From Reader Review Human Resource Management for online ebook

Ahmed Abdelrahem says

Wonderful book especially for new HRM field clerks. Carefully arranged and written in easy language. I can say it's a must-read for everybody interested in the HR field.

Jaspal says

the latest edition is perfect..

Sara Mahmoud says

I studied it while I was in collage. If you really want to have the Human Resources as your career, this book is a good start to you!

Kristina says

Typical text book

Azka says

introduction to human resource management

Tania says

The edition that I am reviewing is a Custom Edition, published in 2015. This text was required for my Human Resource Management college course, along with a Management Lab software package.

This is a very thorough text on the subject of HR Management. The text is well-balanced with text and visual aid, chapters are structured to be easy to read and to contain a great summary and plenty of exercises and case studies that cement the learning process. Margin notes call important topics to attention, and often contain quotes and dictionary definitions. Each topic is explored in depth, and there was sufficient information in the text to complete assignments and have discussions with the class. I really enjoyed all the real life case studies that were covered.

This is one of the better management texts that I've been assigned, and will be a good reference tool.

Kamroon Nahar says

read this book

Hao Zhang says

First HR book I've read and I really enjoy the concept of "HR thinking". super interesting and far different from other business disciplines.

LeAnn says

For school

Jennifer says

As far as textbooks go, this one was well laid out with a lot of good information. There are a lot of forms, examples, processes, etc. that will be very useful for my specific situation so this is actually a textbook that I will be keeping and making use of in the future.

Louliaa Sayyed says

nice to read it

Marawan Awad says

My top HR Management reference ...
Very practical ... and academic at the same time

Focus on the cases ... the best ever

Topics are awesome ... and very updated

I recommend this for HR managers ...

Muna says

"Every one fall under the umbrella of H R" i like this statment .

Faheem says

good

????? ?????? says

I think the book fits more as a manual. It is full with steps and tips. Yet, linking the HR concepts to their underlying theories and models in other scientific field was not very satisfying to me.
