## **The Dex-Files** Karina Halle

The truth is out there...

The Dex-Files is a compilation novel that accompanies the Experiment in Terror Series and is not to be-read as a stand-alone. In the Dex-Files we find a variety of scenes and chapters from the enigmatic Dex Foray's POV from books #1-6 in the series. Some of these scenes have been previously published, albeit from Perry's POV, while other scenes are completely new.

In addition to it not being a stand-alone, the novel also contains some major spoilers and should be read only by those who have read all the published books in the series.

Book #1 - Darkhouse

\*Lighthouse Meeting  
\*Pie Scene  
\*Jenn and Dex

Book #2 - Red Fox

\*Bar Scene - extended  
\*Playing Nurse

Book #3 - Dead Sky Morning

\*Strippers  
\*Truth or Dare  
\*Tent Scene

Book #4 - Lying Season

\*The Big Question  
\*The Xmas Party

Book #5 - On Demon Wings

\*A Phone Call

Book #6 - Into the Hollow

\*Bailout

## From Reader Review The Dex-Files for online ebook

### Cristina says

Declan Foray is one sick messed up filbert. And yet, so much more complex than Mr. 50 Shades (the previous series I'd read). Seriously, I love the guy (Dex), and to get into his head was actually rather frightening, a bit sickening, and oh so heart-breaking! He has so much potential for greatness, if only he would get out of his own way!

I'm sure I have more to say, but I need to collect my thoughts.

Thoughts collected:

The Dex Files, as coined by Rebecca in "On Demon Wings," is precisely that. Imagine if you will, ala Rod Serling, a boy who has been touched by something amazing. Only in the grand scenario of nature versus nurture, we can totally see how nurture plays a big part in how he is the way he is. From the time he was in his single digits, to a peek into how he's dealing in the future of "In the Hollow," the life of Declan Foray is nothing short of a roller coaster. And he has Perry to thank for some of that. What we could only speculate (along with Perry) in the previous novels, we can now see. I found most of it not surprising. As much as he had tried to hide, there was just enough clues to virtually expose him.

Perhaps the more interesting reveals are the teasers around Maximus. There's a guy who certainly isn't saying something.

Anyways, short end of the stick. I loved being in Dex's mind. In so many ways I just want to wrap my arms around him, pull him to my chest and tell him it will all be ok. I'm on his team, and I want him to be with Perry. Cuz I certainly don't want his crazy nut of baggage mucking up my days! I love you, but at a distance.

Go forth and love him as I love him. Or not. But don't be afraid to take his mind trip.

---

### Sharon ☺ is an emotional book junkie ☺ says

The Dex-Files is made up of various scenes from Dex's POV. Some are new and some are retold but all are very, very good!

By this point, you should have a good idea of how Dex operates but getting into his mind is a whole 'nother matter. Of course, I love finding out his feelings from the get-go...the scene with Jenn when he first comes back from being with Perry is so poignant!

The best scene is The Big Question....I had no idea how important that was....well, I had a sense but it was so much better reading what Dex thought.

His childhood was a killer though...it was really hard reading how he was treated as a child. I did enjoy the interesting information about his nanny and I hope there's more about what happened with his Mom and that

we get an update about Michael.

I really didn't care for the Abby scenes...blah. 'Nuff said.

I won't rehash each scene...just read it and enjoy it. If you've been a little unsure about Dex, these stories should help you as they did me. At least you will learn how he felt and why he did some of the things he did.

Favorite quotes:

♥ "Little Miss Doe Eyes."

♥ "She was mine. For the sake of appearances, she was my wife, but she was mine anyway. She didn't know it yet, but I did. It was wrong and it made no sense, but she belonged with me. No one else, not any-one else."

---

### **Lucia says**

I've got to tell you guys, to finally be able to be in Dex's head was incredible experience. I love all books in Experiment in Terror series so much, but to relive all the most significant events in Dex life together with him was something special. And I was absolutely content with the choice of moments that were written in Dex's point of view. The Dex-Files is pure awesomeness!!! It was all amazingly beautiful and I could not get enough!!!

