Yvette says

Pretty interesting read although it was somewhat predictable. Thinking there may be a part 2.

Chere' Brady says

Mr. King's section of this book is more thorough gives the whole picture and nothing left to the imagination. It's a quick and enjoyable read with the real feel police lingo like a true crime show on television. I give it a thumbs up!!!

Cab says

This book has the utter distinction of getting on my nerves within the first 10 pages, so much so that I abandoned the attempt at reading it. I had high hopes that it was going to be an interesting read but I couldn't stand the way the characters spoke with each other. James Carter and Roland Dawson, lawyers who are written in a way that makes them come across to the reader as uneducated fools. Well at least this reader. I understand that amongst friends people will resort to a more relaxed style of speaking, but it felt contrived and lazy to the point where I lost interest in the story.

Janice Simmons says

I really enjoyed this book. Both stories were full of suspense and a lot of drama. I think anyone would enjoy this book.

Stephanie says

I wasn't very impressed with the writing style of either author. I'm glad I was able to borrow this book as opposed to buying it.
