#### **Adorable!**

Me and my son loved it! Cashew the crooked eyed kitten is too cute for words. And I loved how the animals and up working and living in harmony. Showing nice guys do finish first.

This is bilingual even though we don't see the languages being used, a cat and a mouse have to work together knowing only a few of each other's words and pantomiming the rest to save each other. Terrific book about getting along and making things better for (almost) everybody.

#### **Great story**

Loved the length of this as a read aloud and loved the humanity and thinking outside the box lesson in the story

### **Anita Lovett says**

#### **Excellent Bedtime Story**

I read a book out loud to my kids every night, and it's tough to find stories written so well that you can read them effortlessly -- that was this story. My boys (7, 3 and 1.5) all enjoyed it.

Cute illustrations. Fun story. Great read!

#### **Kind of confusing**

The main character didn't make sense and the title didn't make sense and it was confusing how the story line went. All of the story was confusing really and didn't fit the title.

I love stories. I love to read, but sometimes it becomes a chore and I have to sacrifice getting things done in order to make time for it. Also, there are times when I suffer from book withdrawal and it takes me a while to pick up another book. If you know what I mean, then may I suggest something I found to help me in both instances: children's books.

It wasn't long ago when I was reading bedtime stories. I read some childhood favorites to my reluctant reader and discovered many new books. Now when I see an interesting children's book I still bring it home. I read it on my own for my own pleasure. It satisfies my craving for a good story, it isn't time consuming, and I feel a sense of accomplishment - I haven't given up reading. A few short children's books and bye bye book withdrawal symptoms; I'm ready for another book more to my adult tastes.

As a bedtime story, this book is great. As a "cure" for my time constraints and for book withdrawal it is also great. It is a wonderful story about a cat in danger of being evicted from the castle and how a mouse saved him. It is a simply wonderful short story.

Children's books aren't just for children. I found that being an adult doesn't mean I have to give up cute short stories in the form of children's books. It means just the opposite. I can fit more children's books in! I can easily enjoy the simplicity of a good tale and feed my inner child's need for a happy ending. I'm giving myself a break from being an adult and you can too.

So, if you can't fit in time for "Calgon to take you away" perhaps you might want to pick up a kid's book like this one and let it rejuvenate you and your imagination. I wholeheartedly recommend it!