Some of his thoughts were shocking, some of them helped me to understand his thinking, some made me sad and heartbroken for him. Moreover, his thoughts were definitely very interesting, sometimes even perverted :)

*"My God, she had one hell of an ass. Not too big that your dick would get lost but just big enough to get a good, meaty hold and squeeze and smack and come until the cows came home."*

It was also visible how hars Dex was on himself, never allowing himself to be trully happy.

*"My heart did a little flip. Christ, this was not a good idea. My heart of all hearts did not need to be flipping."*

And his ever present sarcasm made an appearance too.

*"I wonder if the owners would mind if I murdered someone in their front yard. He was so full of shit, he'd make fantastic fertilizer for their garden."*

**Dex is the most complex character ever created and I love him so much. I really liked him in previous books and was fascinated by him but he won over my heart completely with his side of story and he is**

**on the top of the list of my all time favourite male characters!**

---

**LZ says**

**“A Dex sample, totally free. She didn’t have to buy the thing, but she did. I’m a good product.”**

**Yes Dex, YES YOU ARE.**

Only Dex could make this level of conceitedness attractive....Just when I thought my new found love for him hit it's limit...I read this and damn....

**“I was tear my fucking heart out and throw it at her, beg her to take it into hers. I was falling from the greatest heights with no safety net below. I was giving everything of my own life for hers, giving up every inch of my soul so she could wear it proudly. I was a former king on my knees in front of the queen. A jester begging for a chance.”**

I just love how every novel...novella...teaser...hint...morsel... EVERY SINGLE BIT we get from Dex and Perry's story is essential and necessary to the magical puzzle that is Experiment In Terror...**The fun just doesn't stop!**

---

**Duchess Nicole says**

Life just doesn't get any better than this. I just spent an hour and a half inside Dex's head...Yes I did!!!

This compilation of short scenes is mostly a retelling of things that Perry and Dex have been through together, only from Dex' point of view instead of Perry's.

What I LOOOOVE so much about this is that we get to see just how often...and just *what* he thinks of her. Let me tell you folks...it's EXACTLY what we wanted and needed from they mysterious Dex Foray. Just like most women, Perry sees herself as much less both physically and mentally than what Dex sees. Where Perry sees extra fat and a frumpy, tubby body...Dex sees that fine ass...nice and round, accompanied by generous boobs that he continually salivates over. It's actually quite comical how lustful Dex is. He's a typical male, that's for sure. But we never really saw that side of him, aside from the memorable "Are you looking at my ass" scene :(:(

But Dex doesn't just see the physical in Perry. He admires her even more for who she is. He feels proprietary with her from the beginning. Red Fox is where it all started.

“She was mine. For the sake of appearances, she was my wife, but she was mine anyway. She

didn't know it yet, but I did. It was wrong and it made no sense, but she belonged with me. No one else, not anyone else."

And it only gets better. I was actually really surprised at how tender Dex's thoughts could be at times. Now, don't get me wrong...Dex' mind is a pervy place to be!!

““The Dex Foray special involves two lubed fingers, a lot of tongue and a cigarette for afterwards.”

Gotta love our Dex!

---

### **Holly says**

**I honestly thought it was impossible for me to love the snarky, complicated asshat that is Dex Foray any more than I already did. And then I read this novella, and realized how wrong I was.**

Holy...smokes.

Now, it will come as no surprise to anyone who has been following my updates and reviews lately to know that am a **HUGE** fan of the EIT series. So, my expectations going into this novella were high to begin with. But once again, Karina Halle blew all my expectations out of the water.

#### **Warning: SOME SPOILERS AHEAD.**

Dex has been a mystery to fans of the series from the beginning, so having the chance to get a peek inside that twisted, pervy head of his?! Sooo damn gratifying. Getting to see his take on some of the key scenes from the series to date was eye-opening to say the least. For example, finding out that Dex was already having feelings for Perry before the end of their first adventure...made my inner Dex/Perry-shipping fangirl want to do wind sprints around the yard.

