## **The Introduction: Undying Love #1** Isabelle Connors

Love is a gift, and not everyone is lucky enough to find it. Or maybe the lucky ones are those who never find it. This is not your average love story, this is a life story. Your teenage years aren't supposed to be complicated. But, sometimes they are. What happens when you're attracted to the new stranger in town. Do you just fall in love and live happily-ever-after? Do you follow through on your feelings, even though you know you shouldn't?

From the very first night, Arianna meets Skylar she experiences this indescribable deep connection that she's never felt before. She's terrified and excited all at the same time. She wants to act on these feelings, but she can't, no matter how much she wants to. Things are just too complicated!

Moving from a big city to a small town is never easy, especially for a teenager who had it all. So when Skylar's family has to leave New York for Gulfport Florida, he's not very happy. But maybe things aren't going to be so bad?! Skylar has never been in love before, but he thinks he just may have fallen in love with the girl who caught his eye on his very first night in his new hometown. Even though he's sure she feels the same connection, she keeps resisting because of her misplaced loyalty.

Will love conquer all? Or is that just another fabricated lie that people tell you as a child?

## **From Reader Review The Introduction: Undying Love #1 for online ebook**

### **Vaidehi Sharma says**

Undying Love by Isabelle Connors.

This is a novella of around 50-60 pages, comprising of a story that revolves around Sky, Ari and Rachel. Sky falls in love with Ari at first sight but the twist in the story comes when Rachel gets obsessed with Sky and falls for him. A story of teenage love and infatuation. The writer has beautifully moulded friendship, love and life. Isabelle has described a teenager's feelings and emotions very beautifully in her book 'Undying Love'. I rate it 4/5. Looking forward for more from your pen Isabelle! Good Luck.

### **Stephanie Lasley says**

Wholesome Read 4 Stars

This short but sweet story is the first book in the Undying Love series.

"The Introduction" is just that, a preamble of Skylar and Arianna's relationship. The story begins when they meet in high school. Skylar a senior and Arianna a junior are head over heels in love. The book describes all the trials and tribulations they have faced during his last year in school. The big question is what's going to happen to them when he leaves for college and Arianna is left behind?

Oh young love, is it the real deal or just a life lesson? Either way, everyone remembers their first love!

Stephanie Lasley, from The Kindle Book Review

The Kindle Book Review received a free copy of this book for an independent, fair, and honest review. We are not associated with the author or Amazon.

### **Mommaleena says**

**ABSOLUTELY** loved reading this young love story! Starting out in a new town in the middle of the school year sucks, that is until Skylar sees Arianna at a party. He feels the pull to her from across the bonfire as soon as he gets there. Arianna feels the same pull but it scares her as much as it excites her, the major issue is that she's loyal to a fault & Rachel wants Skylar.... How will this high school love affair turn out, will it be a story of true love for a life time or just another high school fling?

Received an ARC for an honest review--- it is perpetually on my TBRA shelf!!! (To Be a Read Again)

---

### **Jalpa Williby says**

Ahh, the high school love...The author does a great job bringing the readers to those young, innocent days. I still remember those days, believing in the best of people, believing in love. And so we meet Ari and Sky.

Both are young and in love. Their feelings are strong for one another and it was refreshing to relive that innocence through this story. It's that sweet love when you believe in the concept, "love conquers all." Sky and Ari truly felt that nothing could ever break the special bond they had for one another.

This is an easy read and actually I read it in two days. It kept my attention because I was intrigued and interested where their story was going to go. I especially liked Sky and his mom's conversation. It captured my attention right away and it gave him a glimpse of seeing the world realistically versus idealistically. Between Sky and Ari, Sky is definitely the more idealistic one. Ari is the more cautious one (and realistic) even though in her heart she has strong feelings for Sky.

Now I'm curious where their story will go. I will be reading the sequels to find out!

---

### **Indies Heart says**

I enjoyed this sweet high school romance. Ari and Sky remind you of your first love. The one you hope and pray will last forever. The one you wish that life wouldn't interfere with. There story has it all from denial, to jealousy, to true love. When Sky graduates and leaves for college, Ari is left behind with the promise of forever. But is that a promise Sky can keep? I'm looking forward to the next book to find out how it turns out for Sky and Ari and all of their friends. Great job by the author.

### **Kathryn Synoracki says**

I received the ARC copy of this book from the author for an honest review! This is a great beginning to a new series! I totally enjoyed this book and can't wait for the next book in the series! Thank you Isabelle!

---

### **Priscilla Garcia says**

I was given an ARC for an honest review.

This was a cute romance book. I love reading about High School romance so this book was up in my alley. It was a light read, don't expect sex scenes which is going to be a downer for some of you but maybe that was the author idea to keep us on the edge of our seats waiting for the next installment.

The characters are just as I remember my classmates from High School, I have read about other HS characters and truly they got on my nerves. This characters grow as I read the book. The romance was super

sweet. The MMC was so sweet and you will love him right away. He has a romantic soul. The MFC has an issue with letting people in. She doesn't want to be loved or to love. So he struggles with her a bit. But is not all love and laughter people will try to tear them apart. Hard and difficult decisions will have to be made. He has to leave to college while she stays back to finish HS. He is a guy with a bright future in sports and girls throw themselves at him so thrust issues play a big issue in this book and will be one of the reasons I will be waiting to read the next book. Don't judge! I love drama and love triangles lol.

