Killer Reunion

G.A. McKevett

Killer Reunion G.A. McKevett

If you think going home again is hard, try being a plus-sized PI with a troubled family legacy. But Savannah Reid is no shrinking violet. She's ready for her high school reunion, complete with mean girls, ex-beaus--and murder charges...

When Savannah Reid fled McGill, Georgia, all those years ago, everyone figured the chubby girl from the wrong side of tracks wouldn't be back. But with the hope of seeing her beloved Granny Reid, Savannah makes a triumphant return with her handsome husband on her arm, ready to face the past at her 25th high school reunion. When her old nemesis Queen of Mean Jeanette Parker shows she hasn't changed her stripes one bit, Savannah rises to the challenge--and finally comes out on top. Until Jeanette's dead body shows up in the swamp and just about everyone is ready to pin Savannah for murder....

Of course, Savannah's own Moonlight Magnolia Detective Agency comes to her rescue. But even her best buds are having trouble keeping Savannah out of jail, despite the fact that Jeanette has more than enough enemies--and quite possibly the blood of her recently deceased husband on her hands. Savannah never thought going back to school would be so hard. But she's learned a thing or two in her time away, and she's ready to finally make the grade when it comes to the ultimate high school redemption...

Praise For G.A. McKevett And The Savannah Reid Mysteries

Killer Gourmet

"Engrossing...Natural dialogue and characters with real-life problems set this series well above the average cozy once again." --*Publishers Weekly*

Sherry says

Killer Reunion

Savannah & husband Dirk go back to Georgia to help her Granny celebrate her birthday & attend Savannah's 25th high school reunion. Unfortunately as reunions go, this one was a real killer. The school bitch/slut who made Savannah's life pure hell as a young girl, continues her campaign against Savannah even 25 years later. When the bitch shows up dead, it is Savannah that is accused of her murder. The action kicks up as Savannah & crew try to prove her innocence. This book, as well as the series, is loaded with oddball characters. Savannah, herself, is gutsy & determined, & loves her family & husband fiercely. I found it to be an entertaining whodunit with lots of laughs & yet several instances where it tugs at your heart strings. I really enjoyed the ending & hope that this is not the end of the Savannah Reid stories. I really enjoy this series!

Christopher Hicks says

Another great book in the Savannah Reid series!! This one takes place in her childhood home of Georgia. I always love when Savannah's siblings and Granny are in the storyline. It was a fun read from start to finish. These books Never disappoint.

Stephanie says

The feisty Savannah Reid returns to Georgia to attend her high school reunion with her new-ish husband Dirk in this latest iteration of the wonderful Savannah Reid Mystery series by author G.A. McKevett. Sassy Savannah approaches her high school reunion like many of us, disliking the extra pounds, and the angst inducing wardrobe worries, in typical Savannah style, which has you laughing from the first chapter of the book to your final smile at the end of the book.

I am not going to recap the story (see the excellent synopsis), but a small hurrah came from me when Savannah stands up to the meanest of the Mean Girls. Unfortunately, when mean girl Jeanette's murdered body is later found in the swamp, everyone eyes Savannah for the crime. This is truly a delightful book, and I would recommend it to all cozy mystery readers. The murder mystery is cleverly plotted, with multiple red herrings, which leaves you wondering "who done it" till the very satisfying ending. The characters are wonderfully multi-dimensional; Savannah's dysfunctional family is hilarious, Granny Reid continues to be wonderfully supportive with her down home wisdom and fantastic meals, Dirk continues to grow as a husband, and Savannah faces her childhood demons. There are so many wonderful lines in the book I could not put this down, and read it from cover to cover in one day (well, maybe into the wee hours of the next day). I have a test for great books, which I call Just One More Chapter (JOMC) which is the phrase I mutter to myself while reading an exhilarating book such as this. This book ranks way up there on the JOMC scale. I have read almost all of the books in this series, and loved watching Savannah's growth, but I am convinced that it would also stand on its own for those unfamiliar with the series. G.A. McKevett brings all readers into the series, weaving background from prior books elegantly into this one.

In full disclosure, I received a copy of the book through Netgalley, in return for my feedback. My final thought: this is so much fun I believe it would make a great vacation read, and is worthy of that scarce

resource, carryon or suitcase space.

