In the final installment, the gang is biting their nails, wondering who snitched on Oden. What the true perpetrator will learn, is that one must be very careful when attempting to take down someone like Oden Bishop.

Come back to Las Vegas for one last time, as each couple tries to deal with more lies, drama, secrets, and sabotage. Will they all make it out unscathed? Or will these shorties no longer be in love with their real ones?

### **Can't Get Enough**

This whole 4 part series was just wonderful. I didn't want to put the book down. There were so many twists and turns & some of the characters personalities reminded me so much of some of my friends.

### **Nice ending**

These couples been through so much from lying, cheating, blackmailing, and baby accusations but they all managed to make it through all of that. It was nice seeing the growth in all of them from book one to book four, especially Truman. Such a great series!

### **Great series**

I absolutely loved this series. I still didn't care to much for Truman and Shane. I felt bad for Pierce I don't think he deserved what happened to him. All the other couples I were happy with. I didn't care to much for Perry. Pilar really made me not like her after she wanted to get Truman back, she made herself look stupid.

?

Another 5 star banger by Shvonne I loved the crew and I'm so glad that Truman grew up and stayed with chiina because she really loved him enough to walk from his womanizing ways.. I loved Kyle & Oden

relationship I'm happy that Shayne grew up and left oden alone so her and her sister wouldn't be fighting when oden didn't want her now the whole crew is married with kids

#### **Might even be 1 star**

Why every other page had to be sex? And the same sex at that.... Only good thing about it was at least it was kids getting an education for the most part and not selling drugs. Very predictable storyline mostly with a few lines that made me chuckle but i could have definitely lived without ever reading these books. Which is sad because I've read other books by this author that i thought were pretty decent.

#### **Excellent series**

This series was excellent. The characters the story just everything. Shvonne Latrice is a beast at this writing. Oden, Anton, Truman and Santino are the mean. Khyle,Bella, Tasmania and Shayne were real ones. Just awesome

#### **Great job**

Perfect ending to this series, happy everything worked out for everybody. I'm truly surprised that Truman actually settled down and got married cause I never seen that coming, I guess Chiina tamed that butt lol. Good to see everything worked out for Santino and Bella cause I surely thought Trevor was going to succeed at messing up his career, but on another I was mad Santino just didn't tell Bella about the Crystal chick so that he could have avoided all the unnecessary stuff but glad it worked out. I loved Anton and Tasmine relationship but I said from the beginning that they were going to make it work no matter what. Oden and Khlye are like so perfect for each other to where it's just so cute. Surprisingly I'm happy for Shayne and Lloyd I guess people can change. I'm so like clueless about Perry and her whole situation. Overall I loved this series 2 thumbs up

#### **Tonya-Review**

I love all 4 Books. The Couples scare me sometimes Pierce and Alanna were crazy. I sort of felt sorry for Pilar but she ended up making a fool out her self her that Selina chick that couldn't understand he is not the Father. Perry shock us all. Those womens was obsessed with Oden, Ton, Truman, Lloyd. Black mailing. I was glad everything work. All Four books are a must read

### **The bomb read**

I must say this series was one of the best written series I've read in a while you really brought all of the characters to life. This was such a well written sites. I loved how loyal the men were to either and their women. The girls were true friends with no shade and shared a bond as true friends. I loved how Oden always came through for his girl and was just a true boss. You just keep getting better and better as the series keep coming. Your the bomb.

I feel like I'm saying goodbye to my college friends who I won't see again forever. Loved this entire series. I hope some of the characters can make some cameo in your other series. Great read Shvonne.

?????

Enjoyed the series! Great ending for all. The characters really came full circle. Even Perry with her weird azz. I love Bella and Santino's love story the most. Wish we could get more of them. Not sure if I could be with a man my sister has been with.