Of course getting a glimpse inside Dex's head was eye-opening for many reasons. Least of which was seeing just how much of a pervy weirdo he really is. And I will stand here and proclaim for all the world to hear: *I APPROVE!!! :P*

***"I wondered if she'd let me grab her thick, dark mane and hold it like a pair of reins, if i could make her come with my girth alone or if I'd need to reach down and stroke her until she literally dripped on the carpet."***

Um...yeah. I will freely admit I thought that entire chapter, *Big Dumb Sex* would put me in my grave. I will never listen to that Soundgarden song the same way again, let me tell you! But despite my hormonal overload while reading certain parts of this novella, the main thing I truly loved about *The Dex Files* was getting to see not only how vulnerable and conflicted Dex was most of the time...but how fiercely protective and loyal he was with Perry right from the beginning. Even when he seemed cold and pushing her away, he was struggling with his feelings for her, and the need to protect himself from letting his guard down and ending up with his heart being ripped apart again.

*There was something so vulnerable and restrained about Perry, something that made me want to do stupid, ridiculous things to keep her safe. At the same time, I wanted to draw her out and make her strong, like a diamond from coal.*

*Without even realizing it, I found myself gazing deep into those blue eyes, totally fucking lost in them. My heart did a little flip. Christ, this was not a good idea. My heart of all hearts did not need to be flipping.*

Okay. I know what you're thinking; I need to get a hold of myself here. Every time I write a review for one of the books in this series I come off sounding like some smitten fangirl. Well...that's because I AM a smitten fangirl. My love for this series and these characters is ridiculous. And that kind of makes it impossible for me to sound professional when writing about them. So, if that's wrong...so be it!!

So, I will continue to pimp these books out to my friends, and anyone willing to listen. Because they deserve a bigger audience.

Karina Halle is a badass force to be reckoned with, and I am so effing glad I allowed myself to get sucked into this incredible series that has been consuming my life for the last few weeks.

*She was mine. For the sake of appearances, she was my wife, but she was mine anyway. She didn't know it yet, but I did. It was wrong and it made no sense, but she belonged with me. No one else, not anyone else.*

---

### **Jo ★The Book Sloth★ says**

Let me start by saying that if someone(me mostly) hoped that by reading his story I would suddenly love Dex, they were wrong! Aside from an asshole I now think of him as a coward too!

Dex is like...

And I am like...

Now that I got that out of my system...

**\*\*\*SPOILERS\*\*\***

*My name is Dex Foray and I'm a hypocrite. Proud of it, too.*

*In this book we get to see how the infamous Dex thinks. We get to see his POV of some parts of the story we have already read from Perry's POV, as well as some scenes that don't involve Perry so they are completely new to us.*

I'd like to say here that although I still don't like Dex I kind of get why he does certain stuff. It is also quite refreshing to finally see exactly how he feels about Perry!

*"I was head over heels in love with her. No, that didn't describe it. I was tear my fucking heart out and throw it at her, beg her to take it into hers. I was falling from the greatest heights with no safety net below. I was giving everything of my own life for hers, giving up every inch of my soul so she could wear it proudly. I was a former king on my knees in front of the queen. A jester begging for a chance. I was powerless, helpless and at her mercy."*

Of course how does he show it? He breaks her heart.

There were moments in the story that I really wanted to cry on his behalf (although I did take a cruel kind of satisfaction from the fact that he suffered as much as Perry), there were moments that I wanted to forgive him everything (especially when I read about his mother), there were moments I thought I should give him another chance! But then I remembered how much I love Perry and how much I wanted to hug her in the previous books every time Dex hurt her and I got over my "pity Dex" moments.

So what I have to say is...

**If you completely lose Perry in the end...**

PS. I have to admit that there in the end he made me cave in a little. If in the next book he behaves I might be inclined to like him(just a tiny bit), so I will let Snape say everything else for me...

