Jay says

I mildly interesting super short primer for ways to think about money. Will be good for my son when he's like 13.

Edited I now see that I read the wrong book, it's the other book called The Millionaire Fast Lane that is popular.

Justin says

It's 60% self-help, 20% helpful, and 20% completely detached from reality for a great many people (single parents, the elderly, the super young, etc.).
