### **Sandi Ramirez says**

I love the Paranormal Dating Agency series. I have read every book in this series most more than once each. This is the newest book and it is based in upper Alaska. But never fear we know a few of the folks who are mentioned in the book if you have read some of the past books. Our favorite Dragons and their lovely lady wanted to make sure that their friend the lonely wolf Tevrik doesn't spend his whole life alone. So of course they mention him to Geri Wilder. At the same time she has met Juliet and at an auction after speaking to her Geri's internal radar has pinged. We know right away something good is going to happen for this lucky lady! I love it when we get a bit of a mystery would our romance and Milly Taiden has been adding more and more suspense and intrigue to her PDA books lately. It makes the romance all so sweeter when it happens. I can not wait for the next book in the series!

Juliet is a modern, strong minded woman who won't take NO!! as an answer.

Jerry wilder has been up to her little tricks again, after Raven's marriage to dragon shifters Ice and Frost she heads out into her favourite part of the world. Alaska knee deep in snow and frozen she couldn't be happier? It would be wonderful to have someone to share her hopes and dreams with, but not many people want to live off grid in the wild when its freezing most of the year, but the views and the wildlife and the fresh air, there couldn't be anything more wonderful....

Tevrik is meditating in his favourite spot, his place that has helped keep him sane when just as a little bird by the name of Jerry Wilder stated something falls into his lap Juliet regains consciousness in a cabin, a strange man is caring for her, he's beautiful and shy but oh so talented, her heart warms as he tells her of his orchard, his farm and the cabin he built and designed himself, she knows he her souls mate but she senses her carries a heavy burden, if only she can get him to let her in!!

This was another wonderful read by Milly, the characters were wonderful and the scenes were breath taking along with a good dose of shifter love. As always, I read this in one sitting, once I started, I just had to discover what adventure Juliet would get into this time?

I voluntarily received and reviewed an Advanced Reader Copy

I thoroughly enjoyed the book and look forward to reading any future publications; keep up all the great writing.

Book 19 Winter Takes All in PDA series by Milly Taiden.

Juliet is a scientist and decides to go to Alaska for a research project but while digging snow she falls directly into Tevrick lap.

Tevrik is a self inflicted loner after a traumatic past he lives off grid and is self sufficient in the frozen Alaska. Tevrick never thought he would meet his mate out in middle of nowhere but when Juliet falls in his lap his wolf decides there mates and wants to keep and protect her but his human side think he doesn't deserve happiness.

I loved that for most this book it's all about Tevrick and Juliet meeting and getting to know each other with anyone or other distractions.

I do feel the reason Tevrick ran away from home was stupid and not a really good reason to stay away from his family for 15yrs but reuniting was good and a interesting ending which I wasn't expecting with his fathers pack.

Absolutely love this series

### **Cheri says**

Tevrik has spent most of his life isolated in the Alaskan wilderness. A terrible incident in his teens separated him from his family and wolf pack. Instead of training to be the next pack alpha, he taught himself to survive off the land with next to no money and all natural food and home.

Juliet loved the cold of Alaska and her current job gave her the ability to enjoy it. Her friend wanted her to take a beach vacation and find a man since the friend had just found two shifters and was happily mated them. Not gonna happen--was the feeling of both Tevrik and Juliet. When he was told his mate (he's a wolf shifter) would fall into his lap he scoffed. UNTIL...

Is it possible for her to survive the catastrophe that brings her to this hot wolf shifter? Can he get over the guilt of his past and work to have a life with Juliet? Life isn't easy. History may give them a boost to change their lives so both can find a happy future. That is unless the enemy doesn't let them live long enough to find out.

Another matchmaking wonder with characters you want to find each other

Geri is at it again in Milly's newest story Winter Takes All, this is one of the longest running series I've read and Paranormal Dating Agency continues wonderful stories this one in Alaska.

A sexy wolf punishing himself with staying away from his pack and a smart and sexy Geologist caught in a snowstorm. Now doesn't that make for cuddly nights? Right? well not so much. Between a stubborn wolf and an obviously accident prone beauty things just don't get any harder.

Both characters full of personality and fits within the story marvelously. All kinds of hot and funny, another great story by the talented author. Enjoy

AWESOME PDA book! I loved it. In addition to heat, there was tension, life and death moments, another kidnapping... not a slow spot in the book. Tevrik lives about as far off the grid as a person can get. However, he is a wolf and wolves are pack animals. Yeah, he has his reasons and everything happens for a reason. Juliet has already been kidnapped once and now she is back at work and a little envious of her best friend Raven who found two hot dragons. She wants a little of that kind of love and devotion herself. Juliet falls

into Tevrik's lap...literally. I love the journey to their HEA. It was a little unconventional and full of surprises. There needs to be healing and once that happens...get ready for some fireworks.

I voluntarily reviewed an advanced copy of this book.

### **Patricia Bello says**

Juliet has her turn as she meets her mate when she literally falls in his lap. Trevik, a wolf on a self-imposed exile, is a lone wolf for a reason...and he thinks he doesn't deserve a mate.

Stubborn wolf. Good thing he can't resist Juliet and in the end, they do get their happy ever after. Though I wanted to bonk trevik on his head lots of times. And being alone for so long, he's a little out of touch which how to interact with his mate.

