## **The Wolf (Shifter Book 1)** Cassie Hinojos

Karlie has known about shifters since her mother fell in love with one when she was three. Raised as the only human in a pack of shifter wolves Karlie is privy to a lot of information that normal humans don't have and can't wait for the day she turns eighteen when it was decided she would be turned into a shifter. When the soon-to-be Alpha of the other pack that lives in her town starts showing her more attention she doesn't think anything of it. But that's the least of her worries. Danger lurks around the corner and it'll be a surprise no one sees coming.

Plus a sneak peek at The Bear (also available on Kindle Unlimited)

**Dena says**

## **Lacking**

The plot and set up was good. The editing errors and the lack of creativity really bothered me. There was so much potential but it fell flat for me.

---

**Sara Barta says**

## **Great read!**

This book is a first novel for this author I believe and they did a great job! The story line was good and kept me interested, banter between the characters was funny. All in all - great job!

Yes there were a couple things that the author can work on. For instance: sometimes they gave too much detail or character movement sentences. But it was a great first novel and I cannot wait to read more!

This novel is a YA book (no dirty stuff) about shifters finding their mates. Characters are in high school and I like that the author kept it acceptable for their age. No drinking, no sleeping around

If you like YA shifter books you will enjoy this read!

---

**K says**

Short, cute little story, although there were quite a bit of editorial mistakes.

---

**Danielle Smith says**

## **Abrupt Ending**

The was good. I didn't know that it was ending until it was over. I thought there would be more.

---

**Lisa Book Shelf says**

## **Wolf mate**

She's a human living in a wolf pack and at 18 they meet there mate. But her mate is the next alpha in this romance

---

**Elisabeth says****So much potential and too much detail.**

I gave this book a two because there was so much more depth that the book could've gone into, sadly it didn't. As soon as I started reading the book I noticed a lot of detail that was unnecessary. For example describing what she did after school, like how many slices of pizza she ate and even to the point of describing the character charging her phone. Like I said this book could have gone more into depth with an interesting plot.

---

**Donna Langley says****Hmmm**

Hmmm was a little slow getting started a moved way to fast, to many I love yous lol a few misspelled words, no buggy there but started getting better I could get into characters seeing what they looked like and their personalities come to life! But it kept me reading so I'm gonna go read book 2

---

**Hannah Walker says**

This is a great book and I can not wait for the new Chapter in this wonderful world.

---

**Deborah king says****Can't put down**

This book will keep you going from one chapter to next sometimes the wording and spelling are not right makes you looking forward to next book