---

**Georgia ♥ Team Dex ♥ says**

**★STARS★STARS★STARS★STARS★STARS★STARS★STARS★**

*ATTENTION: You are about to enter the crazy-ass world that is Dex Foray's mind. Prepare for the ride of your life...*

***My name is Dex Foray and I'm a hypocrite. Proud of it, too.***

The highly anticipated novella in the **Experiment In Terror** series from Dex' POV, absolutely freaking delivers everything we hoped.

Heartbreaking,

***I was head over heels in love with her. No, that didn't describe it. I was tear my fucking heart out and throw it at her, beg her to take it into hers. I was falling from the greatest heights with no safety net below. I was giving everything of my own life for hers, giving up every inch of my soul so she could wear it proudly. I was a former king on my knees in front of the queen. A jester begging for a chance. I was powerless, helpless and at her mercy.***

funny,

***It sounded like a cat being raped by a sad monkey; pained, terrified and sad.***

snarky and sarcastic,

***I liked staring into her eyes as much as I liked staring at her boobs.***

painful and embarrassing, ridiculous, sexy and impossibly romantic.

***She was mine. For the sake of appearances, she was my wife, but she was mine anyway. She didn't know it yet, but I did. It was wrong and it made no sense, but she belonged with me. No one else, not any-one else.***

Sweet mother of God... I'm completely in love!!!

This book sheds a whole new light in the series, completes its mythology, answers questions, teases us mercilessly and completely breaks our heart with the truth about Dex' past.

Being in his mind is thrilling and exciting. We can finally understand his motives and actions and you can't help but fall for him. Harder...

And when it is finally revealed, what really happen in Lying Season... OMG!! \*explosion\*

Karina Halle adapts her lyrical style of writing to fit the alpha male mentality. Blunt and crude, it's like Dex' baritone caresses your ears.

If the Old Blood novella, committed the readers to this series, The Dex-Files solidifies our love affair with these books. A treat and a gift to all of us fans.

**A million times THANK YOU!!**

---

**?★Tinja★★ A Court of Pizza and Laziness says**

Ohh Dex <3

---

**Debra says**

**★★★ENDLESS AMOUNT OF STARS★★★**

*"I had to rely on my good looks and goddamn charm."*

I honestly didn't think it was possible for me to love Dex even more but it turns out I was wrong, so wrong. Yes, he may be a pervy weirdo, he may be selfish, hypocritical and rude at times but honestly, I don't care. Because he's also funny, sarcastic, sexy, sometimes even romantic and all I can say is, I LOVE HIM!!! Karina Halle has created a character that from now on, easily resides in my all-time favorite characters shelf and well, actually an entire series, that from now resides on the top of my all-time favorites series shelf.

*"My name is Dex Foray and I'm a hypocrite. Proud of it,too."*

In **The Dex Files** we finally get a glimpse of Dex' side of the story, told in his POV and it was absolutely FAN-TAS-TIC!

**Dex made me laugh...**

*"I was a gentleman over everything. An ass-appreciating gentleman. We are the finest kind of man. I should open my own ass-appreciating gentleman's club one day."*

**He made me swoon...**

*"She was mine. For the sake of appearances, she was my wife, but she was mine anyway. She didn't know it yet, but I did. It was wrong and it made no sense, but she belonged to me. No one else, not any-one else."*

**He broke my heart...**

*"I was head over heels in love with her. No, that didn't describe it. I was tear my fucking heart out and throw it at her, beg her to take it into hers. I was falling from the greatest heights with no safety net below. I was giving everything of my own life for hers, giving up every inch of my soul so she could wear it proudly. I was powerless, helpless and at her mercy.*

*And that was the one place I swore I'd never be again.  
To love was to hurt."*

**He even had some great life lessons to share...**

*"Listen, people, I don't care who you're playing with and how close to them you are but truth or dare is never a good idea.  
Ever."*

~~

*"It's like living with a gangrene foot. You know you need to just whack it off and you'll be healthier for it. But damn if you don't feel some sort of emptiness when your decaying foot is gone. You look at the end of your leg expecting to see it there in all black and rotting but there's just nothing but air now."* (when talking about his ex-girlfriend)

**Overall all I can say, is: Dex,**

Although he still remains a mystery at times, this novella has given us a great insight into the mind of the unique person that is Dex Foray. It has also provided us with a lot of essential background information and facts that make this series even more complete and enticing. And I know this review makes me look like a total fan girl but I can't help it...that is the effect this book and more precisely this character has on me...

