Was he a nude model? A stripper? An escort?
Blah, I had no idea what Decker Steele did for a living, but I'd figure it out. I was if anything tenacious when confronted with a mystery.
~ Andi

She was forbidden fruit, my friend without benefits.
Is that why my malfunctioning member wanted her so bad? Is that why I wanted her so bad?

I'd figure out the enigma that was Andi Jennings, and I'd have a damn good time while doing it.
~ Decker

Laci says

This book brought smiles to my face, heat to my flesh and tears to my eyes. I loved it!

These are just a few of my favorite moments with Andi and Decker.

"I had been called every name in the book at least once in my life. Sticks and stones may break my bones but a quick punch to your face will soothe me."

I really didn't take you for a cat kinda guy though," she mused. "Or tea. I think you've been influenced too heavily by Bradley and his English addiction." I shrugged . "What can I say, tea calms me, and I love pussy."

"Spandex is a privilege, not a right. So while I'm privileged enough to pull it off, I might as well. And, as I recall, you don't mind when I play with your bone."

"You must think I'm plumb crazy." I smiled. "Well, you do listen to country music."

I don't know what went wrong, Andi won't say, but she's broken, Decker. You broke her. She was a ray of light that you switched off."

Bradley and Leah stared at me as if I'd just grown a penis on my forehead. It was entirely possible, after all, I was the world's biggest dickhead.

With a soft kiss placed right under my ear, he whispered, "It's for you Andi, only you."

Jamie says

Really enjoyed this one! Cute easy read with very little angst! Very sexy and fun!

Mo says

3,5 stars

“Andi was forbidden fruit, and even if she wasn't, there was no way a pure country bumpkin like her could handle a self-confessed pussy pounding warrior like me.”

I must say I quite enjoyed this one. "Decker's Pecker" as it is known to me (thanks Allison).

Yep, Decker was still the arrogant ass I remembered. He might be devilishly handsome, but he had an ego the size of Texas and then some. I had always found Decker to be one hundred percent Grade. A. top shelf, arrogant male

Andi arrived in NYC to restart her life, buying a bookshop and leaving her past in Texas.

**I was a born and bred country girl
and I loved country music**

Girl after my own heart.

She and Decker decide to be friends but the attraction is there. Decker has not been able to “get it up” in over a year but all that changes when he meets Andi. Yep Pecker is standing to attention

Won't say too much. If you are looking for a lighthearted read with some LOL moments this one should work for you.

”If you really do care about him, his past won't matter, because you're his future.”

**I'm gonna be here for you baby
I'll be a man of my word
Speak the language in a voice that you have never heard
I wanna sleep with you forever
And I wanna die in your arms
In a cabin by a meadow where the wild bees swarm**

**And I'm gonna love you like nobody loves you
And I'll earn your trust making memories of us**

**I wanna honor your mother
I wanna learn from your pa
I wanna steal your attention like a bad outlaw
I wanna stand out in a crowd for you
A man among men
I wanna make your world better than it's ever been**

**And I'm gonna love you like nobody loves you
And I'll earn your trust making memories of us**

**We'll follow the rainbow
Wherever the four winds blow
And there'll be a new day
Comin' your way**

**I'm gonna be here for you from now on
This you know somehow
You've been stretched to the limits but it's alright now
And I'm gonna make you a promise
If there's life after this
I'm gonna be there to meet you with a warm, wet kiss**

**And I'm gonna love you like nobody loves you
And I'll earn your trust making memories of us
I'm gonna love you like nobody loves you
And I'll win your trust making memories of us**

She was the kind of girl a man took home to meet his mom and dad. She was the kind of girl I avoided

I loved the neighbours. A solid 3.5 star read.

Yolanda says

4.5 Stars

Let me start with the negative and end with the positive.

I absolutely hate the cover. It was one of those things that almost made me “NOT” read the book.

I mean, if your thinking lumberjack and a cosy cottage it will do but this is not what I have in mind when thinking “Decker Steele”. Am I alone in my assessment here? Hell even a picture of a bookstore front would have been better. On closer inspection I have no issues with the guy but let’s face it, covers are what often draw your eye and my friend had to persuade me to give this a try because it’s much better than it looks to be on the outside.

Enough said about that then, so let’s move on to the story.

