Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online. Harry Potter and the Goblet of Fire is a 2005 fantasy adventure film, based on J. K. Rowling's novel of the same name. The film is the fourth installment in the Harry Potter film series, although 1492 Pictures decided to leave the series. The film was directed by Mike Newell and produced by David Heyman. The screenplay was penned by Steve Kloves. The film stars Daniel Radcliffe, Rupert Grint and Emma Watson as Harry Potter, Ron Weasley and Hermione Granger respectively. The film is set during the trio's fourth year at Hogwarts School of Witchcraft and Wizardry. A highly dangerous competition, the Triwizard Tournament, is being held at Hogwarts with only one student from each of the three competing schools selected to take part, but mystery occurs when the Goblet of Fire chooses Harry Potter as a fourth competitor. Filming began in early 2004 and the scenes of Hogwarts took place at the Leavesden Film Studios.

This "book", and every other single "book" done by VDM Verlag (owner of the Alphascript imprint) and these hack editors at VDM/Alphascript are clowns who should not be allowed anywhere near a computer. This "book", and every single other "book" done by these hacks are literally nothing but copied and pasted Wikipedia articles.

EVERY SINGLE BOOK DONE BY VDM AND ALPHASCRIP AND ALL OF VDM'S OTHER IMPRINTS ARE LITERALLY COPIED AND PASTED, and not checked for accuracy or formatted properly. It is a damn shame and disgrace that booksellers like Barnes and Noble, and Amazon, sell this crap for these idiots.

John McBrewster, Agnes Vandome, Frederic Miller, et. al. are editors in name only because all they do is copy and paste, no checking the text for accuracy or formatting it for printed form. These people are real LOSERS if they think their cypypasta make for a book worth buying.

Avoid anything and everything printed by VDM/Alphascript/Betascript/Fastbook/whatever else. You're better off reading Wikipedia on your own and not giving these clowns a single penny for the 'work' they do. Wikipedia was always meant to be a free source of information, not something for lazy idiots to try to profit off.

Guys, this isn't the real book by Rowling. Stop being blind. This is just a scandal from Miller copy-and-pasting Wikipedia articles.

Learn how to recognize scandals.

Harry Potter and the Goblet of Fire is another amazing book by J.K. Rowling. Harry goes through tremors and hard decisions, the killing of his friends and many other things.

This is a MUST-READ book, the 4th in the series, all my family love the film and my daughter says the book is phenomenal.
