Cam is a firefighter wh has a secret and is still haunted by what happened to Quinn. When he meets Alex something in him wants to know her more. When someone threatens to expose his secret he must make a choice but when that person threatens Alex he knows what he must do. Really good story and the characters were likeable

### **Heart felt**

This is an amazing read. Claire Adams brought the characters to life and made it more of a real life scenario than I've read in a while. Alex turned a tragedy into something helpful and made a living off of it while still doing what he lived, being a firefighter, with the help of his best friend Leo. He'd been denying himself the luxury of moving on and getting past losing if fiance in the process though. Then he meets Alex, she's getting her nursing degree and interning at the hospital where his station takes their patients. At first he feels guilt for even thinking of moving on, then he begins to realize he needs to come clean to her and everyone else about his business. He never expected chaos to hit and his life be on the line because of a crazy psycho. These two go through a lot of ups and downs, but the questions remain...Will she accept him as he is? And will he make it through everything that happens? Read to find out...recommended for everyone!

I normally don't critique names but I disliked how sometimes Cam was called Cameron or Connor. Pick a name. It wasn't just him sometimes it was Victor or Vangel. If it wouldn't have stated their full names at the beginning I would have thought they were different people. I was really hoping Liz was not taking drugs but that someone was messing with her. I never felt like Victor justified his insane idea to treat Cam that way. I thought maybe it would come out that he stole Quinn away. Plus did the snobby girls become nurses. Cam was engaged before but she died 10 years before he met Alex at the hospital.

Gifted an ARC for an honest review.

This series by Claire Adams is a fast paced, quick read. Cam and Alex's developing relationship was interesting to see build, but they weren't characters with a lot of depth or compelling. It could have been more developed in some parts and less in others. I've read quite a few books by this author and have enjoyed them, but this was not one of my favorites.

Cameron is a firefighter who has a past that he wants to keep in the past.

Alex is a Nurse who works in the ER at Chicago General

When Cameron is brought in to the ER and sees Alex, there is an instant attraction between them and he wants to get to know her. With Cameron's past and secrets will they make it? Alex wants honesty with no secrets. Cameron has to decide which path he wants to take with Alex. This is where in order to not be a spoiler. This book has so many twist and turns I could not put the book down. This is a must read in my opinion

3.5 Stars!

I have never read any books by Claire Adams so I wasn't sure what to expect. I'm sorry to say I was disappointed. The concept of the story was good but the execution of it didn't work for me at all.

Alex Pierce is senior nursing student who is putting herself through school. Her best friend Liz is also doing the program with her. She and Liz are doing their internship at Chicago General. On their first day working in the ER Alex meets firefighter, Cam Connor. Their quick interaction didn't really help me with their connection. I just didn't feel their chemistry at that time.

Cam is a man with a tragic past and a secret fortune and Alex is an independent woman who loathes wealth. Alex and Liz find themselves entangled in a deadly plot, Alex is forced to rely on Cam for help, but what she finds out about his ability to help threatens to destroy the romance.

Parts of this book were interesting and enjoyable but other parts were confusing & it felt unfinished. It just didn't flow well and even though I hate books that are too "wordy" this one needed some more words to better explain pretty much everything.

4 stars. As one of my go to authors Claire Adams seldom disappoints and this was no exception. Cam is a firefighter who is dealing with a tragic past and a secret he is desperate to keep. Alex is a nursing student on an internship when they meet. What with dealing with her friend's odd behaviour accusations and life threatening situations it's a wonder they can make it. This was a fast paced story with good characterisation and plenty of action to make it a good read.

LOVED IT!

Cam the firefighter and Alex the nursing student...seems like such a cliché but, honestly, it was a really good story. Alex is a poor nursing student and, unknown to her, Cam is a billionaire from his successful security side business. An unpleasant childhood has made bitter memories for Alex and she has a hate for moneyed people. Cam has a bitter past too...his fiancée was killed in a fire ten years ago.

Their journey to an HEA is worth reading in this book!

Love Claire's Books especially this one. I can't begin to tell you I love her suspense in a romance. It's actually has a wonderful storyline with a nursing student dealing with real life drama and a firefighter who is torn between his firefighting career and a sideline business he started that has made him money. Thank you Claire for another Good Read!! I look forward to reading more from you. :-)

I received this book as an ARC in exchange for an honest review. I really enjoyed reading this book and getting to know both of the characters. Firemen are hot! Plus he's a billionaire, but no one knows. He's kept it a secret from his coworkers at the fire hall. He meets our wonderful nurse in training when bringing in a coworker to the hospital. Sparks fly from there. The chemistry is as hot as the fires he puts out. There are some great twists to Ms Adams book. Great book!

**Cool**

I wanted to say I read the first story and really liked it I love the characters . It was exciting to read about a firefighter that falls in love but he's also a billionaire on the side. The other stories in the set I have already read from the past and there really cool too I gave you a five star rating because you are a very good writer.