This was one of those books that made me burst out in spontaneous laughter at random times.

There is really not much else to say than that I enjoyed it a hell of a lot. I loved both of the main characters. Decker was something else, and I guess what I found shocking but refreshing was the fact that he actually didn’t make excuses for his line of work. He liked what he did and so deal with it. That being said, I also liked the way he came to the conclusion that she was more important to him than his choice of income.

The story was sweet, and funny and who didn’t just love the next door neighbours?!! I mean, spandex and Will and Grace? Really, it was hilariously funny and just all together feel good.

It exceeded my expectations, as noted in the “negative” paragraph to not be that high at all. I loved it, and it’s something I would recommend with a smile.

Wendy'sThoughts says

The idea had merit... a porn star... dating... and what do you do when the wood doesn't stand up? Had some sweet cute moments... had some others which were predictable and in the end... everything came together. For me it read slow...there were some quotes which made the lips smile or laugh... wished there had been a little more... although I have no idea how it could have been done differently.

Kellie Maddox-Ward says

This book was like a breath of fresh air.

In today's book world it seems that everything has to be drawn out into a trilogy. With cliffhangers.

Decker's Wood however was like watching a sexy funny romantic comedy.

It had an amazing cast

I loved them all! All added to the story.

a great storyline.

Yep you read it right a porn star who's equipment has decided it doesn't want to work anymore!
That is until a country bumkin Andi rocks up to NYC.

It seems little decker only works when he thinks of Andi.

Yes there is ups and downs in this book like with everything.

But it finish's with a wonderful HEA.

A lot of LOL moments.

A few serious scenes... although *Decker trying to comfort her had me giggling out loud!*

Oh and some VERY sexy sex scenes.. *I mean come on.. Decker has won AWARDS for eating a girl out! As if the sex scenes weren't going to be awesome!*

This was my first book by Kirsty, and although I've been told her other stories are very different. I liked the writing style so will check them out fo'so!

***J* Too Many Books Too Little Time says**

3.5--Porn Star--Stars!!

This was a fun, cute read...with several LOL moments and some steam on the side. It was a little slow at times and didn't wow me, but I enjoyed it for the most part.

Decker is a porn star. A porn star with a problem. Decker can no longer get it up without the help of drugs.

Until he meets Andi.

"Would I need to picture Andi every time I wanted a drug free erection? Wouldn't that basically make Andi my new erectile dysfunction drug of choice?"

Andi is the cousin of Bradley, Decker's BFF. Decker and Andi have known each other a long time...but the last time Decker saw Andi she was a skinny, pimpled kid with braces. Now Andi has moved to town and to Decker's surprise, she is all grown up.

It's a miracle...Decker has been cured. But....

"Andi was forbidden fruit, and even if she wasn't, there was no way a pure country bumpkin like her could handle a self-confessed pussy pounding warrior like me."

So...Andi and Decker become friends. It's a definitely slow build between Decker and Andi, which was nice. Almost too slow at times....I just wanted something to happen between these two.

At first Andi has no clue that Decker is an award winning porn star. But eventually, the truth comes out. Will Andi be able to handle it?

"It had appeared I had found love in the wrong place, in an adult film star who was supposed to be my friend without benefits."

I really wasn't a fan of all of the drama at the end. IMO, Decker was an idiot.

The jury is still out on whether he was worthy of Andi.

So..in summary, I liked it but didn't love it. It's a good book if you're looking for something fun and funny. A good in-between book or after something angsty.

Kirsten says

DNF @ 58%

So after reading a few dark themed books, I thought this would be the perfect light and smutty read to cleanse my palate. I really like books about characters (mostly male) who are involved in the sex industry. Although this wasn't horrible, I just found myself cringing at some of the words and phrases used, and the heroine annoyed me to no end.

Decker Steele has been working in porn for the last twelve years. This last year has been quite an anomaly for him. For someone who can bang ladies for hours, no matter where or how, Decker suddenly cannot get it up anymore. The only way he has been able to have sex is with the help of a little blue pill.

With the arrival of his best friends' cousin, Andi, his "manhood" (and I quote this because it was used several times) seems to be coming back to life when it comes to the woman who used to be the shy, brace-faced, bookworm.

The two start a "friends without benefits" relationship, but the two can't deny the attraction that is there. Andi has always had a crush on the man whore girl magnet, and Decker is loving how care free and light he feels whenever he is in her presence.

