Hunt Me Shiloh Walker

She's been keeping secrets...

Drew Quentin has been crazy about sexy Dakota Coulter from the moment he met her, but after two years of dating, he still doesn't have her phone number. Sooner or later, a man has to move on.

That was the plan. But the night he broke things off, things went from bad to worse...and he figured out some of her secrets...bloodthirsty secrets.

Dakota Coulter is having a lousy night. The man she loves just broke up with her. And she can't even take an hour to sulk, because duty calls—and as a Hunter, she must answer.

Being a vampire is hell on the love life, that's for sure. But it will get better, right? Just do the job, get out of town and oh...avoid the ex-lover who is suddenly out to track her down. Too bad a happy reunion is soooo not on his mind.

Marsha says

(2.5 Stars)

This little novella about Dakota, a vampire who is dating a cop, Drew, who doesn't know what she is. He believes that she is unable or unwilling to commit so he is about to move on even though he loves her. Then, the unthinkable happens when Dakota's secret is revealed. What is this information worth to him and how will he handle it?

This novella had potential but poor transitional scenes were a problem. Just as you were getting a handle on things, you are thrust into a new scene without warning and due to the brevity of this read, the transition were too problematic. Bottom line, this read was just o.k.

Netty says

Goodread readers will think I'm super fast at reading and in this instance they would be right. It's short! That's all I can say. It's a very very short book. I'm assuming its a novella which pleases me slightly because that means there's more of these stories out there. I'm now on the search.

Mari?ina says

A short story with an inviting and likeable main heroine, vampires and a non-threatening love triangle. It mostly felt like a few chapters torn from a full book but it was o.k.

I found some grammatical errors that really disturbed me but that wasn't the only reason this novella was so mediocre. The characters are underdeveloped and all except Dakota and her shifter friend, Bo are a big blur.

But Dakota is in fact awesome. I wouldn't act the way she did, she was way too professional and good. I would probably threw the other bitch from the window and be done with it. But if i have to be honest, Nicole was an all right person after all.

ARC provided via Netgalley in exchange of an honest review. Thank you!

Jackie says

Short but packs a punch that will leave fans of Shiloh Walker and her The Hunters series books wanting more...

I totally rocked out with Dakota and Drew and highly suggest you do too ASAP!

Even if you have not read any of the rest of the series this short novella can be read as a stand-alone easily and it will not confuse you without having any of the background from other books.

Moon Love says

I don't think I've read one of Shiloh's Hunter novels or novellas before so this was a treat and an eye-opening read. I was a little confused at the beginning about what being a Hunter entailed, but that was quickly cleared up. This story had a lot of angst for the short length, but it was fantastic and really got me in the feels!

Tania says

"Hunt Me" by Shiloh Walker. A stand alone short story in The Hunters series.

This was a really good short story. It can be read any time during the Hunters series as it does not follow any on going series plot lines.

The story follows Drew, a cop, who is torn between two women. Dakota, the woman who he is love with, travels a lot and he's lucky to see her once a month in the two years they have been together. She also has secrets that he just can't figure out. Nicole, the woman he thinks he should be with, is reliable, he likes her and he actually gets to see her more often than Dakota. He's made his decision. But all that changes when both women go missing.

Fast paced. To the point. Just enough mystery to keep you engaged. All in all, a really good short story. I liked it.

? BookAddict ✕ La Crimson Femme says

Surprisingly, this short story didn't do it for me. Usually I really enjoy Ms. Walker's vampire stories. This one is a 2.5 star for me. Maybe it was too short for me that it was difficult for me to remember. Forgettable stories usually rate a 2 star for me.

Basically, Drew is a cop who is in love with a mysterious woman, Dakota. He knows she works for some secret job she can't talk about. Whilst he loves her and want to spend his life with her, he decides to give her up because she can't commit. Dakota loves Drew but won't stay with him because... she's a vampire and it never works out with a human, no matter how attractive he is. When Drew breaks up with her and goes with a new girl, Nicole, things go a bit awry.

Misconceptions and accusations go flying as Nicole is is killed. This book did feel rushed to a swift and easy resolution. The ending is a happily ever after. Overall, not bad, just missing that Shiloh spark I'm used to and enjoy. Recommended for those following this series and want to read a little sweet and short side story.

4.0 overall stars

Couple 4.0

Sex 4.0

Plot 4.0

Series 4.5

Laura DeSimone says

I enjoyed this book. All hunters need a happy ending, and Dakota got hers with Drew.

Bookwormgirl says

good addition to the Hunters' Series.

Tracey Billing says

The only reason I read this was it was the end of another book that I was reading on my kindle. Not sure I thought, not something that I would read again.

Shelley says

A nice enjoyable quick read. Has action & romance. A quick glimpse into the Hunters series. The pace is real quick but you don't feel like you miss out on anything. This is the 2nd novella I have read in the Hunters series in as many days, now to graduate to a novel. Difficult to choose where to start as they all sound so good, Shiloh Walker is an excellent author. I would recommend this series if you enjoy vampire stories that are different from twilight type. These have action & alpha males oozing sex.

AvidReader says

I didn't like he was 'sort of dating' another woman and was attracted to her. Even though he and heroine was in a sort of relationship (again) for two years. I absolutely hated that hero kissed this other girlfriend and heroine smelled her on him.
