Following World War II, little has changed in Berlin. The Swastika has been replaced by the Hammer and Sickle, and the soldiers by secret police, but a life of daily oppression and fear remains. Inspired by the teachings of Joseph Schumacher, an unlikely coalition forms to sneak six disabled young people over the Berlin Wall, out of Communist East Germany. Once begun, two possible fates await them: freedom or death.

I really loved this series. Jack Cavanaugh really knows his history. The books begin on the night the Berlin Wall was torn down and people were able to freely walk across the border. Then it starts to tell the story of a young pastor and his youth group in 1938 Germany, ending in Book 3 with the Berlin Wall again. The story is very well constructed, the characters are very real, and the events are believable.

Some people don't like this one out of the three, but I thought it was just as good. The only thing I didn't like was the time span that had occurred. I felt \*soooo horrible\* for Konrad. Like that ruined the whole book for me because I felt so bad for him I couldn't enjoy anything else. Tomcat is so awesome. He was definitely my favorite character and I laughed so hard at him. When I thought he died, I threw the book down and decided it wasn't worth finishing. Luckily I picked it up and learned he was still alive. That was a nasty plot trick Jack Cavanaugh!! ? Please don't torture me like that again. Anyways, has to be one of my favorite book series out there now.

Historical fiction set between 1961 and 1987 based on the sudden closing of the border between East Berlin and West Berlin during the Kennedy administration and reopened by demands from the Reagan administration. It is an excellent book about a rag tag group of individuals who work extremely hard to escape Communism. Hope you look it up and read it.

It is good, but not as good as the first 2 books in the series.

This was a good way to wrap up the series. There were situations that stretched credibility in a few places, but it's still a solid 4 stars. This final book did a fast forward from WWII to the early 1960s and we learned what became of the Hadamar children, Lisette, and Mady. When the Berlin Wall went up, their lives altered drastically once again. Three people return from the dead in this book, one I expected but the other two I did not. It added some twists and turns along the way. I love a series ending that wraps up both the plot lines and the character arcs. This one certainly does that! A series very worth reading, one I highly recommend.

You know those books that when you finish them you just sit there and think "wow"? And then you hug the book to your chest and just never put it down? Of course, when a books it that good there were several times while you were reading it where you screamed in frustration.

That's how this book was for me. It is the final book in the "Songs in the Night" series, and absolutely my favorite of the three! I honestly had no idea how the author would wrap it all up! So many different twists and turns and oh my goodness! (view spoiler)

I was so happy to see how everything worked out between Konrad and Lissette. I was like \*finally\*!!! That was a long time in coming. ;)

Now I cannot wait to get my hands on another book by Jack Cavanough! I absolutely love his writing. :)
