Destroy thy Neighbor! A gate to another dimension has burst open, and invincible monsters called Neighbors invade Earth. Osamu Mikumo may not be the best among the elite warriors who co-opt other-dimensional technology to fight back, but along with his Neighbor friend Yuma, he'll do whatever it takes to defend life on Earth as we know it.

Border headquarters wants Yuma's powerful Black Trigger—and they want it desperately enough to send their top three squads to steal it. The Tamakoma branch is one step ahead, having already safeguarded Yuma, Osamu and Chika by recruiting them to their group of eccentric and talented agents. And Jin's precognition powers put him two steps ahead: he ambushes the thieves en route!

Probably only a 4, I did get bored enough at the beginning to choose sleep over reading. The ending was very exciting though, plus there was plenty of good info and some good lines and action and I enjoyed it a lot.

Though the series started well, in this volume it feels like it is falling more into tropes, building up what feels like a pointless rivalry in Border. But it does provide a nice lot of additional background and explanation for things, so it was an enjoyable read.

Oh wow. Did not see that coming. I should've, since I think it's fairly common in Shounen, but I totally didn't see it coming.

LOVED that reveal. Absolutely LOVED it.

~3/5

This is definitely a series that should be read in order. I have not read the previous two volumes, so I jumped in with little knowledge. I think if I'd read the previous ones, I would have more of an idea of how the world works and what the characters' part in it is.

Saying that, this wasn't too bad. It had me intrigued.

We get some back story on Kuga, our main character, an alien come to Japan who's rather secretive about his past. I liked his group of friends, and how they've decided to study in order to work into the system, get stronger. They meet a group of high ranking agents who agree to teach them. They're all rather unique, and I enjoyed the banter and dynamics between them.

Overall, an interesting story and world, and I liked the characters that I met. I would probably have to read the previous books before going forward, though.

A review copy was provided by the publisher, VIZ Media, and Erik Jansen from MediaLab PR. Thank you so, so much!

I'm really starting to love this story.

Review by D.H. : "I liked how they introduced a new character that made a change to the whole plot in general. My dad and my sister [would like this]."

Jennifer says

Still fun to read, and some of the backstory about the main characters and the organizations have been fleshed out. Plenty of side-characters were introduced, though not much background about them has been provided. As is common in Shonen Jump series, there are plenty of characters so fans can have their own favorites. The whole "leveling up/training" plan has been started.

One thing that I like about this comic is the humor, which isn't over the top, but which is present and amusing. For instance, I enjoyed how two characters introduced themselves by their trope. "I'm the scruffy hottie" and "I'm the impeccably composed beefcake."

Something tells me that *World Trigger* has appeal to a female audience as well, in part because of the fact there are so many boyband-looking side characters. Surprisingly, the female characters aren't drawn with huge boobs, and aren't particularly likeable. Aside from the cute, glasses-wearing operations officer, the female characters are a cute little girl, arrogant bitch-face fighter girl, and ditsy blonde fighter girl.

This one kind of won me over with the background stuff and the inclusion of a capybara.

More reviews (and no fluff) on the blog <http://surrealtalvi.wordpress.com/>

World Trigger continues to surprise and impress: a great blend of sci fi, battles, interesting characters, and twisty turning politics. The art is solid and I really appreciate all the background info/reminders put into the drawings and dialogue so readers don't get lost. Honestly, every chapters makes me want to rush right into the next to see what is going to happen next.

Story: Mikumo, Chika, and Yuma are at an impass but they can't stand still. Orders are given to Jin to apprehend the black trigger owned by Yuma but he's playing his own game, thanks to his precog ability. He'll make an offer to the trio that they can't refuse - but in doing so, he'll upset the balance of power in the border agencies. Certain parties have a vested interested in making sure Yuma's black trigger doesn't end up at Tamakoma.

We get a lot more information about Yuma, the neighbor, in this volume. I have to say, I'm impressed that it is Jin, not Yuma, who will end up having the mysteries and the secrets. But what stands apart for me is the great cast of characters - with the trio of Chika, Yuma, and Mikumo but also all the people in the different border squads. Instead of a lot of stupidity, the author is willing to give his characters intelligence and logic in their actions. So it isn't about an idiot kid flying off the handle and getting lucky - like so many titles of this type. It's really about the team and their diverse talents.

The art is solid and battle scenes are as well rendered as emotive ones. This volume doesn't have any battles with the neighbors but there is still plenty of action as well as the introspection. And, well, I have to laugh every time I see Yuma's pursed lips.

This is definitely one of my favorite titles Viz has put out this year and I eagerly await each new volume.

Reviewed from an ARC.

This was a pretty good volume and it fills in a lot of confusing details. Great story so far and looking to continue it.

Great series! You get to see more of the past of the Neighbors, as well as some revelations about certain characters. I also liked seeing each of the kids get a mentor and training to be their own squad.
