After losing the trial of the century, disgraced lawyer Abigail Holt flees the unforgiving press in Dallas. With only the clothes on her back, she ends up driving to the small town of West Yellowstone. She needs to hide for a while, just long enough to figure out how she's going to move forward with her life. The Curvy Bear Ranch seems like the perfect place to retreat. But when she meets Cody Grant, a tall, sexy cowboy with bedroom eyes and a panty-melting six-pack, she wonders if she's headed for another disaster. She has no idea that the man she secretly craves is hiding a huge, furry secret.

When Cody meets Abby, her curves set his body on fire. His bear can't wait to claim her as his mate, but Cody isn't ready to commit. He's not interested in dating another broken woman. With his last, failed relationship in mind, he agrees to her no-strings-attached proposition. But after one mind-blowing night together, he agrees with his bear. He'll do whatever it takes to convince his fated mate that they belong together. And he's very, very convincing with his naughty tongue.

This is the fifth book in the paranormal bear romance series - Curvy Bear Ranch. This is a stand-alone book with NO CLIFFHANGERS. Love scenes are fully realized and at times include explicit language. Intended for readers 18+.

I'm absolutely loving this series!! It gets better and better with each new book. This is Abby and Cody's unlikely love story. It's a very touching story of discovery, acceptance, love and unbridled passion. Will make you believe that really everything happens for a reason even the bad stuff, but don't ever give up. (I received an ARC in exchange for my honest review)

I originally chose this book so I can complete a reading challenge in a group I was in. The "Cowbear" was what caught my attention. I love reading anything about bear shifter and this book was one of them. Yes, I rated it 4 stars out of 5 stars and yet, I considered it as one of my favorite books. The relationship between Cody and Abby were well done.

This is a book that can be expanded a bit longer. Show more depth of how emotionally Abby was toward the case she'd lost. I was aware this book was the fifth series out of six books, so I might have missed the depth of bear shifter background from the first book, but I intended to read them all since I really enjoy the writing style.

The way the author describe what Cody looked like was really hot. How could anyone resist an adorable cowboy that had a hairy chest and could turn into a bear. The way Cody listened to Abby's situation made

him such a perfect gentleman.

I only wished it was a bit longer a chance to see the relationship between Cody and Abby developed rather than skip ahead and explained the result in the final chapter.

Abby loosed a big case the trial of the year and is fired by DA. The news people are surrounding her house in Texas. She runs away to the Curvy Bear Ranch in West Yellowstone. Cody encourages her to do what makes her happy instead of listening to what her parents want. Cody shows Abby it's never too late to see your dreams come true.

### **Stacy Jordet says**

Abby is a woman who just had to get away. After loosing a trial that she thought was a slam dunk, he is fired and she just wants some time away from the chaos. She drives until she finds a quiet B&B where she just wants to hunker down and figure out her next steps.

Cody is a shifter who isn't ready to settle down. However one glance at Abby, his bear wants him to rethink that.

The two of them were cute together. I enjoyed this book

#### **Quick sweet read**

An acquittal, news reports everywhere, a Mayor who was more concerned with politics than showing love to his daughter. Where is there to go when you lose a high profile Case? Simple you get into your car, with no plan in mind, no clothes except the ones on now (because reports are set up outside of your home) and you end up at Curvy Bear Ranch. I enjoyed this book. Ugh, Abby's mom! At least Abby finally took control of her life. Abby and Cody made me laugh. But what ever happened to the bad guy? I'm not telling, No cliffhangers.

I was gifted a copy of "The Cowbear's Curvy Valentine" from Liv Brywood, in exchange for an honest review.

Now this installment of Liv Brywood's series started with a massive BANG! One chapter in & I could feel the anguish new leading lady was in... I was also HOOKED! I needed to know what would happen, how everything would end, just WOW!! This is book 5 in Liv's new series "Curvy Bear Ranch", although it can

be read as a stand alone, I do suggest you read this series in order.

Having just lost the trial of the century Abby runs out of town when the media converges on her, travelling across the country for 2 days straight she finds herself in West Yellowstone & staying at Curvy Bear Ranch B&B for a week. Cody has 1 rule, no relationships ever, but something about Abby calls to his bear.

