Liked it. A little unusual coming from the man's point of view but I got used to it. The plot was complicated enough to keep me interested. The relationship part was a little dry but I believe there is a sequel.

1980s Southern California and Silicon Valley, private-investigator, noir mystery. I really enjoyed it when it was first released in the mid-1980s. It's weathered the time fairly well. It's a bit dated, and some scenes are drawn out too long to try to build tension.

I love this series. The main characters are divorced but still very much in love. The mysteries are clever, and the love story fantastic. Fiona is strong and feminine, Fiddler alpha and hot. And did I mention there's an all time great dog? I would highly recommend the entire series, start from the beginning. These were written by a husband and wife team who write by themselves under the names of Ann Maxwell aka Elizabeth Lowell and Evan Maxwell. I don't know why they stopped writing these books but I wish there were more.

Supposedly the West Coast's answer to Robert Parker...I don't know about that...decent plot, OK asides, both personal and cultural and OK characters...I will read one more to see if we can get up to parker's standards

Elizabeth Lowell -- Ann Maxwell

### **Mark Birchall says**

Enjoyed this first book in a new private eye husband and ex wife series . Moved along at a swift pace with plenty of action

Not sure what was wrong here but didn't relate to the character. Could be that I'd just reread A Deadly Shade of Gold, John D MacDonald's Travis McGee story. the relationship mirrored one in that story and MacDonald did a much better job of explaining a relationship where two people are massively attracted to each other but incapable of being together. L.A. Times blurb on front cover says give Travis McGee a real run for his money...not even close, pale imitation

### **Jennifer says**

It is an ok beginning. I love this author writing as Elizabeth Lowell so I will read another and hope the series grows and lives up to my expectations of her style.

Enough to keep my interest.

I enjoyed this book and the following in the series. The characters and their relationships were intriguing.

JUST ANOTHER DAY IN PARADISE - Ex  
Maxwell, A.E. - 1st in Fiddler and Fiora Series

Fiddler wasn't born to be a private eye. He isn't in the game for money; he has plenty of that. He isn't trying to prove he's sexy or tough; that comes naturally. He's just trying to get off his numb butt and even the score for people who deserve a decent break.

Like Fiddler's honey-blond ex-wife, Fiora. She's a woman as at home in a boardroom as in a bikini. Unfortunately, she never felt at home with Fiddler-except in the bedroom.

Now lovely Fiora's in ugly trouble. Her lover's playing hide-and-seek with U.S. Customs. Her twin brother's working a shady deal on the dark side of Southern California's Gold Coast. And Fiddler and his ex-ladylove are about to find out why snow, ice, and silicon are three surefire ways to get yourself dead!

Okay, I love this series. Written by husband and wife pair Ann and Evan Maxwell, it just works.
