## Paranormal Transmissions 1: 1: Push Bella Roccaforte

Supernatural meets X-Files on battery acid! You are about to embark on the first episode of a novel-length serial--guaranteed cliffhanger-free--encompassing approximately 22,000 words of thrilling paranormal suspense (with a hefty side of humor). Buckle up and get ready to fly! In Episode I: Carl and McNab are paranormal investigators. Carl, a man of principle, has the best of intentions. His job is to keep paranormal beings under cover and out of mischief. McNab--young, impetuous, devil-may-care--will add his talents to Carl's effort...as long as he gets paid. McNab has a lot to learn--and a lot of growing up to do. But he does come up with a great idea to finance Carl's exploits--a weekly reality program showcasing paranormal phenomena. To the delight of their cable TV audience, McNab and Carl wade through the seamy, murky waters of the Underside world, helping those in need, saving the blissfully unaware from the ravages of evil, and attempting to redeem their own mistakes--all without causing widespread panic! In this first episode we join our heroes in the desert of Mexico trying to bury the body of a chupacabre--and McNab learns his lesson the hard way. After the chaos subsides, Carl notices some suspicious activity in a small North Carolina town--several suicides followed by an odd wave of philanthropy. Both investigators agree--all fingers point to a "pusher." But what they find catches them both off guard. Those readers familiar with Bella Roccaforte's INK: series will recognize Carl and McNab as favorite characters, but all readers will love their early exploits, which take place long before the INK: series begins. Come and find out what happened before McNab met Shay in Seattle!

I am a fan of Bella Roccaforte! She is quick with the swipe of the keyboard and her wit and charm exudes through her writings. This is not the first book I have read from her. I have read the first book of the Ink series and the remainder is on my TBR. Her writing style fascinates me and it continues to shine in her spinoff.

The world for Paranormal Transmission: Push is set in the same world as the Ink series but it's Pre-Shay so you can feel free to read these before you jump into the Ink Fine Lines.

Her character development is sharp, is done with precision and is consistent. I tend to look for changes or personality deviations especially when the book is paranormal in nature AND when the book/novella is a spinoff. Nope not a speck of error here.

Carl and McNabb are a comedic male couple (non romantic of course) that sets the stage for future comedy magic. McNabb is immature but charming and will do anything lucrative in nature. Carl is Carl and I Like Him. There is something about him that I just plain adore.

I look forward to reading more of this fantastic serial series and I tip my Nerd Girl hat to you Bella!!

I could start by telling you how amazing this is, but I won't. I will tell you how intriguing, hilarious, chaotic, keep you on your toes, amazing this is. We are brought to the beginning where Carl is mentoring McNab. Carl always wants to help because it's the right thing to do, he wants to protect. McNab wants to help as long as he gets paid! In Episode 1 we find them in a crazy situation dealing with chupacabras. They then set off to investigate deaths that occurred in a small town that houses a children's sanctuary. The guys are met with resistance by the locals at first, but McNab lays on the charm with Miss Lila, who runs the sanctuary. We meet some special paranormal characters within the sanctuary. The kids are getting out of hand and we see the struggle between good and evil. Naturally the guys rush in to help. With their help more questions are raised and hard decisions are faced. One decision will hang with INK readers forever!

The author has a great way of writing Carl and McNab. These guys are constantly butting heads but will do anything for each other.

"So I will never forget how easy it is to darken my heart and set it aflame, I choose the name..."

As the Episode closes it will leave you on the edge of your seat waiting for more. Please read so you know who this quote is about! You must! Bella Roccaforte rocks!!!

If you like the Ink Series then you will love the Paranormal series. Takes you into more depth of McNab and Carl. What makes them, them. A real page turner very suspenseful as you never know what is going to happen next.

This novella is about Carl and McNab, pre Shay days. We met both Carl and McNab in Bella's INK series. I've always wondered about them and how they got started. So I'm very happy Bella is giving them their own series.

I wasn't expecting this book to be so funny. I have my ideas on what the horn-dog McNab is. I can't wait to read more of their adventures with the paranormal.