I'm so not going to ruin this for you, but damn some parts in this story are tear jerkers. I want to say more.... but I'm not going to. I ABSOLUTELY LOVE Liv's "Curvy Bear Ranch" series & can't wait to read the next book in the series.

### **Sweet**

Liked story. Hero was kind, gentle. Heroine smart in some ways dumb in others.

Didn't really believe she lost case, seemed to lead that the jury was threatened or bribed to call off, no way after an confession and evidence would it be anything but mistrial, hung jury or guilty. Also wouldn't have been fired.

### **Lovely**

I just loved this book. Actually, I have loved every book in this series that I've read. I enjoy this authors writing style. I can see what she's describing, and it's written gracefully. It's the perfect book for those of us who'd rather sit at home and read a good book on a 'couples' holiday. Loved, I mean Loved the most perfect ending!!!

I love the characters in this book and once again the Liv didn't disappoint me. The storyline is strong, engaging and Fantastic. Her characters are amazing, thoughtful, powerful, exhilarating and lovable. The Dialogue is fascinating, humorous and realistic and If you haven't read this series you are missing a best seller. Book 5 is a great addition to this series it's book 5 of The Cowbear series but it can be read as a standalone, as I have said before I love it and I'm excited about the next book, just thinking about it makes me happy.

Wonderfully romantic tale about a woman who finally learns who she really wants to be, and how she can achieve all her dreams. Abigail is running from her life, trying to forget and to forgive herself. Cody does not want to get involved with another troubled woman, but cannot seem to help himself around Abby. Cody does not want to be heartbroken when Abby goes back to her city life, but he may have no choice, or is there a way for them both to be happy? Can Abby accept the wilder nature of Cody and be his mate, or will she once again run away? I was given a copy of this book in exchange for an honest review.

### **?? Carmen the Bootyshaker Temptress ?? says**

This was my first book from this author and I really enjoyed Abigail and Cody's story. Abigail lost the trial and she took some time for herself so that she can get away from the press and figure out what her next step is going to be since she has also lost her job too plus she didn't want to deal with the stress of her parents as

well. So she drives until she ends up in Montana at a nice B&B and meets Cody. That's when things changes for the best and also finds out some secrets too.

## **Jessica Mitchell says**

Loved it.

Cowboys, lawyers and werebears!

Abigail is a big shot lawyer in Dallas Texas. Everyone thinks she go her job due to her daddy. But it's just not true. She has worked hard to get where she is. Hoping for the slam dunk of the on this high profile case. She can't wait to get it over with.

Cody is a werebear rancher of a small town in Montana. He had everything he ever wanted in life. Just not the woman. With his last heartbreak, he is just not in the mood-not even his bear is. But when a curvy woman comes through the ranches door of the B&B inn. His bear goes nuts. His bear wants her but as a man he just wants a fling. Will it just be a fling between them with no strings or will something more happen?

## **Meels says**

If you know and care absolutely nothing about art, and you're looking for a bear shifter fated mate sexy times story, then you'll probably love this. The editing was fine, and it was free, so I'll give it 1.5 Stars. But it was just SO stupid!

Spoilers ahead, not that it matters. It's all completely predictable anyway...

1) Never mind the quality of a children's watercolor set. The brushes...there is NO way even a person with natural talent could pick up one of the crappy plastic bristled things and paint anything worth buying. Also, you cannot watercolor a snowscape without masking fluid. It's not...you just can't. And, "layers" of paint? That's what you do with oils, but not watercolor. Ridiculous.

2) No DA who won 100 cases and lost one could be fired. She's a LAWYER, and she doesn't question the decision, she just runs off. Insane.

3) She sees him shift, and freaks out, and he's just going to let her leave? Without even exacting a promise not to blab? And, his brothers don't seem concerned about this at all? Protecting their secret? Unbelievable in the extreme.

The relationship with her parents was miraculously turned around in a few weeks of nothing. Her career as an artist was booming in the same time frame, and she's moved to Montana and engaged as well? Pfft. Also, the resolution to the big court case was a big dud. Resolved in a paragraph. Wag wah waaaah...