Nancy H says

All too often, a series that starts out good becomes mediocre in the middle. That is so NOT the case with the Savannah Reid mystery series! This book is just as intriguing and fresh as the books at the beginning of the series. The characters are still great and the plot hooks the reader into turning pages as fast as possible. G.A. McKevett definitely has a winning series here and I hope it continues for a very long time. I can't wait to see what Savannah and Dirk have to solve next. This series is definitely a good read!

Lisa Morin says

Plus size P.I. Savannah Reid is returning to McGill, Georgia. Visiting Granny Reid for her birthday is only one of the events she is returning for. The other is her high school reunion. Savannah isn't sure she is ready to face the past at her 25th high school reunion, she doesn't have many happy memories from that time in her life. When her old nemesis Jeanette Parker shows up and quickly resumes her verbal nastiness on Savannah, Savannah sees she hasn't changed one bit. Savannah bites her tongue, but that isn't quite enough. When she finally strikes out at Jeannette she feels vindicated, but only for a short while. When Jeanette's dead body shows up in the swamp, just about everyone is ready to pin Savannah for murder...including her childhood crush, who is now the sheriff.

I adore this series. The characters are so real and this one has a great story behind it. Class reunions can be fun or fatal and in this case it was definitely the latter.

I hope you all enjoy this wonderful book by the talented G.A. McKevett .

I received an ARC of this book in exchange for my fair and honest review.

Dee Haddrill says

I've said this before and I'm saying it again - reading a GA McKevett novel is like coming home to family. We have come to know and love Savannah and Dirk and the rest of the team (and of course Savannah's family) so well and this book is a beautiful testament to them.

Warning - spoilers for previous books from here on (but no spoilers for this one).

While I love the mystery (and I never guessed the killer up until its reveal), for me, the true heart of this story is the relationships. And top of that is the love that Dirk and Savannah have for each other. In fact, my favourite quote from the book is this -

"While Dirk's edges were a bit rough, and his idiosyncrasies somewhat difficult to ignore, Savannah never had to wonder if she was the center of his universe. He made that abundantly clear every day. "

Fantastic book in an amazing series.

Patty says

Killer Reunion by G.A. McKevett is the 21st book in the Savannah Reid Mystery series, and my first book by this author. Where have I been? This is my first book in the series, and I loved it. I need to read the rest of the series. I love southern cozy mysteries, and this is one of the best. The characters are very well developed, and so is the plot.

Savannah is a plus size private detective who along with her husband Dirk, a Detective Sergeant live in California. Savannah and Dirk are flying to Georgia, Savannah's home town of McGill to go to her 25th high school reunion, and to celebrate Grandma's birthday. Savannah is dreading seeing the mean girls of high school, especially Jeanette Parker. When Jeanette turns up dead after an confrontation with Savannah, she is the main suspect in the murder. Savannah and Dirk set out to find the real murderer.

I can not say enough positive things about this book. Not only is the mystery well written, the crazy family dynamics, and the town's Sheriff old relationship to Savannah just makes you want to keep reading page after page to see how it all turns out. You won't be disappointed. I am looking forward to going back to book one and reading the series. I strongly recommend this book for all cozy mystery lovers out there, you won't be disappointed.

I received this book in exchange for an honest review.

judy says

The Savannah Reid Southern cozies are a guilty pleasure. This one, that actually took place in Georgia, may be the best. It was quite touching and revealed the surprising depth of some of the beloved characters. A very special addition to a delightful series.

RO G'ma says

Killer Reunion is the 21st book in G. A. McKevett's Savannah Reid Mystery series. This is the first book I've read written by this author and I enjoyed her writing style. Even though I haven't read the previous books in this series, Ms. McKevett provided enough character background that I didn't feel lost jumping in so late in the series. The storyline is well thought out and the characters well developed. There are lots of laughs and no adult language, graphic violence, or sexually explicit situations. I highly recommend this book to anyone who enjoys reading light, cozy mysteries.

Savannah Reid and husband, Dirk, travel from California to Savannah's hometown of McGill, Georgia to attend her 25th high school reunion and celebrate Granny Reid's birthday. Savannah is looking forward to seeing her family but doesn't have many happy high school memories and isn't thrilled about attending her

reunion. Jeanette Parker, her high school nemesis, verbally strikes out at her and Savannah loses her temper and physically strikes out at her. When Jeanette's body is discovered, it seems that everyone except her family is ready to pin the murder on Savannah. Savannah, Dirk, and the Moonlight Magnolias set out to solve a murder since the local sheriff, who is her ex-boyfriend, seems to be in over his head investigating a murder.

I received a copy of this book in exchange for an honest review from NetGalley.

