Natasha says

Hmmmm....I really don't have anything nice to say about this book. After the first few chapters I found that for me at least there was absolutely no real depth to this story. All it was, was scenes out of a porn movie. Yes I know, it is called Interview With A Porn Star but I honestly thought there would be more to it. I love a good hot read, lots of sex just as much as the next person but this actually repulsed me. I felt no connection to any of the characters what so ever and I loathed Rick. I mean for me I felt like he had no real substance to him at all. Towards the end I thought maybe he was beginning to realise what life was all about but in the end I just felt like it is all just about the porn industry for him and perhaps that is the way this book was supposed to be portrayed but for me I just wanted more.

And the ending....the epilogue....well that just sucked. Who follows a man that you have not got along with for days and that you had sex with once to the other side of the world, yet there's no love involved but you live together with your grown daughter?? Seriously who does that???

Michelle says

This book was hot hot hot an the title will tell u tell u how it is interview with a porn star come on but really the book was good an the story was great I thought it mite b the same as interview with a master but it wasn't it was just as good an way hotter if that could happen but I luvd the characters I hated it when had 2 put it down it a must read xxx

Spoiler Whore-Momoa says

I'm a sucker for stories about porn stars and escorts. This was very sexual, I enjoyed the story, the writing was very good. What fell short was how the story ended. Didn't mind the epilogue but didn't like how it lead up to it.

Janey says

I wasn't aware of this book coming out, so when I saw it reduced, and given how much i loved The Master, I was over it like a rash.

Rick Cassidy is a reputable, delectable, distinguished porn star. Given his presence in front of & behind the camera, he prides himself on his unique camera skills & being hung like a horse.

Connie Wright was a journalist with a publication called Infinity. She was shadowing Rick for a week to gain insight into the life of a porn star, and her initial thoughts were far from positive.

The more time she spent with him, the more she saw through the facade that "Rick the Dick" had spent years creating.

I thoroughly enjoyed getting to know these characters, how they slowly revealed themselves around the startlingly raw world of porn.

"You're a cobra...a big, beautiful, but very dangerous cobra. You weave and hypnotise, Rick Cassidy...you lure your targets with your looks and charm and your physique...and then you devour them."

Rae Bradford says

I'm not very good at writing reviews. I read others and I think to myself, "why couldn't I say that?" I am a huge Jason Luke fan and I was a little on the fence about the "Porn Star" aspect of the book when I saw the title. I immediately think of cheesy porn and unrealistic positions and/or acts the women are put in. Didn't find a bit of that in this book!! The story was well written, flowed great, and I didn't think about the 'porn' itself but about the mentality of one that is in the industry. Whether it is true, half true, or false, it doesn't matter. The fact is is that the story told was about Rick Cassidy himself, his views, and his life. Yes, the sex was hot. It was an inferno at times but it did not distract from the story being told. The character of Rick Cassidy, let me just say I love that man and his attitude!!! Bravo Jason Luke! Your brilliant mind continues to amaze me!

4.5 STARS

As a storyteller, Jason Luke has a unique way of pulling the reader in so seamlessly that sometimes I looked up and was surprised that I was sitting in my living room and not by the pool of a porn set in L.A. He weaves a tale that is so engaging and perfectly told, and just a pleasure to read.

Rick Cassidy is one of the best porn stars in the business. Having transitioned from actor to producer and director of some of the best porn in the industry, he agrees to allow journalist Connie Wright to shadow him for a few days as part of an interview she is writing for her magazine.

From the beginning, I was not a fan of Connie's as much as I was of Rick. Rick is completely unashamed and upfront about himself. He makes no apologies for his career, his attitudes or himself, and tolerantly responds to Connie's antagonistic questions about his life and work. He explains his well thought-out theories on the type of movies he creates and the reasons they are successful. On the flip side, it took me a while to like Connie. She is judgmental, prudish and frankly unprofessional for a journalist who is interviewing for a story. One of my favorite parts early on that illustrated this was when she asked Rick for a publicity shot, and he handed her picture of himself naked. When she asks for a clothed photo because the naked ones are vulgar, Rick responds "If I was a cop you would want photos of me in uniform. Same if I was a soldier or a pilot...This is me in my uniform."

Rick is surprisingly articulate and charming, and like Jonah Noble in Jason Luke's Interview with a Master, he can tell a tale that is engaging and enthralling. And hot. As expected from the title, there is a lot of sex

going on while Rick is filming his scenes, both as an actor and as a director. But despite my preconceived assumptions about how it would be, none of the sex was raunchy or dirty. It was just erotic and hot, and at times, sweet and sensitive.

Rick shows more depth to himself by discussing with Connie the loss of real intimacy that porn has created in him, and how he is looking for more than just sex in his personal life. He also had me giggling when he made the comparison between the movies he creates and the erotica that romance novelists write. How they are both creating their art for their audiences and providing them the fantasy of what they want to believe is out there, whether it is the hot young nympho blond girl or the muscled and tattooed alpha hero.

True to Mr. Luke's previous books, the end holds a surprise as to the intentions of the characters that I did not see coming. This was my only complaint. While I anticipated a twist after reading his other books, I thought it came on rather suddenly. I would have liked to see more development of this, rather than the rushed ending. But this still didn't take away from my overall enjoyment of the book.

Interview with a Porn Star was just a pleasure to read. I'm still not entirely convinced he isn't a woman, but Jason Luke's writing is beautiful and engaging and I look forward to his next book.

Tracy says

mmmmeeeehh! ! There was a lot of girl on girl sex. There wasn't a story line till the last 10 pages. I thought it was ok. I found the sex was all kind of the same. The story line repeated itself a few times... I think it was missing something..

Isa Jones (Jo&Isalovebooks Blog) says

Jason Luke has done it again!