Even though the plot is a little on the cheesy side, if there is good humor involved, I think it could still be a winner. There were some things that were said and things that occurred, that I admit, gave me a smile or even a small giggle. Simultaneously, I liked and didn't like the humor. I admit I can be quite juvenile sometimes, but the funny things, for the most part, weren't my scene.

The heroine was the biggest downfall for me. She had her cute quirks, but I still just found her to be immature and some of the things said were met with eye rolls, cringes, and face palms. Here's one of my favorites...

"He was huge, like a heavy, hot piece of wood shoved right up against my pinky pie."

I think I stuck it out for as long as I did was because I love me some sexual tension. So I waited out until the scene where they finally got busy before I jumped ship. And even though Decker could be arrogant and said some shudder-worthy things, I still liked his voice for the most part.

I saw this was noted as a GR *Best Humor* nominee, so it could have just been me, and what I think is humorous. I just couldn't find myself finishing. As with most of us, our time is valuable and we want to spend that time enjoying what we read.

No clue if I would recommend or not.

Gitte TotallyBookedBlog says

Jenny: Kirsty Dallas certainly delivered a sexy, sweet, romantic, steamy and funny story with a refreshingly different and entertaining spin and I couldn't wipe the smile off my face! I had such fun reading Decker's Wood and who would have guessed one of my favourite books of the year would centre on a man's failure to rise to the occasion? My happy heart told me I had to give this book 5 stars because of the sheer enjoyment I had reading it! This one had it all for me, what about you Gitte?

Gitte: Absolutely, I couldn't put it down and read it with a huge grin on my face. So many laugh out loud lines, banter and scenarios, such brilliant characters, every single one, and so many heartfelt romantic moments. It wasn't all fun and games though which I loved also the writing was excellent. Oh and let's not forget the heat!!! I enjoyed every second I spent engrossed in this story. It was just what I needed and the pure fact that a story could make me so happy deserves every single one of the five stars I've given it. This story was **NOT** a 'mood hoover.'

Jenny: So true G! The happiness factor we derived from this book certainly warranted our 5 Star rating that's for sure! Deckers conundrum had me in stitches. Decker's depressed and his manhood has decided to take a prolonged hiatus much to the horror of our poor Decker. Being a big deal in the porn industry and having your equipment fail is a disaster of massive (no pun intended) proportions!

'I had literally screwed myself into insanity.'

Deckers proud of his manhood, and it depresses him no end that his pecker, which practically carries its own postcode, won't stand to attention. Bloody hell this had me giggling Gitte!

Gitte: Seriously.....I had tears from laughing. This dude and his todger issues had me crying!

'..how does one simply ignore their flaccid member?'

Decker has the most fantastic dry sense of humour and his inner monologue about his lack of 'hardware' considering his profession, well it was spot on.

Jenny: But something stirs when the adorably cute Texan, Andi Jennings re-enters Decker's life and Decker's Pecker likes what he sees. In fact, Decker Junior (or should that be Whopper?), finds it hard (pun not intended) to stay under control when the delectable Andi is anywhere in his vicinity and even her love of Country Music can't deter 'him' from popping up on a regular basis. I loved Andi. She was strong, capable and a perfect match for the cocky and completely unabashed Decker.

"Country, a sweet little thing like you couldn't handle a man like me. I think it's safe to say that eye fucking is as far as you and I will tangle."

Gitte: Aaahh Andi...the little engine that could! Who would have thought that the country girl from Decker's past would be the one to raise the flag on his pole to full mast?

'She had the personality of a rock...'

Certainly not Decker that's for sure, yet she had him bring the meat and two veg to the table every time, ready to devour and be devoured. I would have liked to have sat at the table too, just saying!

'...It was like being forced into an arranged marriage by my dick.'

I loved the depth to Andi's character, she was so real and unabashed it was a refreshing move away from the typical heroines about at the moment! I loved her! And you're right Jenny, our Andi was such an extremely lovable character **AND** she loves making mixed tapes for that special someone!!!! My kind of girl!! A perfect match for the luscious Decker Steele!!

