Bijou Hunter

Bitch Slap Bijou Hunter

“I’m Cricket Wilburn. You’re charmed, I’m sure,” she says, and, yes, I am charmed. Hook, line, and sinker.

We meet in a stank-filled West Virginia honky-tonk. Cricket quickly wows me with her beauty and bitch slapping skills. I immediately wow her with my big dick and ability to use it.

But fate threatens to keep us apart.

Can a sweet-talking biker like me win the daughter of a junkyard dog like Angus Hayes? Or will Cricket bitch slap our chances at building a happily ever after?

Bitch Slap is the first book in the White Horse series. Containing sexual content, violent situations, and extreme profanity, this book is only appropriate for adult readers age 18+.

This book is about the daughter/step-daughter of the couple from Junkyard Dog and Poet (Felix from the Rawkfist MC Series).

BITCH SLAP by BIJOU HUNTER is a Christmas gift that comes to you in February! It is a wonderful romp down memory lane for anyone who read and loved Rawkfist and Junkyard Dog!! I loved both books and laughed my way through them and Bitch Slap was a total surprise. It is a marriage of love and laughter and Bitch Slap is their offspring! The wonderful thing is the love story of Cricket and Poet, and then the chance to visit with all the wacky but loving characters in the earlier books. If this is your first time reading this author don't worry, you won't need the history...it's a whole story on its own! The funniest lines I've ever read are in this book...

"Grabbing the dick of strange men in bars," Hayes says and looks to Candy. "This is how you raised her." "Only for the first nine years. After that, I thought you were raising her. Are you telling me you didn't?"

Cricket Wilburn is a woman who won't take crap from anyone, her step dad Angus Hayes taught her everything he knows about intimidating others. Stopping for a night in Rawkfist territory she hooks up with Poet for one night and one night only. Cricket doesn't do relationships but there is something about Poet that she likes. A surprise pregnancy has Cricket seeking out Poet again and he continues to surprise her. Poet doesn't plan on letting Cricket go now he just needs to convince her of that.

Loved it. I am thrilled that Cricket and Poet got their own story and you get all of your favorite characters in this book. Plenty of Angus and I thought the interactions with Justice's Grandpa were hilarious. Can't wait for the next book in this series.

3.75 stars

Different, harsh, funny and even sweet!

Cool heroine. She was furthest away from ~~doormat~~ typical CR heroine!
Sharp, but cool!

"You're making my girl dick so hard right now"

And he was a nice guy. Strong, funny, faithful and loyal.
I liked him a lot!

**"Yes, I always expected to find my perfect woman, but never in a million fucking years,
did I imagine she'd be anywhere as amazing as Cricket."**

Personal Review:

A fun romance between a smart-mouthed heroine and a loveable hero

Random Ramblings:

- Loving the names
- That first interaction...

- I am liking this girl
- Oooooooooohhhhhh...she's THAT girl. Can't believe it took me this long to remember she was the daughter of Candy from 'Junkyard Dog'
- Her conversation with Hayes make me cringe
- Oooooohhh...and he's Felix...the son of Justice from 'Black Sheep'
- I felt sorry for Poet
- He melted my heart when they were born

Overall Feeling:

This was just what I expected. Lots of LOL moments. It's not a long book and Cricket is hilarious. I loved the meeting between Cricket's and Poet's families. I hope Chipper and Cap get books as well. I'd love for this series to be produced in audio.

B.E.Love says

I loved this book, it was different from a lot of Bijou Hunter books in many ways and that was great because we get to see new things from this author while she shows us she can write many different types of books once again, while adding the funny big time might I add. I've said it before an author who can write funny in their romance is special and I can only think of one other author off the top of my head that can do funny besides Bijou Hunter.

While on her way home from visiting her cousin Cricket stops in a bar and meets Poet. Their unplanned meeting sparks and attraction neither could have guessed and neither wants to deny but after the best night of their lives both knows living in two different states means they can't be together. And then something neither of them would have guessed happens and they are brought back together.

Both Cricket and Poet grew up in very different lives and getting together isn't easy. Neither Cricket nor Poet can stand the thought of not being with the other, and both are willing to do what they have to to get their own happy ending. Even if it means corralling two crazy families and making a life of their own.

I flew through this book and I mean that. I didn't want to put it down, I was so wrapped up in this book I was surprised when I had almost finished it because I was so caught up in this story. Poet was a great hero, he was sweet and protective and all in once he sees Cricket. Cricket was hilarious and funny and tough but she also was kind and strong. I love how we get to see two children from previous series get their own book and fall in love and that also means bonus we get to see tons of former characters in this book as well.

