HOW WOULD YOU ESCAPE A MAZE OF THIRTEENTH FLOORS?

You work in a skyscraper.

You live in an apartment block.

You stop over at a hotel.

You find a button missing from the elevator's control panel.

Thirteen.

Over the years superstition has robbed floors from thousands of buildings across the world, and continues to do so.

Dawn McKenzie and Joe Bradley are about to discover where these floors really lie. Chased into an impossible maze split across time and space, their chances of survival narrow by the second.

And in a maze with precious little food, they are not the only ones trying to survive...

I received this book through the goodreads giveaway and was looking forward to reading it. The story took me a couple of chapters to get into but then I was hooked. I couldn't put the book down and was fascinated what the next floor would look like. I would have given the book 5 stars but I was disappointed at the ending as to be honest I didn't get it or understand Dawn's sudden inspiration. I didn't really find the character Dawn to be particularly likeable or heroic but I don't think she was meant to be and it only made her more believable.

Just reread the ending and now understand Dawn's idea. I often skim read when I am near the end of a good book as I can't wait to get to the ending! Based on this I am changing my review to 5 stars.

Polished this one off in an afternoon and only had to refer to a dictionary once!

Ending was so rushed, too many questions remain unanswered. Very interesting concept but poor execution at the end.

What if you got into an elevator and all of the buttons have changed to 13? What if every time a door closed it would open on to a different building? This is the story of Dawn and Joe, and how they find themselves in this exact situation. This story is full of twist and turns, triumphs and defeats. Once you start reading The Floors, you won't be able to stop till you see them through to the end.

I won this book through goodreads and I can say I ended up really enjoying it. Okay it took me a long time to start reading this book and a longer time to get into it. But once I start reading chapter four I started to like it. I don't know what happen but maybe I needed to get into the author style or the first three chapters was bad. It was a unique book which I couldn't predict or guess the end. I love that page thirteen was wrote like 12 + 1. I didn't understand what was up with the main character childhood fear and why it was needed. AnyWho, I going to wrap this review up by say I like and enjoy the book and to skip chapters 1-3.

~I received this book for free through Goodreads First Reads~

Reading the cover of this book, you can feel the potential oozing through the words "prepare to enter a new dimension of horror". However, I wouldn't actually describe this book so much as horror as I would "suspense + gore". The start to this book was also quite slow, and I had to force myself to read through some points that felt a bit dragged out, as well as a character that wasn't really a character(?) that I didn't find was at all necessary to the plot.

However, after a certain key event approximately halfway through the book, the story sprouts wheels and picks up the pace immensely, the characters accomplishing worthwhile feats and the plot really rounding out. So, overall, I really enjoyed reading *The Floors* (or at least the second half), and although I wouldn't recommend it to someone seeking out a horror novel, I would gladly lend it to someone wanting a decent read.

I won this book through a Good-reads give-away contest, and it was my first read by author Lucian Poll.

The positives: I felt that the idea of a "maze" comprised entirely of the "missing" 13th floors from buildings all around the world was a unique concept. Some of the characters displayed traits of survival that were quite plausible, under these conditions. The story also flowed well, making it easy to go from one scene to the next.

The cons: I did not personally find the main character, Dawn, likable. Even when she showed a bit of concern for another, it somehow didn't come across as authentic to me. (I felt that she contradicted herself too much by her actions throughout the course of the novel). Also, there were some scenes that were just a little too confusing (I won't go into spoiler territory and elaborate)--but this just could have been a personal issue I had, which others might not find the same. The ending seemed a bit abrupt and "anti-climatic" after all that we had read before; and again, there were aspects that I just didn't understand in regards to previous scenes.

Overall, i'm going with a rating of 3 stars, because I did like the idea of the novel. However, I felt that certain issues needed a bit more clarification, or that they could have been done away with all together.
