READ READ READ Did I mention to read? Amazing second book, everything that goes on in Fearless is mind blowing. Can't give too much away without spoiling it but TONS of changes happen ;)

[and also because I'm not too keen on the 'thing' between V and GT... (hide spoiler)]

I am so glad that I stumbled upon this series because I love it! I devoured this book in a span of hours, I didn't want it to end.

* slight spoiler alert *

BLAKE!!! That prologue tugged at my heartstrings.

I enjoyed the dynamics between Vera and GT, boy do they have chemistry. Their interactions in the previous book were fun to read, and it was nice to see how their relationship developed in Fearless. I found myself torn at times because I like both Blake and GT. As a reader I found it hard to choose sides, can you imagine Vera's turmoil! Vera's new role in their lives complicates things though.

In the second installment, we see how Vera's life altering decision to become a member of the Ablication has made it all but impossible to have a relationship with Blake, pushing her further away from him. Her old life with her father is gone as she lives her new life as Sarwin, a member of the Tucker family.

"This is the price you pay when you take a risk."

This book had its share of jaw dropping moments! For instance, the scene with Roman (did not expect that at all), and towards the end of the book the biggest of them all!!! I had to force myself to turn the page because I feared that the worst had happened to a beloved character.

On to the third installment! I wish I could pace myself, but I can't lol.
