Dragon's Oath

Nicole Ash

Dragon's Oath Nicole Ash

Despite his attempts to sleep, Taos was well aware of the humans outside his cave and the fact that they'd brought a sacrifice to appease him, but he wasn't worried. He was a large, healthy young male dragon and they posed no threat to him-at least he hadn't thought so until he discovered the damned fools had bound him to the human female. He didn't want to get married at all! He certainly didn't want to be wed to a human female!

As relieved as she was that the dragon didn't appear interested in eating her, Isra wasn't any more thrilled to find herself bound to a dragon than Taos was happy about being bound to her. The problem was, even Taos wasn't certain of how to break the spell. He saw no alternative, though, than to drag her with him in the search for an ancient with the knowledge and power to dissolve the union.

Leslie Reno says

Laughed out loud sometimes! Good short story. Very funny.

TheLiar says

Eh..

3.5

Fun but the ending was quite anti-climatic and abrupt.

Jessica says

It ended too quickly! I loved the banter back and forward between the characters but I'm a little upset with how soon it ended :-/

Selena Lang says

so-so read. it was a very lighthearted book - which I needed at this time, but it was written in a young adult/child tone, but the content was anything but childish. Some humorous sections that actually made me laugh out loud. it was a decent read but I felt it was too "fluffy" I guess would be the word, not really well enough written for an adult novel.

Heather says

Short story - 82 pages
