As an avid reader and self described information junkie I am used to having to dig through books for a few golden nuggets or pearls of wisdom. With this book digging was not required. Every page from the beginning to the end was filled with powerful and life changing information. He poured his heart and wealth of knowledge in this book and left nothing out. I highly recommend for people of all ages. I do recommend especially for high school children. They could discover there purpose early on and can make better and more informed decision in regards to life and career. Highly recommend!

This book will make gears turn in your head! Tony Rogers Jr. ingeniously motivates and inspires people to make a positive change, while giving substance, purpose, and direction to their lives. The author brilliantly breaks down all the steps that one must take to become a true visionary! He explains that anyone (regardless of race, creed, or social status), can become a visionary. Also exemplified, is the concept that "fear strives to keep you small, to make you play it safe, or just be average." Therefore, this book really helps people to break free of the mental blocks and encumbrances which may inhibit them from becoming the very best they can be! — (Neil M Pine)

A tidy little book on turning a dream into a vision and acting on that vision. Don't mistake it's parsimony for lack of depth. Can easily be read in an afternoon, but the message will stick with you long after.

Lakecia McGraw says

"You don't need to be rich, famous, or a genius to be a visionary. Visionaries are common people with an uncommon desire to bring about change in the world." This statement alone gave me goosebumps and ignited a fuse inside of me that told me that I too can become a visionary and make a difference in the world. This book offers a practical guide to assist anyone with finding their purpose, helping you to understand the different components of vision, and an effective action plan to help you get started on your journey to fulfill your goals and bring your vision to fruition.

If you have a burning desire to share your unique gifts and talents with the world but you are unsure of how to get started, I highly recommend this book for you.

Alexandria Jones says

It's so motivating and inspiring to find an person that is not afraid to showcase their gift and WANT to share that gift with the world. As a writer myself that hopes her words help someone see the light within themselves and chose life over death, this book just gave me that BOOST that I NEEDED!

Tony states "how irreplaceable and valuable you are to the world. Being yourself is the best way to make a difference in the world" that statement alone defines a VISIONARY. He openly gives his personal experience and struggle with finding his own purpose and encourages everyone to pull out the visionary within yourself. He literally asks you the questions that you have been needing to answer if you are not too sure what your purpose is. You want a book that gives you some "pep in step" in your vision this book will give you that inspiration that you are missing and you will find in this book! Just like he also states "the world needs YOU"
