**Save 65% off the cover price by purchasing this story as part of *Zombie Fairy Tales: The Complete Series* ([amazon.com/dp/B00HAVWJFQ](http://amazon.com/dp/B00HAVWJFQ)).**

Cinderella returns to continue her bloody revenge. While at the Ball, she reunites with her evil stepsisters, and discovers that the Prince has some secrets of his own that are far from charming.

*Print Length: 39 pages, or 10,100 words.*

**NOTE:** This title is a direct sequel to ***Zombie Cinderella (Zombie Fairy Tales #1)*** . It is strongly recommended that these two be read in order.

## **About Zombie Fairy Tales:**

*Zombie Cinderella II* is the sixth in a series of short stories set in a dark fairy tale universe plagued by zombies. Surreal and full of black humor, installments feature familiar childhood characters as they encounter a world of stark violence and horror—Cinderella is worked to death before the ball, Pinocchio is made from children's corpses, and Little Red Riding Hood finds more than wolves in the forest.

The series features overlapping elements, characters, and places for a more immersive experience for the dedicated fan, but most can also be read as stand-alone entries in any order. Get infected now.

## From Reader Review Zombie Cinderella II: The Ball for online ebook

### Jenni says

This is probably one of the goriest zombie series I have ever read. I love it. I'm a very big fan of classic fairy tales and zombies. It's like a dream (nightmare?) come true for me!

---

This was one twisted short story! Oh my god, I was not expecting any of this! I knew shit was going to go down when Cinderella was on her way to the ball, I mean look at her, but damn!

I decided to go into this blind, not taking the time to even read the summary because it's the continuation of Zombie Cinderella so I had the gist of where things were leading. But y'all I was not expecting the twist on Prince Charming. His father is livid, tired of hosting ball after ball, all in finding his son a wife. The reason for all these balls had me sitting on the edge of my seat! An absolutely brilliant twist!

If you love horror, zombies, and absolutely twisted stories then this story is for you. But you must read Zombie Cinderella first but I promise it's just as great as this one! Or if you just love watching evil stepsisters getting their just desserts then this is definitely a read for you! 5 Bloody Hand-prints!

---

### Richard says

I have enjoyed all of the books that I have read in this series. The premise is simple. Take a story which is familiar and zombie it up a bit. The clever bit is how the various books in the series have been made to interlock so that events in one book have effects elsewhere, or are part of the broader narrative.

The Zombie Cinderella II story picks up just before the first book finishes. The ugly sisters leave for the ball, bidding their mother goodnight.

The Prince, it transpires is a murderous psychopath who has been married multiple times, but keeps on killing his wives just after the wedding. His father decides he must desist, and tells the Prince this will be the last ball. The Prince decides to go out on a high, and has all the exits blocked, charging the palace guards with locking the entrance once the guests have arrived.

Unfortunately for the Prince, the country is in the grips of a zombie apocalypse and while he gets to indulge in slaughter of his own, a horde are closing in, biting anyone they can reach.

The climax of the book is suitably bloody, as it is with the other books in this series.

The only minor gripe I would have with the series is that if you buy the books individually the cost is quite high. Buying them as a series would have made more sense, but this is an observation in hindsight.

---

### **Monica says**

The zombie plague is running amok amongst the kingdom, but the Prince wants to hold another ball so he can find his 13th wife. He decides to invite all the maidens, except servants, to his ball. Prior to the ball, the step-sisters kill Cinderella. What will happen to the ball now?

A quick paced, somewhat action packed, humor laced narrative drives darkly motivated characters. While there is much violence and questionable intentions, the humor allows forgiveness of some characters and malicious hopes for others.

Overall, a delightful read.

---

### **Madi Kerr says**

I couldn't put this book down just because I wanted to know who would die next! If you don't have strong stomach I probably would not read these books; but on the other hand the writer of Zombie Cinderella knows how to write because it felt like I was there!!

