### **Denise St Pierre says**

2.5/5

Fun, quick, and easy read, but not quite as good or useful as I was expecting. The TRUE/FALSE format is lazy, and some of the trivia is completely useless (more so than usual)...like in the celebrity section, where there's a whole page of true or false about which celebrity is older than the other? There are so many great tidbits of celebrity trivia that would have been much more interesting. I also noticed quite a few typos and factual errors (a friend pointed out a mention of Buenos Aires...Brazil?), which is surprising and disappointing coming from Chronicle. But there were some really strange and fun bits interspersed throughout. I read through it before going to a bar trivia night, and one of the questions we got actually was in this book (NBA all-time points leader: Kareem Abdul-Jabbar), and we got it! (Well, my team already knew it, but I didn't. And now I do!). I think a better variety of formats (T/F, Did You Know?, quizzes, etc.) would have elevated this.

This book was alright. I laughed a few times, but there were a lot of questions I wouldn't consider trivia questions. Most of the questions were just true or false.
