*The sexiest of seductions...*

When Joy McGuire arrives in the sleepy Missouri town of Heron's Landing, she thinks she's left her past behind in Chicago. As a journalist, Joy just wants to write—and to forget. When she meets local vineyard owner Adam Danvers, though, she discovers not only her next story, but a man who makes her heart pound faster. One problem? Adam hates journalists. *Can transform into the sweetest of loves...*

After losing his wife in a tragic accident three years ago, Adam Danvers has focused solely on his family's vineyard, River's Bend. But when Joy bursts into his life, he can't stop wanting her; everything about her makes his blood sing. #### **Seduce Me Sweetly**

Sweet and simple story. Adam, owner of a small winery that has been in the family for generations but may not be for much longer. Joy, a freelance writer that runs away from Chicago in need of something different after catching her fiancee and best friend together. Adam and Joy have been hurt and have their guards up but that doesn't stop them from falling for each other.

This would have been 5 stars for me if the characters had another way to cope with their emotions other than drinking. I feel as if they both drank in excess often and it was a bit distracting.

Joy has lived through some tough heartbreak with her Fiance and Best friend having been having an affair so her best move was to move to another city and start over, so she moves to Heron's Landing where she makes her first friend named Grace who happens to be the sister of Adam a man who at every turn insults her. Adam a man who has lost his wife suddenly and then lots of bad media came with it so when Joy comes to town and he finds out she is a writer he tries to stay away but they have this instant chemistry that they can not deny, but things won't be all great when trust is tested.

What I enjoyed most about Seduce Me Sweetly was watching how Joy was willing to move away from her comfort zone to start over and get a fresh start. I loved how sassy she was when ever Adam would push her

buttons and how she stuck up for herself and never let his words show any emotion on her face when standing in front of him to mess with him, Watching Adam finally come to realize that his wife would want him to move on and be happy, and how Joy and Adam felt with each other that they never felt before.

This book was a great read, I really enjoyed it and can't wait to read the next book in the series. This book has Joy she has been cheated on by her Fiance and with no other than her best friend so she decides to move and get a fresh start, Grace Adam's sister is glad to have made a great new friend in Joy and sticks up for her brothers rude behavior because she knows he is a good man just changed since his loss, Adam a man who feels he isn't allowed to move on but finding his feelings for Joy run really deep and he will have to decide what he wants before he loses her for good. A love story. If you like stories like this, then Seduce Me Sweetly is a must!

#### **Good read, likable characters, strong female lead**

This was an enjoyable book with likable characters and a decent storyline. Joy was a very strong female character although her thoughts often made her sound rather immature. There were some issues with consistency, such as a contradictory timeline and characters knowing things they shouldn't, and Jeremy repeatedly flipped back and forth between boyfriend and fiance. Still, a solid 4 stars and a good read.

I've read another book in this series which also had a strong female lead and I appreciate the kind of heroines this author creates.

I absolutely loved this first book in the Heron's Landing series. Joy comes to Heron's Landing from Chicago to start over and get away from her cheating ex. Joy meets the local vineyard owner Adam and boy do they get off to a rough start. LOL! Adam is a widower who has been burnt by the media and of course Joy has to be a journalist so he automatically assumes she will be like all journalists and only care about exposing things and generating revenue. I can understand how Adam would be concerned but he just automatically assumes the worse. I wanted to slap him a few times but then again I wanted to slap Joy a few times with the way she handled her cheating ex. The worse happens but Joy finally ensures the truth comes out. Joy goes back to Adam which bugged me a little that Joy went to Adam instead of Adam going to her. At least they got their happily ever after.

I have been wanting to read this series for a long time but had been waiting with finances and all. Now that it's in KU, I hurried up and grabbed up the 2 books I didn't have. It didn't let me down at all and I can't wait to read Grace and Jamie's story next.