---

### **Donna says**

This second part of the story deals with the ball, and there are also appearances from Pinocchio, Hansel and Gretel and the other children (during which we learn it was the stepsisters who were in the siblings way at the hanging of Gepetto). Whilst extremely grizzly, I do like this story, as it's a real good-triumphing-over-evil story... I think?

As someone who's not really into zombies, I wasn't sure I would enjoy these stories, but as a free boxset (it was on offer when I bought it), I thought it was worth a look as I do love fairytales, and I wasn't disappointed. They are both very different from, and yet contain very clear nods to the originals. All have zombie plague themes running through them, and you need to read through them in the boxset order as there are references to the earlier stories in the later ones. These are definitely not for children, as they are very violent and often disturbing stories, but if you like fairytale retellings and/or zombies, this is definitely a set of short stories for you!

---

### **Flora Smith says**

I received a free copy of this book for review.

This is the second part of the Zombie Cinderella story. As with the other Zombie Fairytales, this is a definite

twist on the Disney version. The step sisters have made it to the ball and Cinderella is right behind them. The Prince is an evil character in his own right, altho I will refrain from saying why and adding a spoiler. Other zombie characters from previous stories make an appearance along the way as well.

For all its goreyness there is a thread of humor woven throughout the story. There are places that you can't help but laugh despite the horrificness of what is going on. Its definitely an entertaining, delightfully wicked tale that has a sense of justice about it. All the bad guys get their due so to speak.

I recommend this to anyone over 18 (simply because of violence) who loves a good zombie tale and is looking for something a bit different.

---

### **Sonatajessica says**

Just as good as the first one. These Zombie fairly tales by Kevin Richey are fun, nicely gory and take the plot into interesting paths considering the short length that is quite an achievement. I am sure my paths and his stories will cross again.

You have to take these for what they are, entertaining bloody Zombie fests that turn their fairy tale roots tipsy turtle, and I am more than fine with that. They are a great diversion (if you like Zombies in dark fairy tales) and not just helped me make a flight fly by but additionally let me answer my husband to how I am enjoying my book with this line: "It was great. She just staked him, well, technically only his head, she paled his head. It was great!" What more could you possibly want from an entertaining story?

---

### **Donald Armfield says**

The story starts with the ugly sisters on their way to the ball.  
As we know Cinderella is on her way too.

The Prince is looking for his 13th....memorable monument. At his Ball that turns out to be a bloody orgy of rolling heads.

Heads off to Cinderella 2.

---

### **Karen says**

The prince is a little strange, in addition to the zombies. Good continuation of the Cinderella story. I enjoyed that the sisters got what they deserved!

---

### **Kayleigh D'Andilly says**

I'm a happy reader once again! I couldn't wait to read how Cinderella took her revenge on her stepsisters and to say the least it was inventive! But it was Prince Charming that stole the show in this tale. He was a true

Prince on the surface but behind the closed doors of the palace he was more of a monster than Cinderella! Lots of black humor in this one. A great end to the tale.

---

### **Crystal Withem says**

This was a great follow up to the first Zombie Cinderella. I love the fact that it didn't turn into a love story, but revenge and making someone pay for their crimes. It was a quick read, but I know I will read it again.

---

### **zapkode says**

{my thoughts} - This book was an amazing conclusion to the very first Zombie Cinderella. I enjoyed how it had also tied together some of the other characters that we had already met throughout the first five books. I enjoyed the description and the fact that it wasn't at all a happy ever after. This book helped to show that looks can be deceiving. It doesn't matter how well respected a person is meant to be, everyone has secrets and once those secrets are out, everything changes.

{reason for read

---

I love this Zombie Fairy Tales series!!!!!! I am totally addicted now and want more :D

---

### **Lynne Bridges says**

Really fantastic! I love this series! The only thing I didn't get was the prince. I think that his "strangeness" should have been more detailed.

Spoiler\*\*\*\*\*Seriously. He like to cut off heads? That's it? Why? Why women?\*\*\*\*\*Spoiler

But that is my only complaint. The revenge is sweet and sickly. I don't think he could have done a better job with the description and gory detail. The idea was perfect.
