Clive Barker's Hellraiser Omnibus Vol. 1

Clive Barker (Creator)

Clive Barker's Hellraiser Omnibus Vol. 1 Clive Barker (Creator)

The Horror Master returns to his greatest creation.

Clive Barker has “touched” *Hellraiser* only twice before: once to write “The Hellbound Heart,” and once more to write and direct the original *Hellraiser* film. With the *Hellraiser Omnibus*, witness Barker’s long-awaited return to tell a new chapter in the official continuity—a trajectory that will forever change the Cenobites...and Pinhead!

Collecting Clive Barker’s *Hellraiser* #1-20 and *Hellraiser Annual* #1, prepare your soul for over 500 pages of epic horror from one of the genre’s greatest voices, starring one of the genre’s greatest characters.

Jacob Frank says

The plotline is often hard to follow, and I'm curious if this narrative is or will be compatible with the events described in the Scarlet Gospels. The additional back story on Elliott Spencer (Pinhead) is interesting, as is the introduction of Leviathan as a speaking character.

dogunderwater says

ehhhh i guess. it's not bad but you have to be VERY invested already.

Kyle Burley says

3.5

Solid horror comics that expand the "Hellraiser" mythos far more satisfactorily than any of the sequels. Not the highest praise, I know.

Zack! Empire says

Starts off strong, but has a steep decline about half way through. Seems to only have the first two Hellraiser movies, and some other Clive Barker writings, in continuity. It's a personal story in the beginning with everyone trying to get revenge on He'll itself, but it ends up with a giant blue electric Pinhead fighting battleships... wish I was making that up.

Not too sure I'll be picking up the second omnibus of this.

Michael says

The world of Hellraiser (the real one, featuring the original fiction and the first two films) is one of my favorite places to visit, so I have no idea why it took me so long to dive into the comics. While the stories are entertaining and the artwork is brilliant, some of the choices left me a little flat. I did, however, love the Kirsty as Cenobite storyline.

Ellison says

The first half was amazing. I loved seeing these Characters again and the story felt true to the films, the art

style fits very well, that's what I want a continuation of the original movies to be. The second half went so far off the rails I honestly don't know what to make of it. It becomes a globe-spanning, metaphysical dark fantasy epic that's hard to follow, with the tone shifting like crazy - from horror to pulp to military thriller to superhero comic... Most of it feels nothing like Hellraiser. I'll still get the second omnibus when it comes out though. Have to know where the hell this goes from here. And it's definitely way better than the later movies. (duh.)

Cameron (skipbassman) Skip says

Picking up an indefinite amount of time after the second Hellraiser movie, we are thrust into the terror that made the original movies so amazing.

The series then takes a step further into the macabre and insanity that I can only compare to the upped ante we received every new season of Supernatural.

Eventually, the series reaches End of Evangelion levels of wtfkery that brings you a bonkers fantasy Hellraiser story.

It's not perfect, but it's a Hell of an entertaining ride.

4/5

Quentin Wallace says

This was a good continuation of the Hellraiser franchise, but I have to admit I did get a little lost at times. This story ties into continuity but I wasn't sure exactly where it picked up. It stars the Harrowers who appeared in the Marvel comics series, and there's also hints of the story picking up after the film Hellraiser 2 which I think is where Clive Barker's storyline stopped. Overall the art is good and really fits the story, and the story does a good job of expanding on the universe. If you're a Hellraiser fan you should pick this one up.
