## From Reader Review Shee Willow for online ebook

### Vonnie Faroqui says

Claudy Conn's Shee Willow, carries us deep into the world of Fae intrigue and danger . . . exciting and fast paced, this is a novel with plenty of plot twists and surprises to support the romance. Shee Willow's tale can stand on its own but Conn brings back the cast of Faery characters we fell in love with from Spellbound-Legend, deepening the Seelie intrigues, romance, and dangers in part two of the series.

Once again Conn ignites the page with hunk madness, as every-which-way Willow turns brings hot potential for love and misdirection. A Conn story is always full of rich layers and like dark chocolate cake waiting to be licked from sticky fingers; she tempts even the most discriminating reader to escapism. I can't help but pout a little when she tortures us with characters that we want for ourselves only to find out later that our hunk of hotness is just no-good for us or our heroine.

In Shee Willow, Conn writes from the first person perspective of each of her main characters, giving a different feel to the book than you will have encountered in reading Spellbound –Legend. If you like to imagine yourself in the role of the characters, this perspective and writing style might challenge you at first. It won't matter past the first chapter, because once you get reading you will find that Conn is a master of the craft and the story is a pleaser.

I didn't think the series could get better but Conn is developing the magical and political intrigue of the underlying plot connecting the books, as well as the romantic drama. Additional characters open the scope for rising action and she continues to weave in future romances and danger.

Conn is in high form and never shorts her heroine or her reader. It is pure torture deciding which of the men or Fae to fantasize over, and I do so love the bad ones!

You got me again Claudy!

It is official! I am addicted to this series! It has been a long time since I have found a fae series I can actually immerse myself in and with this one, I have jumped in with both feet. I have read two in three days. I can not help myself. They are that good. While this one had some carry over characters and a continuing story arc from Spellbound - Legend, it also introduces a whole cast of new characters. Once again, I felt like I really understood these character thanks to the amazing voice the author uses in her writing. This is not a series where we see the same couples coming together, facing tragedies and adversity and then after four or five books, finally coming together. That made me happy :). I felt like the main story arc of good vs evil that began in the first book made some nice progression and left me wanting to know what was next. I enjoyed the love stories, especially that of the Ete. It was nice to see her grow into a more central character in this book. I will, without a doubt, be reading the next book ASAP. I am so glad I listened to my friend and started reading this author/series.

Legend Series - Shee Willow-Legend, Book Two by Claudy Conn.

Had a bit of a problem getting into this one as different characters were popping up as the story went along. But as I continued reading the plot thickened and unfolded and became very exciting, not to mention the three gorgeous hunks that had our heroine, Willow's, head spinning.

Willow Lang is a half Fae & half Human and felt she did not fit in either as a human or a Fae. Willow is a restorer of antiquities and is hired by one of our head spinning men, Shayne Bantry, to restore his very large art collection. You will also, once again meet our charming, handsome and mischievous, Prince Breslyn, as well as a very handsome and mysterious Gypsy.

Each time that Shayne & Willow are together, they feel drawn to each other more and more but fight against their feelings.

I do not want to give any spoilers so I will just tell you to read this wonderful Legend Series by Claudy Conn. You will not be disappointed.

Next book in this series is Trapped-Legend and I look forward to continuing in this wonderful world that Claudy has given us.

Half Fae And Half Human, Willow Lang Felt She Didn't Fit In Anywhere As The Fae Didn't Accept Her And Called Her Names. At Least She Could Pretend She Was Human And Mingle With Them. But What If She Married A Human And Their Children Obtained Fae Powers? Willow Decided To Concentrate On Her Studies And Was Hired As An Restorer Of Ancient Art In New York. She Was Quite Good And Shayne Bantry Flew All The Way From Ireland To Hire Her To Restore His Massive Art Collection, But No Sooner As She Arrived Than She Saw An Unseely Fae, A Beast So Ugly That She Wondered Why He Was In Full Glamour And Followed Him.

Shayne Bantry Had To Have Willow Close As He Was Captivated By Her White Blond Hair And Sparking Purple Eyes. He Was Besotted With Her And Jealous Of Any Man Near Her. He Had Bedded Plenty Of Women And None Had Made Him Do Goofy Things Nor Had He Invited Them Into His Home! He Was A Dealer In Antiques And Amassed A Fortune And Hated The Fae With A Passion After What Was Done To Him, But He Hoped To Find The Remaining Two Relic Pieces Of A Fae Mask To Help Him.