This book was so much fun to read, I loved both Cricket and Poet and the crazy lives they both lived. It was fun to see them make an even crazier life together. With all Bijou Hunter books we get great epilogues, which she has spoiled us with since the very beginning. This story was a great way to bring so many characters together and I love that we got to see previous children all grown up making their own way for themselves.

I'll say what I say after every Bijou Hunter book: I can't wait to see what she has for us next. It's nice having those authors you know you can count on to bring you a great book that you get wrapped up in and fall in love with and Bijou Hunter is that author for me.

*thank you Bijou Hunter for this beta book

I enjoyed the other stories before this one with these characters, so when I heard that this was Cricket and Poet's story, I was curious and wanted to read it. This book was not for me. I found myself more annoyed with the characters than actually enjoying the story. I just did not connect with this book. My opinion is just that, my opinion, and might not be yours.

I really really wanted to love this but.. this was just silly, some OTT antics by kinda immature people and definitely YA/NA which I don't generally like.

what I liked:

I liked that this was a second generation coupledom from Junkyard Dog and Rawkfst MC.

This was kinda sweet and safe. There's no ow/om after they first hookup even though they didn't see each other again for a few months.

Conflict is how they merge their lifestyles / families coz both have very strong family ties.

Skylar says

My favorite Bijou Hunter book is followed by . ISYN, Bitch Slap is about their kids getting together!!!! Gah. Cricket and Poet have a one night stand while she's traveling through West Virginia after visiting her cousin. Even though they hit it off big time, Cricket makes it clear she's not able to do a long distance relationship. A few months and a positive pregnancy test later, their lives are changed forever.

If you've never read Bijou Hunter before, you need to have a certain type of humor. She's crude, blunt, and jokes like a thirteen year old boy. If this isn't your cuppa do not proceed. I laughed my ass off. The snark was woven throughout. The cast of characters all showed up. Angus was awesome as usual, the word "queef" was used about eighty times, and moonshine consumption occurred. For the full effect I'd recommend reading Black Sheep and Junkyard Dog first. This can be read as a stand alone, there just won't be those golden back stories.

Cyndi says

This book is different. The characters are quirky and their families are crazy and I really liked it. Poet and Cricket are both sweet and smitten with each other from their first meeting. They are both animal lovers too? I would love stories for Chipper and Cap!

Laric says

I loved seeing the families again as you get Felix and Crickets story.

Deborah says

My first Bijou book was *Damaged and the Beast* back in 2013 and since then I've been a huge fan. That's not to say I've liked all her books because I haven't but she's one of the few authors I always check out.

Two of my absolute favourites are *Junkyard Dog* and *Black Sheep* so a book that combines the two was up at the top of my list.

Now it's worth mentioning that Bijou's books are an acquired taste. Several of my friends just don't like them and complain that nothing ever happens. That's true for the most part but these are character driven, it's the characters their interactions and humour that make the books.

It seems you either love them or hate them and I for the most part love them.

While I enjoyed this book and every single characters in it I have to say it wasn't (for me anyway) as good or unforgettable as *Junkyard* or *Black*.

Cricket is passing through West Virginia where she meets Poet. While the chemistry is definitely there Cricket leaves the next morning (unable to do the long distance relationship thing) returning home to White Horse Tennessee.

There's so many brilliant lines in this book and I always tell myself to make a note as I'm reading but I never do. So these are a couple chosen at random.

"Have you tried oral?" she asks, snickering at her question. "Of course, with her peeing every five minutes, that might not be as fun as it used to be."

"Should I get down on one knee?" I ask while nuzzling her throat.

"Do what you want, fucker. I am agreeable to whatever your heart desires," she murmurs before adding,

"Unless it involves fisting because that's just not fucking happening."

Studying her blissful brown eyes, I'm certain I look like a fool in love with all the smiling I've done today.

Nevertheless, I say, "Today is not proposing day."

"Is it because I mentioned fisting?"

"Mainly yes."

"You have big hands," she says and rests them on her belly. "A woman has her limits."

“Don’t you think he’s a precious angel from above?”

“Very much so,” I say, embracing their crazy. “He’s a six-foot cherub with pinchable cheeks.”

It has to be said while I loved all the characters I found myself laughing at the thought of twelve year old six foot tall Cap constantly being described as a cherub.

Celestine says

Over the top.

Anyone with a little hillbilly blood will love it.

Hated the title.

Angus Hayes and Candy from Junkyard Dog steal the show.

Some touching moments amid the outrageousness.

Disjointed at times, but gotta love the familial devotion.

Dogs with personality.