**Although I am a bit sad now that the novella is over...**

**BUT luckily the series isn't over yet, so I'll be moving on to the next part right away !!!**

\*\*\*\*\*

---

**Kristalia says**

*And the Buddy Read continues with the one and only Vilda!!*

**Final rating: 5/5 stars**

**Wow... I am at loss for words.** Karina Halle is continuing with her quest of destroying my heart(along with the hearts of many other people) with her awesomeness, and she did it again when she wrote this. Dex and Perry are like an addiction. But being in Dex' head is like a drug - i just want more and more. His reality is not pretty, his life is and was wrong, his mind is a complete and utter mess - and seeing it all from his point of view was just devastating.

**Oh Dex....** I cannot even describe the ***feelings i have for him right now.*** Dex is definitely the most ***complicated hero that ever existed***. And i completely, and utterly, love him.

**He is not a perfect guy.** He made mistakes, he is different, and worst of all, he hurts people around him - sometimes without even realizing it. But Perry changed him, from book one to five, and he became someone else.

***“I wanted nothing but her, now and forever.”***

To read about his childhood in both Old Blood and The Dex-Files was devastating. It made me ***cry*** , it made me ***feel*** and it made me ***understand*** him ***completely***. Because this past haunts him and it makes him feel broken.

All he ever wanted was for someone to love him for being who he is....for being himself.. To be needed and to be loved. And Perry is the only person in his life who made him feel that way.

***“I need you,” she whispered.***

***That was a new one. It stirred up something strange and foreign in my chest. No one ever needed Dex Foray.***

***“You need me?” I asked, my throat feeling thick.***

---

***Overall*** , this novella was more than i hoped for. And now i need more :) Dex is amazing characters and this series is just fantastic. I can't wait to read the next installment in this series.

---

### **Jen says**

To be back in the world of Dex Foray again, was an absolute wonderful experience! I adore the self-centered, ego-filled, sexist, and lets not forget; pervy hunk of a man. Why do I adore him if he is all these irritating character traits you ask? Well, for starters the man has this way about him that just makes me laugh. His sense of humor is dry but hilarious, and I am forever entertained by anything and everything he says! Then there is the fact that he is a hottie, and if he likes you..then he will have your back if you need him. (providing he hasn't disappeared..just ask Perry who everytime gets in hot water with a ghost, seems to be constantly wondering where Dex has taken off to this time) Speaking of Perry, the way Dex cares for her melts my heart every time. They say that "man-whores" when they fall for their woman, end up the best boyfriends/husbands to have because they fall hard and they are loyal for life. In Dex's case, I am hoping that this is true, because after all is said and done; I am really hoping that he and Perry end up together forever.

This novella was awesome! I loved the fact that it wasn't just a repeat of scenes from the other books. We get Dex's POV in all of the major scenes throughout the series that dealt with him and Perry. This includes the hot sex, and even what was going through his head when he bought that infamous lap dance for Perry that unforgettable night! It was nice to finally get inside of his head, and to know that his feelings for his partner do run deep. There was only one scene that wasn't included in this story, and I would have liked to have known what Dex was thinking and feeling when he discovered what had happened to Perry right before she became possessed. That would be my only complaint, but I still enjoyed every minute of this novella. (mind you, I could have done without hearing about him and Jenn "doing it")

This is a must read if you are a lover of the EIT series. I would recommend that this is read after the first five books, as there is a lot the reader just wouldn't understand if they havent read prior books. I still say that Karina Halle is brilliant, and I love all of her work. I look forward to anything that she writes in the future, and I can't wait to continue on my journey of the EIT series..This series is a must read for any book lover out there, it is an experience you won't ever forget!

