## **The Last Battlemage** Irene Radford

Though the Great Wars of Disruption have come to an end, Nimbunan, the last Battlemage and the founder of the school for Communal Magic, is desperately seeking to create a permanent protection for the kingdom of Coronnan...a magic border to keep all enemies out. But his relentless search for the key to this magic leads him to a shocking discovery: not only is his long-lost wife still alive, but she and the magical dragons are now in terrible danger!

# From Reader Review The Last Battlemage for online ebook

## Fabian says

I randomly read the first in this series, and it was worth it for super easy mindless reading. There was no need to read this book.

---

## Becky says

A decent enough second book, but not enough to make me really bite hard. I don't care if I read the rest of the books in this series or not. Since there are plenty of books out there, I will probably not go out of my way to read any more of this particular series.

---

## Victoria says

I have to admit that I am really regretting my decision to re-read this fantasy series. I have yet to discover why I liked it as a child, and frankly, now that I know that none of the questions and issues raised in the last book (this is the second book in the sort of prequel series), I am having an even more difficult time just reading them. This particular installment was more entertaining than The Dragon's Touchstone, but the action and plot still move very slowly. The characters have not become more realistic, either.

---

## Brooke says

This book's faults ran even deeper than its predecessor's. Things got weird and somehow even rapier, as well as bizarrely homophobic.

Again, the magic and dragon storylines are cool, but I could not wait to be done with this book and its preoccupation with sex, and strange internalized misogyny. That's enough of that.

---

## Kori says

Book Two of the series. Much better than the first.

---
