But all of that has changed.
I've met an incredible woman. I didn't mean for anything to happen with her. We were only supposed to be doing business together. But that sassy mouth, fine ass, and those perky tits got to me. It was a spur of the moment thing - both of us blinded by lust.

Not now.
Probably not ever.

Why? Because there is only so much rejection a man can take before he finally just... gives into temptation.

I loved this book from page one!! This book is hot, with a capital H and it also has it's sweet moments!!! Like I said before I was a fan of Shanora already after reading Tainted Black and I was so pleased after reading this book! Definitely worth the read!

Received a copy in exchange for an honest review. Read and reviewed by Melissa for Alpha Book Club

K.A. Graham says

Shanora released her inner dirty girl into this one, and it was naughty, feisty, with truckloads of chaos, and I loved it! By the end of the book, I literally wanted to back hand more than a few of the characters, and slap some sense into them, or just slap them....ha!

Griffin is a very unhappily married man; stuck in a situation he can't find a way out of. Colette, his unappreciative, down right nasty wife is selfish and does everything in her power to show Griffin her distaste for him and their marriage.

Finally fed up with life in general, Griffin does the one thing he never thought possible, and lives a little with the help of a new client, Angelina Clark. The passion between them is absolutely undeniable, but is he willing to give up his life for something that could just be a spur of the moment fling?

So many secrets and lies are revealed by everyone involved, and will have you shaking your head in disbelief. Definitely a page-turner with non-stop twists and turns. The sexiness is overwhelming and hot as hell, which makes this story all the more worth your time. Trust me, it will definitely leave you wanting more!

Taylor Freeman says

I hated every character in this book.

Not one redeemable quality to any of them.

What was the need for the cliffhanger? Just finish the terrible thing and move on.

YaYa says

Sex, Lies and Betrayals. The perfect way to describe this read.

Quick read, full of angst. Some times I was confused on who to like and who to hate. Hell is about to break loose. Looking forward to the next installment.

An arc was provided by the author in exchange for an honest opinion.

Nancy's Romance Reads says

4 STARS: HOT DECEPTION!

Wow, this was a real page-turner! Even though this was just the first part of this series and it was a quick read it felt full of intrigue and unexpected twists, not to mention it was super sexy-hot!

"There is only so much rejection a man can take before he finally just... gives into temptation."

Before I comment further I have to warn you there's cheating on this story **but** this author pulls it off in such a way that you most likely won't feel bad for the characters at all. I personally didn't and I don't usually like cheating on my stories but here, I actually liked it. Seeing the characters doing "wrong" like that it felt good

for reasons the story itself provides. Furthermore, such lies create a ripple effect that brings juicy drama, suspense, and lots of tension to an already intriguing story. Something else I think was a big factor of the awesome execution of this plot is that it's told in three different POVs (all characters in the triangle) and so I got everybody's perspective on their own actions and wishes which made me understand a lot even when other parts still remained a mystery...

"I care for my wife, I do, but I honestly don't know how much more of this I can take. Being alone. Feeling abandoned. Feeling like I'm always wrong."

I really look forward to seeing what happens on book two of this series! I want my questions answered and I hope I continue to be on Team Griffin Boyd because he was my character, unless the author surprises me yet again with more amazing **hot-deception** and everything takes a different turn which I wouldn't mind as I love the twists! :D

Happy reading! ;)

Maureen Nicholson says

4 Stars!

First let me say that this story would normally leave me less than intrigued. I typically don't like love triangles or any kind of cheating BUT, when I saw Shanora was the author of course I had to read it and I sure wasn't disappointed! Yes, the cheating still bothered me but I have to say, the wife, Colette, is a mega bitch! Griffin, the hero, is sexy, dominant, and sweet. He really tried with this woman and was constantly treated horribly, which she acknowledges because this story is told from three POV's. Griffen, Colette and Angelina. Now Angelina aka Angel, I liked somewhat. Both her and Griffin have immediate chemistry and seem better paired. However, I am a wife of 20 years so my hackles rose in the beginning with her come on to Griffin but that changed pretty quickly when I read how his wife treated him and how she felt and what a truly f*%^% }#< person she really is.

