### Don says

Now THAT is how you kick off a new story arc. I'm glad there's at least one good writer left on this Marvel Star Wars project.

---

### Steven Shinder says

This just flat out ignores the ending of issue 13. Was that ending just a joke? We get an update on Magna Tolven's place in the Empire, and I find it hard to believe that she survives. Not sure how I feel about the connection to Thanoth. Feels like too many characters are connected. And the ending leaves me curious, but it feels too soon, like there should've been another arc in between The Enormous Profit and Remastered.

---

### DarkChaplain says

Pretty great start to a new arc, but I was hoping that the murderdroids wouldn't be a part of this series for at least an arc or two instead of being right back in our faces.

---

### Joss says

A forgettable in-between episode. Not awful, but I finished it and I was already trying to remember what I had just read. I also think the character of Aphra herself felt quite different from her usual self. Even Triple-Zero lacked pizzazz.

---

### Brandon St Mark says

Really fun issue. I like Aphra flirting and the ending was really great!

---

### Spencer says

First of all the art is fantastic, I loved Emilio Laiso' style. The story was interesting and had a cool little twist at the end - the new story arc looks rather promising.

---

### **Darlene Ruiz says**

beautiful cover art by Ashley Witter

---

### **PvOberstein says**

Reasonable job delineating Aphra's morality. Will get people killed, but doesn't really set out to cause slaughter (personally). Tons of sexual subtext, which is such a breath of fresh air in Star Wars.

---

### **Micah Ulibarri says**

A great start to a new arc. A lot has changed. Aphra has her personality back. We get an introduction to a new characters with some interesting looks. The twist at the end was fun and unexpected and I am actually feeling more optimistic about this series than i had after the end of the last arc.