Juliet is great! She's so spunky and a little odd (for me) for wanting snow over beach.

The treasure was a nice touch.

I received a copy of the book for my honest opinion.

### **Whispers From says**

Juliet loves cold weather. She works for a firm that measures the snow in Alaska. Trevrick is a wolf shifter and supposed to be the alpha. But an incident years ago had him running away and living in a cabin away from everyone. When he is in a cave meditating and an avalanche happens, something falls right into his lap. He takes the bundle back to his cabin and realizes it's a woman and his mate. Trev doesn't believe he deserves a mate and keeps pushing her away. Juliet knows about shifters but Trevrick doesn't know she does and he's afraid of scaring her. She gets kidnapped and Trevrick finally goes to his father, the Alpha, and asks for help. Can he forgive himself and build a life with Juliet?

Wolves, humans, hidden treasure, and misunderstandings. Very sexy with a tough female and a wounded soul of a wolf. I just didn't care for when one thing ended with Juliet and then when it was Trev's turn he'd go through what happened again. I know it was both their versions but I thought it was needless. The story was still very good.

Everything happens for a reason. Even tragedy. In Winter Takes All we learn how true this statement is.

I highly recommend this book.

A great continuation from the PDA 17 book (Between Ice and Frost), where we find out what happens to Raven's friend, Juliet. Gerri Wilder is at it again and knows just the right shifter to keep Juliet warm on those Alaskan nights. Tevrik Awulf is running from his past mistakes and in seclusion with only his guilt and loneliness to keep him company, when his mate literally falls into his lap!

I absolutely loved the chemistry between Juliet and Tevrik while she was healing in his cabin from the avalanche. I love how Tevrik was able to work through his past mistakes and heal from his past guilt. This was such a great PDA story! Great romance, suspense, adventure and a happy ending!

## **Phyllis says**

Winter Takes All is the 19th book in the Paranormal Dating Agency series. In this book we follow scientist Juliet, who we met in Between Ice & Frost, and wolf shifter Tevrik.

Juliet doesn't like hot weather or sunny beaches. She'd much prefer the colder climates, thank you. Which is why she always volunteers for the Alaska trip when her job needs someone to take some readings there. She's pretty much forgotten about her accidental meeting with Gerri Wilder. Just because the woman found mates for Juliet's best friend doesn't mean there's a shifter mate out there for her. She really wasn't expecting what she found on the mountain while she was there, though.

Tevrik has been in a self-imposed exile from his pack since a tragedy had him running 15 years ago. Even after all this time he still hasn't forgiven himself & some of the clan he runs into let him know that they haven't forgotten either. He certainly doesn't deserve a mate & doesn't believe the matchmaker when she says his mate will drop into his lap. But he gets a surprise when he hears the avalanche roaring over head while he's in his favorite thinking spot underground.

I've haven't had any of the PDA books disappoint me so far & this book is no exception. The main characters are interesting. While Tevrik is a little depressing at first, you can see the changes in him as he gets to know Juliet. The supporting cast is small but effective. They do their job without taking the spotlight from the main characters and the villains are satisfyingly nasty while still be dumb enough to be entertaining. All in all this is another fine addition to one of my favorite series.

Once again Gerri is back with her match making magic to make another doubtful shifter their happily ever after.

Winter Takes All takes us back to the Tundra of Alaska to see what heats up!!

## **Jessica says**

I have to say, Winter Takes All is my FAVORITE of the PDA books so far. In a different twist, there is actually turmoil on the shifter side in this book. Tevrik, an arctic white wolf shifter, is the true mate to Juliet, a human geologist studying snow levels in Alaska. They have both had contact with, directly and indirectly, Gerri Wilder, and she once again knows exactly what they both need. They meet as a result of an avalanche, and Tevrik is tasked with caring for Juliet. Hijinks and swoon-worthy moments ensue, but the build up is so different than other PDA books. Usually, the shifter accepts things immediately and sexy times ensue quickly. However, without revealing too much and spoiling the fun, Tevrik is resistant to the relationship. I found it so compelling to see that twist in the traditional (wow...that's crazy to say in regards to a shifter romance) setup, and was fascinated by Tevrik. I was rooting for them the entire time, and was enjoying the slow burn to their eventual physical relationship. Though this novel had considerably less sexy time than Taiden's other books, it was sweet and refreshing, and absolutely worth it.

## **Nikki Brooks says**

Tevrik left his pack behind after he felt responsible for the death of a younger packmate. Now he lives...well lives in the back end of nowhere, Alaska! But he can live off the land and even has a cool as anything greenhouse! He might be a bit lonely but when a female literally falls into his lap he takes care of her, but can he resist the fact that she is his mate?

Juliet takes on another assignment in Alaska. She loves the cold, arctic weather. She is carrying out a snow survey when she finds a cache of hidden gold. But when she falls through a hole and into the arms of Tevrik she is a little lost for words. Didn't Gerri say something about falling into "his lap"? She manages to get kidnapped again (she has my kinda luck!) but Tevrik is not going to let anything happen to Juliet.

Great story and loved the way he and his pack come together again!