Jenny: Yep! Andi was lovable that's for sure! The cluelessness of Decker as a romantic really set this apart. I can't tell you how much I loved this guy and Decker's attempts at romance were hilarious. For him sex is sex and he has no qualms talking about sex and I mean NO qualms. Nothing is out of bounds which meant some hilarious banter ensued. To be honest, I think his lack of romantic prowess only endeared him to me more. Having said that, when our boy Decker woo's he's no slouch and he made my romantic heart swell...

'Shit, I just want to be able to sit by her, hold her, cook her dinner, make her laugh.'

Gitte: This guy's attempt at romance and comfort giving was priceless. It could have been a disaster and made him come across like a wanker...**BUT**...it truly didn't. It made me want to hug him!

...He pulled me into his arms and patted me awkwardly on the shoulder.

“Shhhh, everything will be alright.” – Decker

“Oh good lord, you still suck at this,” I sobbed – Andi

There were times I was shaking my head at him, but with a smile. There were times I sighed out loud at his romantic antics, again with a smile. There were times when I thought; you idiot, **but**... again I had a huge smile on my face and a severe urge to hug the shit out of him. I don't know, I just bloody loved this guy.

“What can I say, tea calms me, and I love pussy.”

Oh yeah, he's also a master award winning eater of.....uh huh, our Decker is one passionate bloke!!

Jenny: Haha! Passionate is one word for it! What a fun read this was and our text messages were in overdrive weren't they? So many highlights that still have us chuckling. I absolutely loved this book! All characters added so much to the story and the dual pov's were spot on. Kirsty Dallas really nailed Decker's POV especially and I would go so far as to say his was one of my favourite male pov's to date, don't you think Gitte?

Gitte: She absolutely nailed the male POV, Jenny, one of the best I've read by a mile! I was picturing him as he spoke and it was a completely male voice in my head. At no stage did I cringe or think it was over the top! And like you said, all the characters had such strong presence, I fell in love with Casey and Lionel too. Oh and even Decker's parents had me giggling!!

“It’s a normal male response. Pussy gets close, dick gets hard. It’s how we keep you women happy and satisfied.”

I just think this story ticked all the boxes. I thoroughly enjoyed it and I will never look at the rotor blades of a helicopter in the same light ever again. I'm laughing all over again.....

J&G: If you're after a steamy, feel good romance that will sweep you off your feet while wiping tears of laughter from your face then grab this book!

We'll leave the final words to Decker Steele and will in some way explain how we fell head over heels for this gorgeous, sexy and completely unabashed man! Take it away Decker!

I don't know what love is, but if it's thinking of her from the moment I was till the moment I sleep, then I do. If it's reading her text messages over and over like a sappy moron teenager, then I do. If it's smiling from merely the sound of her voice, hell yeah, I do. I want to sit by her, hold her, dance with her on the fucking rooftop as the sun sets. I want to wake with her in my arms, her scent on my skin. If that's love, I'm fucking diseased with it.

Debra says

★★★★ 4 Stars!

"If you really do love him, his past won't matter, because you're his future."

This was such a fun book! The combination of humor + romance + sexy times + limited amount of drama =

Decker's Wood is the story of Decker Steele, whose whole career pretty much consists of

As an award-winning porn star and a self-professed "pussy pounding machine", his "wood" is essential to his career. And he's damn proud of his equipment.

There's one problem though: for the past year he hasn't been able to produce "wood", unless it was pill-induced...

That is until he meets, Andi, his best friend Bradley's younger cousin who used to be a nerdy, naive teenager with glasses and braces. But, over the past 12 years Andi has turned into a beautiful, confident woman and **she's the first woman whose managed to capture his (and his body's) attention in a very long time.**

Andi is one of the most likeable heroines I've come across lately. She always says it like it is and doesn't cause any unnecessary drama. **She's a sassy, down-to-earth girl from Texas with a quirky sense of humor and a love for books, country music and drinking games.**

Aside from MC's and their hilarious banter, there are also a bunch of entertaining side characters who made me laugh-out-loud multiple times. Especially Casey & Lionel:

So if you want a fun, relaxing, feel-good standalone read (told from dual POV), look no further and give this one a try!

~Steph K~ says

**ARC from the author in exchange for an honest review by the girls and I at www.sizzlingpages.com **

I think I've fallen in love with a porn-star.

Yeah, that's absolutely one sentence that I never imagined coming out of my mouth, but oh man - how can one not fall in love with Decker Steele??