My Thoughts:

Something I've noticed read Claudy Conn's books are that they slowly get to the plot, but once you get far enough in they are WOW! \*Grins\* My favorite guy so far in this series finally figured out his problems. :) Breslyn!

The Review:

So Shayne Bantry has lot's of problems. We just don't get to know them until close to the end. From rather or not he's evil or good, or just lost. We learn he is being a problem, not agreeing with the queen causing problems. Overall I liked him if you can't tell I wrote many lines. Willow is explained pretty easy and quick to understand. Her father is missing and she wants to find him at one point, she meets a mysterious winged fey, and has talking mask problems. Have I suck you in yet?

If you love fae books that have some romance in them, then this is a book for you to check out.

Would I read the next book? Yup! :)

What can I tell you Willow is amazing was hiding behind fear of being part Fae , part human of living mostly in the human world but discovery of ones self is always a learning experience and now to be not only in the company of such over welmingly gorgeous men but to discover powers long ignored to stay

annonymous has opened her heart to a whole new world and life . Come on the adventure and make sure to read all the series for a very entertaining time.

Shee Willow by Claudy Conn

Legend Series book 2

Willow Lang was half human and half Fae and never quite fitting into either world. She was hired to go to Ireland and restore some old portraits for Squire Shayne Bantry and her boring life soon became full of interesting twists and turns. She had a handsome Fae prince paying attention to her, a mysterious gypsy and the hot and cold Shayne Bantry. None seemed to offer her the true love she was in search of though. Yet through it all she did learn to accept the part of her that was Fae, as she had always chosen to live human.

Shayne was a Druid priest, was. Something had happened that turned him against what he was born and bred to be. And he hated the very Fae that he was suppose to help protect. All his past ancestors had found their true loves but because of something that happened a year ago he didn't dare ever give his heart away. If only he could keep his mind from going to the image of his beautiful new employee.

Claudy Conn brings this series to life with her unique characters. Some were introduced in Spellbound, the first Legend book, Prince Breslyn and Princess Ete and Queen Aaibhe, along with the Sluagh. Gaiscioch is continuing to try and find a way to escape the Dark Realm with an army of soulless Unseelie's. As the impending war draws closer the humans go on about their lives, never knowing of their protectors. Each book builds a bit to things happening behind the scenes but they do not leave you hanging as far as the main romances. Looking forward to Trapped, book 3 in this legend series.

This book starts off with a brief recollection of the first book in the series helping you refresh. (I love how Claudy does that)

We are given Willow's back story as well and a little bit of the Tuatha De' (The Fae) history.

Claudy does an amazing job explaining the history and back story so you never feel lost. Her details are very vivid. Its all very well written and you lose yourself in the story.

Claudy writes in a way that makes you forget you are reading a book. You feel transported into her magical world from the very first page.

I really enjoyed how Claudy added side stories for Prince Breslin and his sister. I think its great that we get a little of the Prince in each book.

Add in Shane's and Willow's story and you get a magnificent book that you will not want to end.

Willow Lang is hired by Squire Shayne to restore his paintings, she is attracted to him immediately. Willow is half fae half human seer. She steers clear of all things fae due to bad experiences as a halfling child. Her father Desmond is missing, she is fighting monsters, finding relics, dealing with advances from men, and trying to figure out who she can trust. It seems like everyone she comes in contact with has secrets. She doesn't know who to trust. On top of all of that, an evil seelie fae, trapped in unseelie is trying to open a portal to escape and release all the evil unseelie into the human realm. Will she find someone to trust in, as well as helping the seelie, or will she turn her back on all of it. Great story, very interesting characters, several different love angles, and I really liked this book.

### **Lori says**

After reading this book I have one word for you, “Astounding”!!!

This book is a continuation of the first book in the Legend Series “Spellbound”, and brings us back to the Fae Realm and the aftermath that was caused by the betrayal of the Seelie Fae by Gaisioch. Now in the Dark Realm, Gaisioch is planning to unleash the Dark Fae, specifically the Unseelie Fae to wreck havoc on Humans. This causes a lot of trouble for the Faery / Human Realms and the Seelie Fae are determined to end Gaisioch’s plan, no matter what it takes.

