Just a Dream

Crystal Knight

Just a Dream Crystal Knight

Shea was an outcast. Her family was afraid of her and so was everyone at school. She knew that she really didn't belong where she was, but what she didn't know was that when she was younger, something happened that took her from the ones that truly loved her and that they were searching, trying to find her to bring her back to them.

But will she be accepted as she is or will she be shunned like she had been with the family that had raised her? More importantly, will she be able to find the one that would make her feel whole, the one that really made her feel at home....

Just a Dream Details

Date : Published June 5th 2013

Megan says

Oh my goodness, I swear it was like a 10-12 year old wrote a fanfiction, didn't bother to edit it or learn BASIC ENGLISH! And then just said "That'll do!"

An example of the cra-

Poor writing is when she says;

"Sure, I'll be there in in minutes!"

There are soo many more!

The writing is cliché and the character development poor. It is far too... Unrealistic I'd like to say, though it's about Werewolves.

A grey horse with black socks?

A white Wolf with silver tips?

A black horse with a silver/white mane and instantly falls in love with her?

not to mention the use of Christina Perri's "A thousand Years."

I presume they've read/watched Twilight also.

But honestly, no, DO NOT READ THIS!

Hannah Walker says

Don't read

I can't say this enough do not read this book. There is no plot and characters personalities are always changing. The grammar is so bad, it is really distracting.

Paula Mccue says

Il start by saying i only got half way through this book, i just couldnt bring myself to finish it. The idea was really good and the description made me really want to read it. The actual story was so bad i was mad i had wasted my money. The errors were terrible, spelling mistakes, missing words, it doesnt normally bother me but i had to reread a couple of paragraphs to figure out what it was trying to say.

Shea was not a nice character, i did not like her, she seemed to be angry all the time and she was annoying, the characters and story had no depth, it didnt take her long to get over the fact that she was kidnapped from the only family she knew and also that she was a werewolf, I also didnt really like the main male character who was also the alpha, arent we the readers supposed to fall in love with him? it was all a bit immature to me, i gave it two stars as you never know, it might have gotten better but i dont think so.

Anna says

Not a good book you think it starts out good but then she gets taken again i couldn't even finish to graphic and to much abuse

Jdm74aol.com says

Promising but bad editing

Omg! The storyline was very promising, but played out to quickly. It seemed underdeveloped. Usually I can overlook a few grammatical errors, but there were so many that it actually took from the story. I can't count how many times I had to reread, because of the errors.

Robyn May says

I can't explain how much of a disappointment this books was I mean who gets ripped from the only family they have known to actually be returned to their real parents that tell her she's a werewolf and she just accepts it easy as pie there was no suspense..... I couldn't understand most of the story as it didn't really make sense she started off as such a strong willed alpha female then suddenly belly flops to the most submissive thing in the world the romance that's in the book well it's probably the worse I've come across ... I struggled to finish this book it just seemed so flat it had no umph.... really gutted

jasmine says

The spelling errors and missing words made me want to cry. The initial idea was good but to me it seemed like she wrote to the bar scene and then just wanted to end it. She jumped over the second half completely, or what could have been a second book all together. As far as I'm concerned she skimmed through the rest of the book and was just trying to get it done. If she had gone more in-depth about what happened at the kidnapper's house and how she dealt with the trauma after wards than it COULD have been a half-way decent book.

Jessica Mercer says

Like the story, but lots of writing errors..

Cassandra says

So. Freaking. Bad. What the hell. Poorly written, annoying protagonist, unbelievable situations/reactions, ect. No plot or point, super short. Couple at the end of the story after a really sorry attempt at a love triangle. Really disappointing.

Tia says

Oh my god, someone needs to seriously edit this novel correctly. I couldn't stand the constant spelling errors, not to mention that the story wasn't all that great in the first place. With a lot more work and dedication, not to mention the right beta reader or editor, this novel could of been amazing.

Jenny says

SPOILER ALERT:

It was a true struggle to finish this book over the mistakes alone. There were also some problems I had with the story line. They quit looking for her the first time she was taken cause they thought she was dead. Then toward the end her mother said they didn't call off the arranged marriage with the alpha because the motherly bond would have let her know if she was dead. ..HUGE story flaw for me. Thus why I've rated it what I did. The ONLY reason I gave it a second star was because part of the book did draw me in enough to feel something. So imo this author has potential but this particular book needs a long hard look by a professional editor.

Clare says

This book had the potential to be an amazing book however the grammar was shocking. The spelling mistakes were annoying, half the sentences didn't make sense and the whole book was so rushed you didn't get a feel for the characters or the relationships or depth to the story. It's a shame but yeah I won't be reading the second book

Terri Fultz says

A nice read

The story is short, some more background would have been good. The editing needs attention. But all in all a nice quick read.

Danielle Smith says

Oh the Editing!

This book could have been really good if it wasn't poorly edited. When you read a book it should flow. This book does not. You literally have to stop, go back and put the sentence in grammatical order or it won't make any sense what so ever! I'm sorry, but facts are facts!

belle says

This is the worst book i have ever had the misfortune to read. Do NOT read this book and waste your time. If you are like me you saw the beginning of this book, or the summary, and thought that "hey, this is an interesting plot, and kinda unique: a strong female lead who is a werewolf..." NOT HAPPENING. Instead, the writing is AWFUL, the story is completely random and confusing, the romance was instant and unexplained, the story just stopped and was finishes in about one chapter. It was awful. She instantly accepts a family that abducted her? she decides she's actually madly in love with a guy we read about two sentences about, we are left with dead ends all over the place, the action and i guess the point (???) of the whole story was random and strange. We saw about two sentences in the beginning about her being a werewolf... apparently no big deal... her aggressive behavior instantly disappears and now she's a regular boring girl. YOU ARE A WEREWOLF AND WERE JUST KIDNAPPED BY PEOPLE WHO SAY THEY ARE YOUR LONG-LOST PARENTS... no biggie. It was horrible. Strongly advise against reading this book. I apologize if this seems overly harsh, but I was incredibly aggravated that this qualified as a legitimate book and, worse, I actually fell for it and read it.