This was a great adventure, that's for sure. It isn't at all like the INK series (which you also MUST read!) Bella did an amazing job with this book!

So fun to learn some of McNab and Carl's history. A quick and enjoyable paranormal read. If you're a fan of the INK series, I highly recommend you read these short stories too.

The first installment in this series left me wanting, craving more. I will definitely read this entire series without a doubt. Serials are great because you don't have to wait forever for the next one! Quick, action packed reads that leave you searching for the release date for the next episode.

A great story involving Carl and McNab, two of my favorite characters from the Ink Series. This serial is one I've been eagerly awaiting. I can't wait to see what challenges these two go up against in the next episode. A well written, suspenseful and action packed story, definitely recommended to any fan of the genre. Read this one, you will not regret it! Five stars!!

By the way, if you haven't read the Ink Series now is the time! Get them all, everything! Bella Roccaforte is an extremely talented writer.

OK, what I love about Bella is that just when you think you have something figured out.....BAM! You don't.

This goes into the background of Carl and McNab, before they were "famous tv personalities" hosting a paranormal show. This is when they were still dirt poor, but getting by on their "paranormal talents".

After trying to find out what the deal was regarding an orphanage in a small town, they find out there's an "energy pusher" making people commit suicide. Well, don't go snooping around, huh?

I knew McNab was not your average "weirdo" when it came to his personality. He's...something paranormal and even feeds off of sexual energy. This is exceptionally unusual since the fae he encounters almost has no control, and it's usually the fae that do the controlling when it comes to pheromones, sex, etc.

While they do manage to save someone important, there are some casualties. One of them being McNab's ego when he encounters a woman named Rook who holds her own against his "suave personality". I love when guys like that get their asses handed to them. After all, if boys will be boys, girls will be girls ;)

Something tells me we haven't seen the last of Rook, and I'm looking forward to the new life that (former) Chuck, now Pitch, will lead...

I loved this book. Wow, I could not put it down. It moved along at a great pace, has amazing characters and a fantastic story. This has to be on your TBR list, there is no doubt about it. You will not be sorry that you read this.

## **Amanda Rambusch says**

McNab and Carl what a team lol. I love the details about them makes Deadly Dreams stand out even more in mind. Ha ha particularly since you don't touch McNab.

## **Heidi says**

How do you take a spin off series and make it truly remarkable? Bella has managed just that.

Carl and McNab are two crazy, hilarious, and mysterious characters. McNab is young, wild, and eager to show himself off. While Carl is wise, patient and intelligent. Oil and water. When you put them together crazy antics follow.

The author has the gift of seamlessly merging humor into a normally dark story. The plot is fast paced and full of hidden gems. We meet lots of unique characters. Most hold a paranormal ability however not all are disclosed.

After reading this book I was dying for more. I couldn't even fathom the end of this book. It has such a shocking end. It leaves you with a need for the second episode, just to find out if you really read the ending right. I see huge things comming from this serial.

OK, so we all know that sometimes, spin offs just, well, suck. I mean, was "Joey" ever as good as "Friends"? No. It wasn't. So when one of my fave authors announced this release, I was ... nervous. I should have known better.

Paranormal Transmissions is set in the same world as INK, and has 2 of the same characters, but apart from being written by the same author, that is where the similarities end. Yes, there is darkness and intrigue, but there is humour too. It's not distracting, but it works with the plot line and the characters.

And if you want answers which you haven't got from the INK series so far, well, some of em (about McNab and Carl at least) are laid to rest in this book. Of course, it wouldn't be a Roccaforte novel if more questions weren't raised than answered, but this book is cliff hanger free, and a very entertaining read. I'm eagerly awaiting the next one.

I received an advance copy of this book in exchange for an honest review

This book had potential, but the editing was AWFUL! I mean terrible. I've read some shitty books in my day, but this one takes the cake. Plot = decent. Character = good. Editing = what a shitty joke. I highly doubt the author / publisher paid for this editing, but if they did, wow... get your money back.