When I offered to read the arc, I seriously had doubts as to what I was in store for with this book. How could I not when the synopsis is:

Decker Steele is the Pornography Associations award winning, money making machine. But what does a self-confessed, pussy pounding warrior do when his prized package begins to fail? Freak the 'F' out, that's what!

Andi Jennings is the socially inept, geeky and awkward cousin of Decker's best friend. Only she's not so geeky and awkward anymore. Now she's a smokin' hot country bumpkin, with a smokey voice made for phone sex, and a pair of hot as hell cowboy boots. Everyone adores her, my porn star buddies, my mom and dad, my 'equipment'.

So, the prized package isn't so failing anymore, the catch is, it will only perform for Andi...My friend WITHOUT benefits.

I was totally prejudiced thinking it would be all smut - no story. But, I figured, what the heck - I know it'll be funny. Well, let me say that the book was way more than funny, I loved the story - all the characters - and especially the ending.

Decker was such a charmer, he's the boy next door who just so happens to be a porn star. The past year, he hasn't been working, considering changing professions - especially since he's been having a problem getting "it" up without a little blue pill. Or he "was" having a problem, until Andi, an old friend of his cousin, moved to NYC to open up her own bookstore. After seeing her for the first time in twelve years - with braces off, head out of a book, and curves of a woman - suddenly his "equipment" was all fixed and ready for action!

Andi had crushed on Decker since she was a teenager - and seeing him for the first time after all these years, well he only got better. She knows he's a player, and he's very elusive as to what he does for a living. As these two reconnect, becoming friends they fight the underlying sexual tension that constantly smacks them in the face. Decker is afraid to cross the line, he doesn't feel like he's deserving of Andi at all. And once Andi discovers what his career was, she's accepting of it, as a friend only.

I absolutely loved their relationship together, including his corny nickname of "Country" for her, but especially all their playfulness they had together. There were so many great moments between these two in the book - and I know all of you who read this already - you have to agree with me the "helicopter" moment is the very best!! I want to see Decker do that for myself!

The secondary characters in this book, were just as charming and unexpected as ever. My favorites though were Casey and Lionel, those two just cracked me up - all the visions of Casey in spandex! But, what surprised me the most, and in the best way possible, was that characters who I would have thought to have acted a certain way, didn't - totally surprising me, and made the book all that more better. This is definitely a book you should all give a try!

Sarah Darlington says

Absolutely loved this!!!! My ideal NA romance read!

Lisa Jayne says

FOUR DECKER STARS.

"You were the heart I was missing from my soul, and you are the fucking future missing from my dreams."

Quick witted, wonderfully hilarious and so sweet I wanted to hug my kindle, 'Decker's wood' was just what I needed to make me one happy reader. I haven't been nearly so entertained in reading a book in a long time, this author has put the bounce back into my reading time and I could not have been more pleased to have read this book and met the characters, Andi and Decker. Readers prepare yourselves to fall in love with one extremely loveable pornstar and his side kick wonderfully awkward heroine. This book blew me away and I'm looking forward to other readers joining me in the 'Deckers wood' fan club.

What's it all about?

Decker Steele has it all; the women, the money, the endless sex, a lifestyle that he has always been proud of. As a famous porn star, this self confessed sex addict has always felt very at home doing his job and being a success. But when the star of his show starts to let him down and he can no longer get it up, Decker starts to panic. Former shy and awkward teenager, Andi Jennings is no longer afraid of who she once was, instead she is now proud of the woman she has become. Moving to New York she is ready to start living her dreams and make a fresh start by opening her very own bookstore and coffee shop. Andi never imagined that she would come across the very man who made her toes curl and her cheeks heat as a geeky youngster but that is just what happens when the sexy Decker welcomes her to New York. When Decker and Andi meet again their lifestyles couldn't be further apart but when they start to embark on a 'friends without benefits' relationship neither of them can quite believe when they start to want more. This twosome soon start to realise that they don't want to have to live without a friendship that is starting to feel forever but can the pornstar really fall in love with the country bumpkin?

What did I love?