### **Medavis66 says**

Really good story. Accurate depiction of young love and that special connection. Well written in regards to the struggles Ari goes through being in love with someone for the first time. I understood the loyalty thing, but the strength and length of that relationship shoulve allowed the truth to come out earlier. Again, good examples of young love and friendship bonds. I hope this story continues soon, as I am anxious to continue it.

ARC provided in exchange for honest review.

---

### **Kristen Iten says**

This is a great teen romance novel - full of drama. Each chapter is written from the perspective of a particular character. This works well for the story since the reader gets a chance to hear the internal dialogue of the main characters in a more natural way. The writing is clear and flows pretty well. I would recommend this book to the older teen audience as there is a bit of language and some mild sexual references.

---

### **Melinda says**

I was given a copy of this book in exchange for an honest review.

Why you should read The Introduction?

1) The Introduction was an absolutely adorable love story that I thoroughly enjoyed reading.

2) Skylar and Arianna are both such amazing characters. Skylar was just such a gentleman and when he saw Arianna for the first time he falls head over heels in love with her. Arianna certainly paid attention to Skylar too the first time she saw him and felt this crazy connection to him that she's never experienced in her life.

3)The Introduction has left me wanting to read more and I can officially say I'm addicted to this series. I absolutely can't wait for the rest of the series to come out now.

### **velvetgypsy says**

I'm waiting for Undying Love #3 before reading #2, would rather have the complete set.

---

### **Acdestiny says**

Undying Love is the first book I've read from this author and I cannot wait for the rest of the series to be released.

I'm a sucker for romance, so when I read the synopsis for this book I immediately hit the "want to read" button. So imagine my surprise when the author asked me to read her new book...I was in heaven.

I am in LOVE with Sky, he was so devoted and determined to get what he wanted... which was Ari. my thoughts of the heroine is still on the fence, she made me hate her at time and then when she finally followed her heart, I was happy....I think that's what made it a good read because you have some much emotions for the lead characters. I want to see these two characters grow and mature in their relationship throughout this series.

I don't want to give too much away... I want you to read and enjoy it as much as I did. This book really is a MUST read. It's a quick, emotional and romantic read... what more could you ask for in a good book?

I cannot wait for Isabelle to release this book for you to enjoy as much as I did.

---

### **Christina says**

Hmmmm...

*The Introduction* is the first in a new indie series (*Undying Love*). Chronicling Skylar's last year in high school, the year he moved to Florida and met Arianna and fell in love. I've said it before and I will say it again. Novellas are becoming very popular as of late. And it's something that I enjoy for the most part. A riveting story can be told in a much short book. Or maybe it's two or three books that equal the length of a full length novel.

So here we have the story of a boy and girl who fall in love at first sight. Okay, I usually don't go for that. It's not the most realistic. But I'll play along since it's the entire premise of the book.

Arianna's "misplaced sense of loyalty" was annoying at times. Her loyalty ended up only bringing pain to everyone around her. Including herself. But that is where she grows. Learning that she can indeed be happy. She deserves to be happy. Sky just wanted to be with Ari the entire time. Sure he made a few mistakes. Everyone does.

I don't want to say too much about the story, because almost anything I say will be a spoiler. So what I will say is that *The Introduction* is well written, fast paced, and a nice quick read. And I am very curious as to what happens in the next installment and to see some more character development from the lesser characters. If you enjoy contemporary fiction (particularly YA romance), then you should have an enjoyable time reading this book.

**Note:** I received an ARC of this book in exchange for an honest review, and that in no way changes my opinion of this book.

### **Musings of A Romance Junkie says**

This is my first read by author Isabelle Connors, and I liked it! Anyone who knows me knows that I love my teen/young adult angst-y, tear-jerking love stories, and this one ranks up there.

Skylar is a high school senior who's just begrudgingly moved to Florida (when his father gets a promotion) with his parents. It's a totally different vibe than his life as a New Yorker, but Sky makes friends rather quickly. Upon his first social outing, he sees this beautiful girl named Arianna, or Ari, and it's a wrap-love at first sight, there's no other girl for him...Ari takes one look at Sky and she's hit by the arrow too.

Sky and Ari get off to a very rocky start because her BFF Rachel is also feeling Sky and wants him for herself, but Sky ain't feeling her like that cause Ari is the ONLY girl for him. Also, there's Colin, who's been in love with Ari since they were practically babies, and he ain't giving up without a fight either. Cue the music...

Once Sky and Ari solidify their feelings for one another and declare their everlasting love, they are faced with the challenge of Sky going away to college and attempting to maintain a long-distance relationship (Ari is a year younger, by the way). Sky is determined to make the relationship work, while Ari has serious reservations, believing they'd be better off ending things before they get too deep, while she's got that dick Colin in her ear plotting and scheming to have her for himself.

This is book 1 in the series a very good one at that. Don't expect a bunch of horny teenagers feeling, and groping and screwing like rabbits. It's a little deeper than that. This is a story about two young people who fall hard and fast and let's those feelings consume them to the point of no return. I was like whoa... The only thing that bothered me somewhat was Sky's emotional manipulation of Ari at times, but I get it. When you feel so strongly and passionately about someone, the heart overrules the head, and everything else is secondary. Can't wait to read book 2. Click it up!