You have to give credit to he who deserves it, and I find it amazing that Jason can produce such a fantastic story in such a short period of time, and with such impeccable writing! I thought Interview With A Master was great, this, was brilliant!!!

I loved this story, the whole chemistry between the leads, the fluidity within the scenes, the witty, charming yet arrogant male lead, he is the centre of this story and its a total breath of fresh air.

Once again Jason totally hypnotises me with his intelligent and captivating style of writing, his use of the descriptive allows the reader to completely submerge in the moment and let the imagination run wild. The sexual content will definitely please those fans of the genre, it certainly wont disappoint.

What I like about Jason is that he is bold and goes for what he believes in, by having a new book with a similar title he took a risk of readers perhaps expecting that same type of story, but oh boy was I totally blown away, and as always because you are so engrossed realisation hits that the end is fast approaching.

So stop reading this and start reading Interview With A Porn Star NOW!.

5 stars *****

Cristina says

Interviews shouldn't be this interesting but with Luke as the author, it's hard to put the book away. This is the story of a pornstar and while I've read Interview with a Master, this one was a better read. Not only entertaining but erotic and sexy. Agh, what else could I wish for? Keep 'em coming and I'll keep buying 'em.

Anja says

Jen says

Holy Steamy Book Boyfriend!

Not only is this an interview, but it's a look into the porn industry in a sexy, intriguing way. Rick is charming, sexy, and surprisingly insightful and sensitive. The sex scenes are steamy, intense and ... adventurous...

Jason Luke has an ability to describe a scene so you feel like you are watching the most intimate of moment from the corner of the room. His writing style just flows and I found myself reading well into the night to finish it without even realizing the time had passed.

Did I think I'd want a porn star as my perfect book boyfriend? No, but I am so thrilled I was wrong! Give Rick a chance, you may be surprised by how much you enjoy his story.

Shannon says

Skip.

I have no idea why this was written. I don't know if this was to show us a bunch of really stupid sex scenes with pornstars, BUT I will say Rick and Connie? I didn't get it.

Charmaine Stephens says

I thought off the bat the title of this book sounded pretty interesting. I like the fact that the author must've did some background research. Because it sorta gives you a first hand insight into how things work behind the

scenes in the porn industry.

I liked Rick Cassidy's character overall. Deep down he's a good decent man. And he's a very sexual man. Sex is his life. But its sad sometimes on how he's sorta become jaded because he's been doing porn for so long. Some of his world views are distorted in different ways.

Connie got on my nerves majority of the time. It saves face at the ending putting together the puzzle pieces of why she's so anti-porn lol But most of the time she came across as this uptight, snotty, prudish & judgmental woman. I'd roll my eyes at almost everything she said.

My only complaint is its too much group sex or MFFF. Girl on girl sex scenes aren't my cup of tea. But the way this was written with the MFF scenes weren't so bad because it wasn't as much direct interaction between the women.

All in all a decent book. I'm disappointed hearing that Jason Luke won't be continuing to write erotica. Because I thought he did a good job at it. But I wish him all the best in future projects & endeavors.

4 stars!!

Antonette says

"He is brash. He is irreverent. And he tells it like it is! He is also articulate, witty and charming.

He's Rick Cassidy" - I COULDN'T HAVE SAID IT BETTER MYSELF!!!

Jason Luke does it again and does it brilliantly!!! He is very insightful and has such a way with words and describing things in a different light to make you understand it better and believe all that he says. "Interview with a Porn Star" was different than any book I've read and even though it's the same idea with the interviewing, it's still fresh and super sexy. All of Jason Luke's male characters are wonderful and seem to know so much about women and it's a breath of fresh air. Just makes you believe that Jason Luke is the "woman whisperer"

This book was so much fun to read and very very sexy. The whole idea of it and the characters were wonderful and it gave me different attitude towards the porn industry. It was well written, as all of Mr Luke's work is, and I was able to visualize everything....which was wonderful when it came to Rick and his 10 inches!!!!

Overall it was a fabulous book and I would certainly recommend it to anyone and everyone as I would recommend ALL of Jason Luke's books. Way to go - can't wait to see what you have in store for us next!!!

AerinLuvs says

3.5-4 Stars

This was not a romance, although I shelved it in my contemporary romance shelf. I just didn't want to create

a new shelf named "contemporary".

This is the first book I've ever read by this author. I could not tell that this author was a male author, because it was written in a way that female readers are used to. It has a lot of sex and descriptions of sex with multiple women, because the Main Character is a porn star, the famous Rick Cassidy. It is written in first person male POV, which I really enjoyed.

One day he opens his front door to meet Connie Wright, a writer for "Infinity" magazine, she will be interviewing him over 3-4 days while she observes him work on a few sets and follows him around.

For some reason, he is attracted to her and decides he wants to sleep with her. In the meantime, she observes him f*#*& multiple women multiple times in menage-a-trois and I think even a menage-a-quatre, all with women partners.

He is jaded but enjoys his job, and it is a job to him.

Where the story was most interesting was where it described behind the scenes and his unique lifestyle. I learned a few things. (view spoiler)

There were many many female porn actors described, and many, many sex acts. They kind of ran together and for some reason I didn't find the descriptions very hot, mostly because *he* had an emotional distance in them, although he described himself as turned on and described the hardness of his cock and how hot he did find some of the scenes. Many times it seemed he didn't enjoy the sex with the female porn stars.

Where the story lost me was in the romance department. (view spoiler)

Rick does Connie a huge favor at the end and he expresses the negative aspects of being an actor in the porn industry, which is something the reader already figured out by that time, but its great that Rick (view spoiler)

I thought this was very well written other than the romance aspect of the story, and it was very very interesting!