This is very erotic and sexy. Shanora can write a leading man that will have most women overlooking their faults and only seeing the strength and sexiness in them. The story has twists and revelations but most of all I'm a little scared. After reading "Tainted Black", I'm quite aware that Ms. Williams is capable of throwing a curveball and leave us with a unpredictable ending that for many may not be considered happy. In the meantime, I'll keep my fingers crossed for Griffin and Angelina. Even though she betrayed him I still feel they have a fighting chance and I NEED A HEA!

Book_loving_doctor says

I'm very intrigued by this story. Can't wait to see where book two takes us.

Romance Readers Retreat says

4 frustrated stars

I had read this book previously but decided to reread before book two and I forgot how frustrated this book made me. We hear from all three main characters in this story and honestly I so far don't really like any of them.

Griffin Boyd is in a dead marriage and his wife is nasty in every sense so when he encounters Angelica through business and the attraction is obvious I was screaming in my head for him to go for it. When Griffin finally caves in the sex is hot, so I'm looking to his wife and asking what has this man done to make her hate him?

Colette is venomous towards her husband and I hated her from the off, even when her reasons came to light I still hated her, I am still waiting for her to have a redeeming factor. Initially I was frustrated as to why they just didn't leave and then I was just angrier at Colette for being so weak in the beginning to put them in the situation.

Just as I was warming to Angelica she showed her cards and I was angry at her but I'm hoping she can redeem herself so I'm holding off on my judgement of her.

This book turns on its head and the twists and turns start leaving me even more frustrated that these characters can be so gullible to manipulation. Griffin seriously needs to grow a pair, man up and go for what he wants. I am interested in seeing how the author develops this story.

Carol*BeautyandtheBeastlyBooks says**

Oh wow!

Although I was enjoying this book I didn't know what to think about the three main characters....until the second half of the story.

SO. MANY. PLOT. TWISTS! And I loved every one of them! This is a quick, yet hot and good read!

Griffin Boyd is HOT and dominant and I'm dying to get more about his past, about how he has become who he is now...I also want to know more about his wife, Collete. Even though I don't like her at all, she is an enigma and her attitudes confuse the hell out of me! She seems kinda crazy, but then her father, who has something powerful over her and Griffin's head, could make anyone crazy!

I also want to see what Angelina will do and what's her deal with Mr. Jenkins and her family too! Although she wasn't right, Angelina is a character I felt sorry for, because she didn't want to do what she, and her family, pted for her to do.

I'm really glad I gave Shanora Williams' writing a chance because so far I have enjoyed it very much!!!

Red Cheeks Reads says

Although to say that Griffin is callous, is not entirely accurate. Griffin is suffering in a loveless, fairly demeaning and disintegrating marriage and it's through this that he has lost the man he used to be, his drive, his passion and his sanity. When he tells you that his wife is neglectful, unappreciative and selfish, he's right on the money but this story has so many deep, hidden, scandalous layers to it that to leave the story there would be shameful. What was really well done of this book was the fact that we get three points of view- Griffin, his wife Collette and the other woman, Angelina. It is no black and white, right and wrong straightforward story, there are elements at work that are just touched upon, begging for us to question them, hooking us so we need to know more but as it's a serial, you know you aren't going to get all the answers you demand.

Sudden Desires has more anti-heroes than you can shake a stick at, so be prepared, there will be some moments you despise, others you will love and more that you will salivate over but just know that there is a lot of darkness, kink, infidelity everywhere and a gripping suspenseful storyline playing throughout and you will either love it or loathe it.

'He's hardly rubbed two words together since I came in the bedroom. I'm tired of the bullshit. Tired of the nonsense. I need to know if he feels the same way as I do. Is he fed up? Is he also tired of this charade? Tired of pretending. Has he finally given up on all of this? I need to know. I mean, even though it won't change much, it will help something. If he does still feel something for me, then maybe this won't be so bad.'

Shanora is a great storyteller, her characters are diverse and complex and realistic and with Sudden Desires, she will alienate some readers but there will be hoardes more that appreciate this book for what it is, a scandalous, sumptuous and downright provocative read.

~Nicole

Innergoddess_Booklover says

Just finished Sweet Promises.

?????.

Seriously second book I read by shanora williams and she did not disappoint me at all.. Sex lies cheating what more can I ask for. But disappointed in Colette and Angelina smh how can you do all that to Griffin. Ugh bitches.. Well can't wait to see what happens in the second book..