I have no aversion to a slow to simmer romance. I approached this with an open mind and although it was sluggish to start, I was willing to plod through to the end. No, a positive review does not begin with this

opening. I was shocked to learn that Joy of purple hair and and funky manicures, left Chicago for a town of population 250 persons because of a man. It is a far reach for so many reasons. Small towns are vacation locations for many; rare is the new resident, rarer still is a new resident from any city or even a city suburb. They are places to go to get a break from a major city. For a Chicago based journalist to give up on a whole city because of a broken relationship? I can't buy what the author is trying to sell.

I live in the suburbs of a major US City and never would be further from the conveniences of such; the fine arts, access to health care that only is found within a certain perimeter of these cities and so many other benefits that I cannot find it believable that Joy the journalist is living above a general store in a small town as her life plan. Sure we all need a vacation. Fresh air, the sweet tiny town with a vineyard... that is a vacation, a location for a wedding, a place to meet up with old friends.

The whole book is sluggish. It's paced exactly as the town it portrays.

I take no joy in writing a negative review. There is a readership for this book. As this book was written in 2016, I had a peek at other reviews. What I found interesting were the comments about this being a clean good Christian romance. It is not advertised as such and if that is the relationship readers make with the text, that is something that I obviously missed.

If you crave sugar over reality, want to believe that a family run vineyard can fulfill a Chicago's woman's journalistic talents, this is a book for you.

I received this book in exchange for my honest review. These are my feelings and I take ownership of my words. I apologize to the author for a sharp and negative review. This was my experience and I am sitting in a minority. All readers have a preference. This book did not attract me, however it appears to have an audience.

I read an ARC copy of this.

I enjoyed this book. Yes, Adam was difficult at times. I understood why but yet it was frustrating at times. Thankfully everything worked out nicely. I liked the ending and how it led up to the next book. Which I'm looking forward to reading.

Adam and Joy are writing the book and HEAs in Heron's Landing! Joy was looking to start over after leaving the Windy City behind with her cheating ex and disloyal bestie and all the baggage that comes with that kind of betrayal. She found herself in the homey and quaint Heron's Landing, not exactly a bustling metropolis but the charm more than makes up for the lack of deep dish. Her work as a freelance journalist can pretty much be done from anywhere and can lead to some pretty cool and interesting interactions. Generally though, people aren't so hostile and for the life of her she cannot figure out what crawled up Adam Danvers butt and died. From the moment she meets the sexy brooding vineyard owner he was downright rude but there was also something else twinkling behind his eyes that she's helpless to ignore. Adam is generally not a mean guy, he's a business owner and a small town boy - but there is just something about the media that rubs him the wrong way. It doesn't matter that Joy makes him want things that he hasn't even thought about since losing his wife, he cannot help his preconceived notions about the press. But as Joy and Adam grow helplessly closer and fall headfirst into love, they will need to learn to trust each other. The future could be bright but only if Adam can write an ending on his past demons.

This is the first book in the Heron's Landing series and features Joy and Adam. Joy was a journalist healing a broken heart who had just moved to Heron's Landing. Adam was still in mourning for his wife who was killed in a tragic accident. He has a good reason to hate journalists and takes it out on her. She doesn't

understand his hostility to her. Then they have to deal with the gossip issues that are prevalent in all small towns. Eventually he realizes that he can no longer ignore his attraction. Lots of twists, obstacles and surprises to keep you page turning. A good book with great characters.

So sweet! Two broken people unexpectedly find each other and somehow before they even realize it, their feelings are deep and true. Unfortunately, not all paths are smooth and they have to find a way to get past the hurts and troubles that get in the way.

This is a beautiful story with a great group of characters in a small town setting in the middle of nowhere. I look forward to reading more about the Adam, Joy and River's Bend, the vineyard that has captured my heart.

Joy McGuire is a free lance Journalist moving to a sleepy little town to escape the betrayal of the two people she thought she loved the most. Adam Danvers is a widower with a great reason to hate Journalist. Heron's Landing is a small town that sounds like a place you don't know is there unless someone points it out. This story is well written and sends you on an emotional journey to healing two broken hearts and finding your true self. Looking forward to the next story in this series.