Willow Lang, is our heroine in this story and a real spitfire. She has struggled with her heritage (half Fae and half Human), and has a hard time determining which world she belongs in. After an incident in Tir (Fairy Realm) as a teenager Willow decides that she no longer wants to acknowledge her Fae side, and chooses instead to live as a Human. Then years later, Willow is offered a job working for Squire Shayne Bantry at his home in Ireland, and everything changes. She is re-acquainted with Royal Fae Prince, Breslyn, whom she fondly remembers from her time spent in Tir with her parents, as a child. He was the only one that didn’t make her feel like she didn’t belong, and she begins to wonder if he remembers her. Breslyn, as we have come to expect, takes an interest in his “Shee Willow” and asks for her help to keep an eye on her boss, Squire Shane Bantry.

Squire Shayne Bantry, is a former Druid high priest, that has turned his back on his duties to protect the Fae and more importantly the Queen. Shayne believes he was betrayed by the Fae and turns to a darker side, while he tries to find a way out of the situation he was placed in. Shayne also finds himself attracted to Willow, which he refuses to give into, because he is sure that he can’t give her what she needs. However, he starts getting jealous when he sees Willow with Breslyn and realizes how much time they are spending together. Does Shayne want her to be his, or does he just want to keep her away from Breslyn?

The story that unfolds between these characters is filled with plot twists, some that I didn’t even see coming. It also has lots of action, suspense, romance, intrigue, and is one HOT read. I was hooked from the beginning and was unable to put it down. I absolutely love this series and found myself immediately purchasing the next book “Trapped – Legend” in the series, so that I could continue the story. I can already tell this Legend series is going to be on my re-read list for many years to come!!!

## Elise Marion says

WOW! Just finished this and I've got a lot of thoughts so I'll just get right to it....

This book picked up where book 1 left off, with the Unseelie Fae and their leader Gaisioch poised to enter and take over the human world and destroy both humans and the Seelie Fae. My favorite fae, Prince Breslyn made another appearance in this story and was his usual sexy self. The main character is Willow, half fae half human, a girl with an identity crisis because she identifies more with her human side. Fae children scorned her and now she is determined to have nothing to do with them. But when the war with the Unseelie's lands on her doorstep, she really has no choice.

One thing that the blurb of this book may have you thinking, is that this is a love triangle (or even quadrangle), and it may appear that way in the first few chapters. However, it soon becomes clear that Roland, while handsome, is not even close to being a contender for Willow's heart though he does play a crucial and mysterious role in the story. Breslyn, who is usually drawn to human women, is more involved with the beautiful Fae Ete, who has loved him her whole life. I loved watching him struggle with his princely honor as he tries to resist Ete, who he feels is too young and inexperienced. He does not want to hurt her. He struggles between his love of human women and his feelings for Ete which come slamming into him full force in this story. While there's a kind of a sidestory there were times when Breslyn and Ete's story shined through to center stage for me and I found myself more engrossed with them than with Willow and the third man rounding out the equation....Shayne Bantry.

The Druid priest Shayne Bantry hates the Fae and has turned his back on his duties as a high Druid priest because of a trick played on him a year before. I love how the background info was revealed slowly over time and Shayne was kept pretty much a sexy mystery man through the whole thing. His chemistry with Willow is electric, almost love/hate at first even though he doesn't know she's half Fae. He wrestles with his own inner demons while coming to terms with what he feels for Willow.

I will say that the first person point of view kind of detracted from the book for me. For one thing, we are not just inside Willow's head....from time to time we are addressed by Shayne and Ete as well, and I have to say I was not always fond of the POV jumping. I think it was okay that Ete was giving voice to what was happening in the Fae realm, but Shayne's narrative was unnecessary and tended to add confusion until you read far enough into a paragraph or chapter to realize that it was him. I felt this would have been better in third person, that way the author could jump into whomever's head she liked and it would have felt more clean.

I also felt this book drags in the middle. We spend waaaaay too much time in Willow's head. From 40 to about 65 percent in the book I started skipping paragraphs and even whole pages just to get to the point. A lot of things were repeated and re-explained and I found this a bit annoying. We've already been told once what human Glamour or the Feth Fiada are....I didn't understand why the author felt the need to constantly remind us things she'd already told us. It got a little redundant.

But these minor flaws are not consistent throughout the book and don't detract from the story too much. By 70% lots of actions, twists, and turns pulled me back in and I was along for the roller coaster ride until the explosive end. I loved the way it was set up, with a lot of loose ends tied up, but also a lot unknown. War between Seelie and Unseelie is still brewing and Willow has been given a glimpse into what is to come. It all sounds thrilling and I can't wait to dive into the next book!