A friends to lovers story with added comedy value? Where do I sign up, well readers you sign up right here. This book was fantastic It had the sexy, it had the comedy gold, it had the 'whisk me away I'm reading a book so I can forget about reality' story line, in all seriousness this book was a reading escape triumph. One of the standout winning qualities of this book had to be the friendships, most if not all of the characters were likeable in some way. I adored the hero and heroine in equal measure, the dual point of view made it very easy for me to fall in love with the storyline and each of the main characters thoughts and feelings. Everything about this book screamed read me, read me and if gay best friends, glitter, book shelf sex and potty-mouthed one liners is your cup of tea then you better be adding this to your 'To be read' list faster than you can say 'yes please'. During this book If I wasn't smiling I was swooning and if I wasn't swooning I

was gripping my kindle at the gorgeous sexual chemistry. It's fairly obvious that this author has a love for writing and enjoying what she does, I feel like I have finally found a book that translates romantic comedy right to my kindle and I'm excited that I've discovered another author whose style is right up my street. Sweet love and giggle worthy scenarios is what this book is all about and I was left with an ending just perfect for the loveable pornstar and his cowboy boot wearing country girl.

Why not five?

From the start this book grabbed my attention. I laughed, I swooned and I was quickly heading towards that five star feeling. Overall I loved this book, the humour, the story line and the characters were all winning points towards a high rating but somewhere in the middle of the story i lost a little love, the book started to slow down with the humour and it lost that full out fun factor that I was enjoining so much. But all in all this is a book I would recommend to friends and fellow book addicts who can't resist brilliant characters complete with a solid story line and of course the added romance and naughty bits. This author has caught my attention and I'm excited to see what else she will produce with her comedy style romance talents. 'Deckers wood' will be keeping a smile on my face for some time to come and I'm hoping that fellow readers will fall in love with Decker and Andi too.

Final thoughts ...

For those readers who love their romance stories to be humorous, light on the drama and extra naughty with the sexy will adore this novel. The writing style was one that I'll never tire of and as I approached the ending I felt a sadness that it was all over. This author has taken a funny but sexy storyline and made it all her own, if this is the start of what's to come from Kirsty Dallas then sign me up for her future books, I won't be missing out on this authors witty, romantic talent. Release day is just around the corner, go grab it readers. Enjoy ... Kisses.

ARC generously received from the author, Kirsty Dallas in exchange for an honest review.

Stacey is Sassy says

Country bumpkin goes from book lover to porn star's lover...

I can't believe how much I enjoyed Decker's Wood. I've had it sitting on my kindle for ages and kept putting off reading it. My friends had raved about how funny and sexy Decker was, so when it was on special I bought it with plans to read it...soon. I was hesitant to read and like a hero who is a porn star. I mean the man has EXPERIENCE. Lots and lots of experience. Could I put myself in the shoes of the heroine and picture myself having a relationship with someone who is paid to have sex? IF, you managed to get your confidence up enough to try him out, would your confidence hold up time and time again when beautiful women approach him wanting to try him out too?

So, I did it. I picked it up and started reading. At first I thought Decker was a putz and that I would be

reading this for the “experience” and not necessarily my enjoyment. Then we get to know Decker and meet a little country bumpkin by the name of Andi who surprises him enough to start looking at his life and choices a bit differently. The Andi Decker meets now is very different from the young, shy teenager with her nose permanently in a book. This Andi is mature, confident and knows what she wants...sort of.

We meet some fantastic side characters in Andi’s neighbours and some of Decker’s porn mates. Bradley, who is Andi’s cousin and Decker’s best mate, brought them together. He is very close to both of them but thinks it would be a mistake to have a relationship. Decker’s family is lovable and close. They know about his career are not necessarily happy about it but love him enough to get past it.

This was a steamy read. Obviously, Decker has experience and in the first part of the story we hear a bit about his exploits. At this stage, the couple is not together so I don’t have an issue. He does have women throw themselves at him leaving Andi uncomfortable. There was one scene towards the end of the story that skated along the lines of cheating but there were twenty other things going on at that particular moment, I was distracted. By the time I realised, I had processed it and was ready to move on.

In the end I really enjoyed this story. By the time the (sort of) cheating happened, I was already in love with Decker and I was justifying and making excuses (in my head) for him. That says a lot for this story because I don’t do cheating at all. The characters were funny, sexy and lovable. We see a different side to the porn industry and who the actors really are. I will definitely be reading more from this author.