Susan Johnston says

Savannah and her husband, Dirk, travel to her home town for two reunions- one with her family and one with her high school class. She girds herself to deal with her nemesis throughout her school days, a rich bully whom neither time nor experience has mellowed.

When the woman is murdered right after an altercation with Savannah, and the evidence mounts, Savannah finds herself accused of her murder. Since both Savannah and Dirk know their way around a crime scene, it is up to them and a few chosen members of her family, to solve the murder and exonerate her.

This book was highly entertaining. It had a good story to which most readers will be able relate. The characters are believable, never stooping to the absurd despite the humour.

Thomas Wolfe said you can never go home again. Savannah proves that not only can you, but you can resolve some of the issues that have haunted your life and come to terms with them.

Definite five purrs and two paws up.

Book Lover says

I was given an ARC of this book by NetGalley for an honest review.

I love this series! Savannah Reid is a plus size PI. Her husband Dirk is a detective on the police force. This book gives us more into Savannah's background/growing up and how it shaped her into who she is.

Savannah is smart, plucky, determined, self aware, and very protective of those she loves. I love Granny Reid! All of Savannah's siblings are a cast of characters, all named after cities in Georgia! The Moonlight Magnolia Detective Agency is a very tight group of friends and family. I love Ryan and John, but we don't get to see them but for a quick conversation in this book. If you haven't read this series, I highly recommend starting at the beginning and reading them all. I have thoroughly enjoyed watching the evolving relationship between Savannah and Dirk. The mysteries are intriguing. I look forward to the next one in the series!!

Jennifer Dicenzo says

I love Savannah Reid! She is such an amazing character, full of spit and vinegar. And her together with Dirk, swoon! They are the perfect partnership. This book we get a visit back to McGill, Georgia, where Savannah grew up, for her to attend her high school reunion. She is looking forward to going home to see family, but not so much the girls she went to high school with. But with Dirk by her side she can get through anything! Even if that anything involves her ex being sheriff and the girl he cheated on her with still being the vindictive person she is, who just so happens to get herself murdered and leaving Savannah as the likely culprit. Now we all know Savannah didn't do it, but can she and Dirk find out who did before Savannah

spends 20 to life?

I was given an ARC of this book by NetGalley in exchange for an honest review.

Mandy says

Always enjoy these books! Savannah, Dirk, granny, Tammy, and Waycross always make for colorful characters! Great series, highly recommend!

Krystal says

The characters reminded me of the cast on the tv show "Mike and Molly"

This was a cute and funny book, with lots of mystery. The killer was not at all who I thought it would be, the author was really good at keeping that a mystery until the very end of the book. Usually I guess who the culprit is very early on.

From the first page to the last this story had me. Usually I get kinda bored and start quickly skimming through a lot of mysteries because i've read so many and they can be very generic and predictably boring, but this book had me all the way.

It was the first time i've read anything from this author, i'm hoping that her other mysteries will be as intriguing as this one, I can't wait to read more from her.

Elisa Hordon says

Savannah is back and heading home with her hubby Dirk for a high school reunion and to celebrate Granny Reid's birthday what could possibly go wrong....lol

I'm reading along laughing out loud a lot through this story Savannah is such a favourite character of mine I seriously love her. Savannah is a southern lady living in California, she is full of southern charm, sass and sarcasm, as an ex-cop turned PI Savannah also carries a gun and knows how to kick some serious butt, she is a women not to be messed with and if you ask her hubby Dirk that goes ten fold now with Savannah going through menopause.....lol yes Dirk is living on the edge every time he mentions Savannah and going through 'the change' in the same sentence.

When Savannah and Dirk arrive at her school reunion I really love how supportive Dirk is with Savannahs bad high school memories and coming face to face with mean girls who made her childhood even more of a living hell than it already was. Then everything goes to hell in a hand basket, Savannah gets into it with Jeanette the meanest of mean girls then Jeanette ends up dead and it looks like Savannah is being pegged for murder.

I do love how the Reid siblings fight each other but when someone else causes trouble for one of them look out, they band together in an unbreakable family bond and do what they have to.

I'm glad Savannah eventually finds closure from her past especially the torture she endure throughout her school years and everything she went through with Tommy, going home to visit will be a much more pleasant experience from now on and it's always good to let go of the past.

Savannah and Dirk with the help of the Magnolia investigation team and Savannahs family work overtime to solve this case and I really love the ending its going to make the next book even sweeter.
