**Messages: Signs, Visits, and Premonitions from Loved Ones Lost on 9/11** Bonnie McEneaney

“Through moving stories, insights, and incredible spirit messages, she takes you on a journey of love, in which your soul will forever be transformed.”

—James Van Praagh, spiritual medium and author of *Unfinished Business*

As told by Bonnie McEneaney, the wife of a 9/11 victim, *Messages* is a collection of inspiring true stories about the spiritual experiences of those who lost loved ones on September 11, 2001. A moving and fascinating look at the unexplained, *Messages* offers comfort, hope, and understanding to all who were touched by the tragic events of that terrible day.

# **From Reader Review Messages: Signs, Visits, and Premonitions from Loved Ones Lost on 9/11 for online ebook**

## **Brianna Kolodziejski says**

This book is teeth gittering! It provides a insight of the struggles families faced with the disaster that happened on 9/11. Wife's were faced with signs and messages from their loved ones letting them they were okay, allowing some relief from all the horror.

---

## **Roberta Grimes says**

Bonnie McEneaney lost her husband in the World Trade Center Towers on 9/11. Soon thereafter she began to receive signs from him, as did many widows and other survivors. McEneaney eventually collected these accounts into a book that also includes premonitions and messages received in other ways. This is a beautiful and moving account of a group of people who left their homes one morning not expecting that they were about to die, and then were desperate to assure their families that they were still okay.

---

## **Michelle says**

Very good book. I enjoyed every bit except for the parts about psychics. Still not sure if I believe they are legit so I skipped the chapter that was focused on them and 9/11. I would definitely recommend reading this book. I did shed a tear or two but it was heartwarming to read stories about those lost on 9/11 "returning" to let their loved ones to let them know they were ok.

---

## **Barb says**

I loved this book because the thought of people being able to foresee their death or somehow experience the presence of a loved one who has passed is so remarkable. The author, a wife of a 911 victim, went out of her way to show that she and those she interviewed were not normally believers in the supernatural, but the evidence was so overwhelming for them. Just recently a friend died from ALS. He told his family that when they missed him to look for pennies. Sure enough right after he passed, his daughter found one right under her chair and they have since found them right when they were feeling most sad. I don't think he got this idea from this book, but just an example of a story told in the book as well.

---

## **Elly Yandell says**

This book was very good. I really enjoyed reading it because I find the after life with spirits very interesting. I enjoyed reading other peoples encounters with spirits. This book is specifically about people who have died in 9/11 spirits. The author, Bonnie McEneaney, personally spoke with other families who lost someone in the 9/11 attack. I recommend this book to people who have interest in the afterlife and with spirits. I would not

recommend it to someone who is creeped out by stuff like that or who doesn't enjoy it.

---

### **Suzan says**

The author's husband worked at the World Trade Center and lost his life on 9/11. After his death she felt his presence reassuring her that he was okay and was watching over her and their family. Other people he knew saw his spirit and came away with the same message, "I'm okay." She wondered if other people who had lost loved ones on 9/11 were having similar experiences. She was astounded by the number of people who were, and records their experiences in this book as well as her own. What I really liked about this book is the reassurance that there is life after death...our spirits live on, that family relationships continue on and our deceased loved ones are aware of their families, and they love them and are with them. Love is what really matters, family and relationships matter! This book made me more grateful for God and his tender mercies as grieving family members were blessed with dreams, visits, and signs...things that gave them comfort, peace, and an assurance that their loved ones were okay and they were in a good place.

A closing thought I loved was that there were 19 guys who got on airplanes and because of hatred caused such terrible death and destruction, but there were millions of people who were there to give help and aid. Such terrible hatred is the exception, the normal tendency for people is to love and to care and help.

Miraculous Stories, Wonderfully Told

As someone who became inspired to pursue "9/11 Truth" after spontaneously connecting with a group of 9/11 spirits while working near Ground Zero in 2008, I was hopeful that the encounters reported in "Messages" would touch on the fact that there is much more to 9/11 than what the government and mainstream media is telling us. The only instance in "Messages" that arguably comes close to making that point is when Deena Burnett discusses her husband Tom's 9/11 premonitions. Tom said that he didn't know exactly what was going to happen, but predicted that '...it was going to impact a large number of people and that it had something to do with the White House.' Despite the fact that "Messages" included just this one reference to what might be considered a grain of 9/11 Truth, I thoroughly enjoyed reading Bonnie McEneaney's painstaking account of the many wonderful signs and visits from loved ones lost on 9/11, and the positive impact that resulted. "Messages" also confirmed much of the knowledge I have gained during a spiritual quest that began in earnest in 1997, and validated my own metaphysical experiences.

I very much appreciated that Mrs. McEneaney allowed the families and friends of loved ones lost on 9/11 to share their miraculous encounters in their own words. The author's thoughtful introductions to the people involved helps the reader to get to know them. The inclusion of their photographs is a wonderful touch, and very much enhances the feeling of familiarity.

