## **From Reader Review Writings and Drawings for online ebook**

### **Jim says**

When I was in high school I enrolled in an elective course about Bob Dylan's poetry and this was our main text book.

Reading the surrealistic lyrics of a variety of his songs was very enlightening for me when I was 14 years old....just as it is today.

I recently purchased a copy so that I might touch base again with this genius's lyrics~

---

### **Ed Protzel says**

Note: In my beginning writing career, I arrogantly abrogated the pen name, Earley Dylan. This book of Bob Dylan lyrics is of great value; although some of the published lyrics are slightly different than the final, polished songs. Bob Dylan more than deserves the Nobel Prize, which I won't go into, except to say, there aren't more perfect and dense poems ever written than "All Along the Watchtower," Mister Tamborine Man," and "Like a Rolling Stone," among many others. Indeed, some of his smaller pieces are equally brilliant.

---

### **Denis says**

This specific collection covers but the first decade (over 330 titles) of a more than fifty year prolific body of work.

How can this not be deserving Nobel Prize winner in Literature "for having created new poetic expressions within the great American song tradition".

It reads like poetry because it is poetry.

Perhaps some time in the future, the recipient might be Lou Reed or Patty Smith.

---

### **Unigami says**

Bob Dylan is one of the greatest American artists. His writing has inspired countless songwriters, poets, and writers. Back in the day before the Internet, it was difficult to obtain lyrics to songs, and this compendium was a must-have for any Dylan fan. It included the lyrics for every Dylan song for every album up to "New Morning" as well as unreleased songs and liner notes. There are also drawings and a couple copies of manuscripts. I spent countless hours learning Bob's lyrics from this book.

---

### **Gail says**

I read this book in the 70s. I thought it was a venture to capitalize on Bob Dylan's name by who else but himself. I love his voice but you have to admitt he didn't make his fortune by writing books.

---

### **F says**

Just lyrics of his songs with a few drawings. Little disappointed.

---

### **Adam says**

My copy of this is falling apart

---

### **Matt Vandegriff says**

This is a very odd book...but in a good way. It is a collection of Dylan's writing, mostly songs you'll probably be familiar with. Reading them as poetry is nice (and might clear up a few lyrics of which many of us may have been uncertain), but the drawings are fun and peculiar. I've heard this book is out of print these days, but I bet you can find a copy. It's worth a look.

---

### **Greg says**

This book is literally falling apart but I've still got it.
