## **Wild Hunt Bilinda Sheehan**

Something is stalking King City.

The Elite is baffled by a string of bizarre murders in the same church where Amber killed a demon. She may be a newbie, but Amber knows there's no such thing as coincidence. When she visits the crime scene, the murderer enters her mind and attempts to claim Amber for himself. Luckily for Amber, her demon mark isn't willing to share.

As if that wasn't enough to deal with, now she's seeing ghosts in the cemetery. And her attraction to Nic is rapidly reaching fever pitch.

Caught between the worlds of the demon and fae, Amber must fight for her life before she loses her sanity.

Whoever said being a Shadow Sorceress was easy never faced a pack of Heart Hounds. Sometimes, even the strongest magic can't save everyone.

#### **A thrilling read**

I love this series more each book I read. There is so much going on here and it's a crazy mess! The Fae get their time in this book and we learn so much more about Amber's past and her parents. Nic will break your heart and I'm hoping the author finds a way to make it right for him.

#### **Very good, but**

She needs to learn her craft so she is not the most ignorant person about her own powers. Would recommend to family and friends

having a hard time expressing how much I loved this book. Amber the heroine goes thru so much but stays true to who she is. could not put the book down. very well written. has a hint of romance and full of action. if you love urban romance with a twist you will love this series. can not wait for the next one to see what will develop next.

Oooh, that ending!! I feel like this installment left you with more questions than answers, but kept you on your toes and unable to wait for more! I was meh about the quasi-romance going on between Amber and Nic, but we'll see how it goes in the next book.

#### **Great book**

The shadow sorceress books are a great read. I enjoyed all four of them. Amber is a great heroine. The things she did were great.

### **Adrienne Testa says**

Amber is in for a ride, she may not want to take. Especially when a fae takes her captive. The wild hunt is swirling around her and she has no clue how to stop it. Her mother telling her about her father and the truth about why she was sent to America. Nic finally telling her how he feels, wanting to keep her safe. Its an interesting story and brings Amber closer to learning the truth about herself.