As those familiar with the phenomena are aware, our loved ones in Spirit will use whatever methods they can to let us know that they are okay and that they still love us--be it contact thru dreams, synchronicities, feelings, thoughts, sounds, smell, touch, electricity, coins, animals, or otherwise. The experiences related in "Messages" involve all of these, and more...including a number of the less common methods of contact such as actually seeing a loved one who has crossed over. Of course, HOW any of this can happen will always be a great mystery, but as the insightful Mrs. McEneaney makes clear, connections with loved ones in Spirit do

in fact occur and are not all that uncommon.

The author's telling of the extraordinary number of premonitions leading up to 9/11 was especially intriguing, and totally supportive of the belief held by many in the spirituality community that, "The soul knows when it's time to go home."

Since our Western minds will always tend to doubt the validity of metaphysical occurrences--even when we they happen to us--it's very important to share our experiences with others (while being careful with whom we confide). Mrs. McEneaney has performed a valuable service in this regard, by gathering and sharing testimonial evidence that there is life after death, that love never dies, and that our loved ones on the Other Side continue to watch over us. Presented in the context of 9/11, the seminal event of our time, the evidence is that much more powerful and persuasive.

### **Julie Arkush says**

With the 10th anniversary of September 11 approaching, this book is a fascinating quick read, giving you an insight to what the survivors of 9/11 victims have experienced since the tragedy and the premonitions some had before it occurred. I think that it would have been equally interesting if the book had gone a step further to discuss the experiences of those who were supposed to be there that day, but weren't. Everyone living in New York at the time seems to know at least one person who was either uncharacteristically late for work that day or had a meeting in the twin towers and simply decided not to go. Maybe that could be a follow-up book. Overall, worth a read if you are interested in the possibility of life after death or essentially the continuity of life and love.

### **Susanna says**

It occurred to me to look for a book on this subject - 9/11 and paranormal - because recently, during the 10th anniversary of the tragedy, I was watching a documentary where the widow of one of the victims of the World Trade Centre said he knew his wife was gone because he felt her soul going right through his body. I do have an interest in these subjects, even though my interest stems mainly from own difficulty in believing, fully. My friends, those who know me well, and that have an unwavering faith, usually call me "Doubting Thomas" because I am always looking to disprove what I'd like to believe.

In fact, I should have a poster in my bedroom saying "I want to believe", like Fox Mulder. But I digress...

Truth is, I didn't have to go far into the book to find experiences that were so similar to "phenomena" I've experienced - in fact they were almost identical. For someone who has so much doubts it was quite comforting. Am I a complete believer now? I'd like to say "yes" but I'll just say I'm closer.

I gave it 4 stars because the editing is not great, but that shouldn't stop anyone from reading this book. Perhaps the stories you'll read will be very hard to believe for those who have never experienced anything similar, that is, unless you have received signs from the other side you'll probably dismiss this book. I know I would.

Ultimately, there is so much love pouring out of this book and it does bring some sense of comfort, that says

there is much more to life than this.

---

### **Denise says**

I thoroughly enjoyed this book. Even though 9/11 was a tragedy in many ways it was more about ordinary people doing extraordinary things to help those around them. And many of the loved ones left behind have had messages letting them know that they are okay and still very much aware of them. Love goes beyond this life in an eternal link.

---

### **Kryssy Kirsch says**

This book truly gave me a sense of peace. It also piqued my interest into the spiritual world moreso. Despite such a tremendously horrible time in our history, there is love and light beaming through. Each story told made me realize how little, precious time we have on this earth as flesh and body, but we are always around in energy even when we pass. It's cliché to say "live life to the fullest," but this book really inspired me to be a better person, a better friend, a better daughter/sister/aunt, and gain as much knowledge in every aspect possible.

Bless all those who perished and their families. Bless us all for making it through our own tragedies.

---

### **Camellia says**

I highly recommend this book to anyone who has lost someone through tragic and sudden death.

---

### **Katya says**

"The author received messages from her husband before and after he died in the WTC on 9/11. This a collection of stories from wives and loved ones who connected with their lost family members. No one should be surprised by any of this. Love reaches everywhere-that is the message."

---

### **Tannie says**

Not my favorite... and the fact is that I can't even pinpoint why I didn't love it. I liked a lot of things about it, but it just didn't resonate with me. I thought it was written poorly, but it had some great stories. I didn't like the emphasis on psychics and mediums (I guess that's part of the reason I didn't like it).

---

**SundayAtDusk says**

This is the absolute best spiritualism book that I have read in I don't know how long. The stories cover after-death communication, premonitions and dreams from those associated with 9/11. Even readers who don't believe in spiritualism or the paranormal, will still be able to find stories, poems and pictures in Mrs. McEneaney's book that will touch their souls. It is an intelligent book, edited in a professional manner. I cannot say enough good things about this book.

(Note: I received a free ARC of this book from Amazon Vine.)
