## **Moves Like Jagger** Dakota Cassidy

*Moves Like Jagger*, the eagerly anticipated 4th book in the Wolf Mates series by *USA Today* bestselling paranormal romance author Dakota Cassidy, is here. Return to Cedar Glen with a laugh-out-loud cast of characters as Jagger the bear and Vivienne the cat come together to solve the mystery of who wants to turn Jagger into a bear rug! Love is in the air and danger is on the horizon in this holiday romp in the woods.

The weather outside is frightful, but the romance is so delightful in Cedar Glen!

Vivienne Ross is a cat shifter who's still learning about the ways of the paranormal. Adopted as an infant, she didn't know about her true lineage until much later in life.

Sometimes she finds herself in a bit of a mess as she works out the kinks.

Like looking out from the inside of a dog crate on her way to be spayed.

Naked.

EEK!

She meets Jagger Dubrov, hot bear-shifter and Cedar Glen's local mobile veterinarian, for the first time during a catch and release program. Jagger mistakenly catches Viv, and it's all-out fireworks at first sight.

As Viv and Jagger get to know their new town and each other over eggnog and mistletoe, a problem lurks. Someone wants Jagger dead, and they don't mind if they take Viv to the grave with him...

This holiday paranormal romance contains romantic comedy, shifters, and LOL Christmas fun.

#### THE REVIEW

##### Why this book?

I really liked the other books in the series

##### What I thought

Moves Like Jagger was my least favorite book of the series, but I still enjoyed it. Viv and Jaggers banter is priceless and they're just adorable together. Unlike the others this one had a mystery to solve. So it keeps you guessing throughout the book. Gotta to admit I missed the Adams family even though we got a little Max and JC. Overall it was a cute and entertaining read.

Love, intrigue, awesome animals, and shifters combine to make a very entertaining read!

### Josie says

As we move on to the other residents of Cedar Glen this is a nice way to go. I felt the surprise Viv felt...could have knocked me over with a feather. I didn't look at the cover of the book very closely or it probably wouldn't have been as big of a surprise.

### Lois Alston says

Good read. Some laughs but love wins the day.

Moves Like Jagger features Vivienne, who was introduced in the first Wolf Mates book, An American Werewolf in Hoboken (she's the heroine JC's best friend) and has just moved to Cedar Glen. She's snarky and charming and loves 90's boy bands. When she meets the hero Jagger, the town's new vet, they bond over their love of animals, which made me like them both a little more, and some odd but endearing banter.

The first half of the book is basically a whirlwind romance that keeps getting interrupted by Jagger's vet calls. I was surprised that it took the villain so long to show up, especially since this is a shorter book. (It comes in at just over a hundred pages, much like book three, Gotta Have Faith.) I knew right away who that villain was and more or less what they were up to, so there wasn't much mystery for me. However, it turns out that this is only part of Vivienne's story. The next book will follow her and another character as they search for the man who embezzled her family's fortune.

Moves Like Jagger was a fun story for me, if not a perfect one. I'm not normally one to go out of my way to read seasonally appropriate books, but I really enjoyed reading about snow on the ground and characters hanging Christmas lights, especially since it's been unseasonably warm here lately. I love the town of Cedar Glen, a refuge for misfit shifters, and the eccentric characters that live there. I'm looking forward to checking in on them all again in the future.

I also think you could pick up this book if you're looking for a holiday rom-com, even if you haven't read the earlier books in the series. Everything you need to know going in about the town and the characters is explained. Some of the previous couples appear and others are mentioned, but it's not especially spoilery.

Review originally published at Goldilox and the Three Weres and based on a copy provided by the author.

Setting: Cedar Glen, NJ (fictional town populated by paranormal beings) , contemporary

Genre: paranormal rom-com

I love it! I was so afraid DC was finished in in Cedar Glen after #3, and I am so glad I was wrong! Vivienne Hathaway is best friends with JC, the heroine of the first book in the series, An American Werewolf in Hoboken. Viv has moved to Cedar Glen after being swindled out of her trust fund. With no employment history, but having a love for animals, she ends up working for Jagger, the new vet in town. She's beautiful, he's gorgeous, and the attraction leads to some funny situations and laugh-our-loud dialogue. Then pets and bunnies start dying, and it is up to the veterinary duo to look into the mystery. The book has characters from previous books, but no one takes the spotlight off the h/H. It is nice though, to "see" them again.

I have read some established writers in ebook, formbut mostly I have been reading a lot of self-published books from KindleUnlimited. Some of these ebooks are quite good and others so bad I wanted to weep before (figuratively) throwing my kindle across the room. Needless to say, it is so refreshing to read such an enjoyable book. I find the grammar and usage very good, the plot is amusing, and I love these characters. I can't give it a perfect 5 stars due to a couple of issues some people won't even notice. I'll give it, however, a strong 4.5 stars rating.

This is the fourth book in the Wolf Mates series and I loved reading this! This is a highly entertaining and at times hilarious read that kept my interest the entire time. I've absolutely loved everything I've read by this author so far and the same holds true here! I immediately loved Vivienne and this girl's got spunk! The situations she found herself in at times left me speechless and at others had me laughing until tears ran down my face. The chemistry between her and Jagger was smoking hot and I couldn't get enough of these two! I am definitely looking forward to much more from this author in the future and I highly recommend this to anyone. I received a copy of this book in exchange for an honest review

I love this one! Vivienne is sassy as they come and she gives as good as she gets. Dakota has a way of making her female characters seems like every girl and someone that you could truly like. This story is still set in Cedar Glen and the all the characters are still there. I won't give any spoilers but this one was a fun read!