---

### **AJ says**

**GAH! THIS BOOK IS PURE AND ABSOLUTE, DEX FORAY PERFECTION!!!**

Is there anything better than a book written in the long-awaited POV of one of your favourite characters?... probably... but probably not much! Being inside of Dex's head is a dark, dirty, nasty, smutty place to be. And I loved every minute of it!! And with a start like this - *"Hey Dex. Way to fuck my girlfriend, you dick!"* - I knew I was on to a winner!

Dex Foray is a complex, fucked up, arrogant yet vulnerable guy. He knows it, and he makes no apologies for it.

*"With one hand she popped the button on my pants. She dropped to her knees. I got hard instantly, knowing what was coming next.*  
*Me."*

I have loved Dex from the very beginning of the Experiment in Terror series, and as frustrated as I have sometimes been with him while reading, I've been tempted sooooo many times to sneak a peak at this book to see WTF is going through his head, but I'm so, so glad that I waited and read it in the order that Karina Halle intended. It all ties together beautifully, and would have ruined earlier books in the series if I had Dex's POV before now. So heed my warning if you're intended to cheat and peek ahead!!!

And with this novella it's like Karina took almost every scene that I have loved and hated the most, the ones where I needed to know what was going through Dex's mind, and given them to me, from his POV, all wrapped up in his snarky, sarcastic vulnerability, in one little book of absolute perfection. And with the inclusion of a bit of his backstory before he even met Perry, I feel like I ACTUALLY UNDERSTAND HIM NOW!! All of it! All of the questions that I had, the times I hated the things he said and did... I understand his motivations, why he behaved like he did, and I have a whole new level of love and admiration for him now - even though my heart absolutely broke for him.

While I thought I knew his feelings towards Perry, finding out the depth of his emotion, and when it all started to happen for him really surprised me. I'm not going to give spoilers, but let me just tell you this book rocked my understanding of what I thought was going on. Some of my expectations and interpretations have been turned on their head a bit, but I love it! And I wouldn't have thought he had it in him, but OMG, so much SWOOOOOOOOON!!!!

*"She was mine. For the sake of appearances, she was my wife, but she was mine anyway. She didn't know it yet, but I did. It was wrong and it made no sense, but she belonged with me. No one else, not anyone else."*

But Dex is still very much Dex, and he's freaking hilarious! I was in hysterics so many times reading this book with so many classic Dex lines (see my quotes below). And even with everything he goes through, he still maintains this smooth, pervy, asshole-ish nature, yet he also has a beautifully caring and protective side to him, and it's a winning combination.

But this book is quite dark in places and is not always an easy read. Dex's background is truly tragic, and how this translates into his life as an adult is heartbreaking. The way he thinks about himself and why he acts as he does, all ties in to everything he has been through. And when you put this together with the things that he and Perry have been exposed to so far in the series, the way they have come to feel about each other, and how everything has played out up until this point... it's freaking BRUTAL! I honestly felt like I was the one going through it all while I read. And even knowing what was coming, it still tore my heart out.

But after the last book – On Demon Wings – and now the little glimpse beyond that ending that we were given at the end of this book, I feel like the series is taking a shift with Dex and Perry emerging from their

individual dark times tougher and stronger, and both are destined for better things (I hope!). With a few additional clues dropped into this book about bigger storylines in the series, I can't wait to see what is in store for them as their stories continue.

It made me laugh, it made me cry, there were moments of hotness and heaps of swoon... and of course it was all Dex. No way is 5 stars enough for all of the awesome that is this book, 6 stars all the way!

And just on a side note - my status as a Quote Whore has been well established amongst my friends and I know I'm probably going to be teased mercilessly for this lot, but I figured you can never have enough Dex quotes, so I totally don't care! I think I may have highlighted half of the book on my kindle, so consider yourselves lucky I reined it in ;)
